

STATE TO PAVE  
MORE HIGHWAYS

for 8 miles, to connect with pavement to Elkhart, in Elkhart county.

Youth Breaks Neck In  
Dive Into Shallow Pool

Clinton, Ind., Aug. 2.—(UPI)—Bids on miles of state roads, will be received by the state highway commission on Aug. 14, swelling projects under contract this year to 253 miles, or 34 miles more than ever put under contract by the commission in a single year.

The sealed proposals will be opened in the office of John D. Williams, director, at 10 a. m. (est) August 14, will be the department's fifth road for the 1928 construction year, included in the projects involved described by William J. Titus, state engineer, are:

State road 6, from Missouri street E. Gary to Westerville, 22 miles, Porter and LaPorte counties.

U. S. road 24 from Logansport, to Wauseon, 12 miles in Cass and Miami counties. This will be a relocation of the entire distance and therefore not interfere with traffic on old 24 when the new road is laid. Distance between these two cities will be shortened two miles and sharp turns and steep grades eliminated by the relocation.

U. S. road 24, from Peru to Wabash, 12 miles, in Miami and Wabash counties. Nearly all of this is on relocation and shortens the distance between these cities about three miles.

State road 15, from Milford to New Paris, 8 miles, in Kosciusko and Elkhart counties. This also is on relocation and will eliminate two crossings of the Big Four railroad and an adjacent interurban crossing.

State road 19, from Nappanee north

for 8 miles, to connect with pavement to Elkhart, in Elkhart county.

It costs  
very little to  
recondition a  
MODEL T FORD

FOR nearly twenty years, the Model T Ford led the motor industry and it still is used by more people than any other automobile. More than eight million Model T Fords are in active service today—an indication of their sturdy worth, reliability and economy.

The cost of reconditioning the Model T Ford is small because of the low cost of Ford parts and the established Ford policy of charging all labor at a standard flat rate.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reboring cylinders and any other work necessary. Parts are extra.

Valves can be ground and carbon removed for \$3 to \$4. The cost of tightening all main bearings is only \$6. The labor charge for overhauling the front axle is \$4.50 to \$5—rear axle assembly, \$5.75 to \$7.

New universal joint will be installed for a labor charge of \$3. Brake shoes relined for \$1.50. Rear spring and perches rebushed for \$1.75. The cost of overhauling the starting motor is \$3. A labor charge of approximately \$2.50 covers the overhauling of the generator.

Repainting runs from \$10 to \$25. Taking dents out of body panels and doors runs from \$3 to \$16 for labor. A fender can be replaced for a labor charge of \$1 to \$2.50. The cost of fenders runs from \$3.50 to \$5.

It will pay you, therefore, to see your Ford dealer and have him put your Model T in good running order. By doing so you will protect and maintain the investment you have in your car and get months and years of pleasant, reliable transportation at a very low cost per mile.
