

# ONE HOOISER IN 10 GETS LICENSE TO HUNT OR FISH

Approximately 300,000 Fish-  
ing And Hunting Licen-  
ses Issued This Year

Indianapolis, Ind., Aug. 30. — (Special) — Approximately 300,000 resident fishing and hunting licenses will be issued during the fiscal year ending September 30, which means virtually one license issued for every ten of Indiana's approximate 3,000,000 inhabi- tants.

"It is the biggest license sale ever put on in Indiana, and a fifty thousand increase over 1927," declared George N. Mannfeld, superintendent of the fish and game division of the state conservation department, whose office distributes the license.

Mannfeld optimistically believes the figures will even go higher and considers that licenses sell for \$1 each.

points out that not another state in the Union sells so many resident hunting licenses considering population.

It is further remarkable that under the Indiana fish and game laws, landowners, their children, tenants and children of tenants, do not have to take out a license to hunt on land owned or controlled by them, nor to fish in public waters on their lands.

Also that no excise man who is a

resident of the state, has to purchase a license, but instead enjoys a free

permit.

Conservation department officials point to three contributing factors largely responsible for this remarkable license sale. First, there is a constant increase of people enjoying the sport as good roads extend over the state and automobiles come into so generous use. Second, there are literally thousands of people who take out a license and use it but one time. They contribute because they know that money thus spent is used for bettering fishing and hunting conditions in the state, and to purchase lands to create a public estate for Indiana. In the last few years the fish and game division — which division by the way receives no legislative appropriation — used its surplus earnings in adding two fish hatcheries and purchasing 12,000 acres of forest lands. This property now belongs to the state and its use for the common enjoyment of all assured. Last but also an effective reason for license sales is strict enforcement of the laws. This is accomplished through a warrant service, violators being punished under laws applicable to each case.

## Named Carroll's Jail Visitor

An investigation by a Congressional committee into the alleged irregularities in the federal prison in Atlanta, Ga., has brought out the fact that Dorothy Knapp visited her friend, Earl Carroll, while the New York theatrical man was confined there. It is thought likely that she will be called to testify as to whether she received any special favors on this occasion.

## On Trial for His Life

## Dr. Shumaker May Submit Plan For Enforcing Dry Law

Indianapolis, Aug. 30. — (UPI) — A man's home, should not be so immune to search if prohibition actually is to be enforced, believes E. S. Shumaker, Indiana anti-saloon league superintendent.

That contention was to be incorporated in a proposal Shumaker may submit in competition for the \$25,000 prize offered by W. C. Durant, Auto magnate, for the best solution of the problem improved prohibition law enforcement.

Dr. Shumaker, in point of service the oldest state dry superintendent in anti-saloon league work, seriously is considering entering the contest, if Dr. Durant did not bar "those who are interested in the reform", Shumaker said.

Remove the cause, which is not in the skin itself, and pimples, boils, eczema and that sallow complexion will disappear.

You may have tried many things without relief. Why not try S.S.S.?
