and 3 that had no knowledge of the \$750,000 in Continental bonds, Hogan said:
"We will say, and expect the evidence to prove, that that question was asked in the form charged by the indictment and if it was asked that it was misunderstood by Stewart."
The first evidence offered by the government was the original senate Teapot Dome resolution of 1922 which Rover read to the jury.

DILUTION CHART

Achievement of the Century—An Oil That Will Not Dilute!

"We need oil in our crankcases that won't thin out", said the motorists of the country.

"Impossible", said lubricating experts a few years ago. "All oils dilute". It was true. They all did.

And then came Iso=Vis.

Iso=Vis was developed in the great research laboratories of the Standard Oil Company (Indiana) by men who have devoted their lives to investigating the problems of petroleum.

Iso=Vis has every characteristic of the highest grade lubricants and, in addition, the sensational property of constant viscosity.

Iso=Vis will not thin out.

Try it. You will be surprised at the improvement it will make in your car's performance.

Prepare Your Car for Winter

Drain, flush and refill with the proper grade of Iso=Vis! At any Standard Oil Service Station and at most garages.
