Mental Attitude Counts

Keep your mind healthy in its action and keep a decent ethical view of life. Vanity, conceit, pomposity, will do you even more harm than lack of poise and self-confidence. Just because you are an artist you are no different from all the rest of mankind. Perhaps lots of others are artists in their natures who have never had a chance. Your mental attitude has a powerful influence upon your physical health.—Herbert Witherspoon.

Hikers, Grease Your Sox

Hikers who are troubled with tender feet are advised by the American Magazine to follow the example of soldiers during the war and grease their socks on their feet, before a long hike, with vaseline or candle grease.

VETERANS TO HOLD REUNION

(CONTINUED FROM PAGE ONE)

ficer, will be in command of the first battalion; Major Backman will direct the movements of the second battalion; Adj. Beshore will command the third battalion, and ranking officers will be in command of the companies.

The old original 160th regimental band will be assembled at this reunion, with sixteen members in attendance. The band, under the direction of Comrade Swihart, will lead the parade, playing the inspirational marches to which the boys tramped in the days of '98 and '99.

The business session will be snappy and filled with items of interest to all comrades. Frank V. Guthrie, mayor of Logansport, has extended the courtesy of the municipal golf course for Saturday, August 17. Company M, of Logansport, will present a loving cup to the company which registers the largest number of members in attendance at the reunion. The committee on arrangements has compiled a complete roster of the names and addresses of 922 comrades of the regiment, which roster has been printed and bound in leather, with the proper inscription in gold leaf on the front cover. Company M. will present the booklet to the association.

When the plane made its easy, graceful landing it was the signal for the most uproarious cheer heard here in years. Thousands of persons had gathered. The field was jammed to capacity. The verandas of the houses were packed. The whole vicinity was literally filled with humanity.

Officialdom was on hand to welcome the Americans in the name of the king, Premier Mussolini and the Italian people. The premier himself after waiting for nearly two hours, had departed, just a few minutes before the Pathfinder arrived. The Americans were delayed by strong headwinds along the Mediterranean.

The Italian undersecretary for air, Italo Balbo, received the fliers in the name of the king and the kingdom. He was one of the first to shake the hands of the aviators.

"I offer you my heartiest congratulations, Yancey and Williams," Secretary Balbo said in English, "in the name of the king, Mussolini and the Italian government."

The fliers were lifted to the shoulders of some of the people in the surging mass and carried to the barrier of the field, where other officials greeted them. The Americans did not recognize the officer next to Balbo, but he was Francisco de Pinedo, the most celebrated of Italian fliers.

When Yancey was informed of that later, he wanted to shake hands with De Pinedo again and thank him for the welcome De Pinedo had extended in the name of Italian aviation. But the crowd was too thick for such an attempt.

Later on, however, when the Americans were received at the summer home of Premier Mussolini, the Americans had a chance to speak with De Pinedo at great length.

The fliers, accompanied by the undersecretary, were received by the premier at Villa Torlonia, where they gave the Italian dictator a full description of their flight and the hazards with which they had to contend. Mussolini seemed deeply interested, asked many questions and congratulated them on their courage and success.

ROME WELCOMES AMERICAN FLIERS

(CONTINUED FROM PAGE ONE)

Italo Balbo has given orders for squadrons of airplanes to fill the Roman skies to escort the Americans to the various aviation fields in the vicinity of Rome where they will be met by the officers.

Even the fact that the daring fliers failed to reach here in an unbroken journey from Old Orchard, Me., did not diminish the enthusiasm of the Romans. The Americans were forced to halt at Santander, Spain, after spanning the Atlantic, because of fuel exhaustion.

The arrival of the monoplane Pathfinder was an impressive sight. At precisely 9:30 o'clock last night (2:30 p. m. c.s.t.) the plane swooped out of the dark sky. The pale glare of the lights at the Littorio airport gave the plane a weird appearance.

When the plane made its easy, graceful landing it was the signal for the most uproarious cheer heard here in years. Thousands of persons had gathered. The field was jammed to capacity. The verandas of the houses were packed. The whole vicinity was literally filled with humanity.
