Suspicious Character Is
Wanted On Murder Charge

Indianapolis, July 22.—(U.P.)—Harvey Decker, 23, Rocky Branch, Ky., arrested here last week as a suspicious character, will be returned to Kentucky to face a murder charge, police said today.

Decker was alleged to have admitted to Indianapolis detectives he shot and killed his uncle, Luke Gregory, Whitney City, Ky., a week ago last Saturday, when Gregory threatened him with a shotgun. Decker is alleged to have confessed shooting his uncle with a revolver, after which Gregory's wife seized a shotgun and fired at Decker, but missed.

U. S. Farm Profits In
1928 Greatest Since War

Washington, July 22.—(U.P.)—American farmers reaped greater profits from the soil in 1928 than in any previous period since the post war agricultural slump, the agriculture department has announced after surveying data gathered from 11,000 farms.

These farms showed an average net return of \$1,334 last year compared with \$1,290 in 1927 and \$1,133 in 1926, the department said.

From the gross profits of each farm the department subtracted \$1,359 to obtain the net return. Of this amount it was estimated farmers spent \$1,000 for necessities and consumed home grown foods valued at \$269.

Aged Man And His
Wife Found Murdered

Barbourville, Ky., July 22.—(U.P.)—An aged man and his wife were found murdered in their home here today, apparently the victims of robbers.

The couple, James Foreman and his wife, May, had been shot and their heads battered in with an axe handle.

Foreman was reputed to have kept large sums of money in the house.

TO BUILD FOREIGN

AUTO IN AMERICA

Austin Company, Of Eng-

land, To Build Car To

Sell Under \$500

London, July 22.—(U.P.)—Official an-

ouncement of the first invasion of

the American automobile manufactur-

ing field by a low-priced British car,

made here yesterday by Sir Herbert

Austin, British motor magnate, excited

keen interest today in the business

and financial world.

Sir Herbert announced that the

seven-horse power Austin car, which

has had four years of experimentation

and use on this side of the At-

lantic, is to be made in large quanti-

ties in America at Butler, Pa., in a

plant recently purchased from the

Standard Steel Car company. It is

expected that the car will sell under

\$500 in the United States.

British interests saw considerable

significance in the announcement, be-

cause Henry Ford several years ago
