## Gov. Leslie Criticized For Extradition Policy

Indianapolis, July 30—(UP)—Indiana may become a haven of refuge for criminals unless Gov. Harry G. Leslie discontinues his practice of refusing extradition promises, Merl Wall, deputy attorney general, told the governor during a discussion of an extradition request.

Despite Wall's oratorical attack the governor refused extradition of Claude W. Recort, wanted in Floyd county, Virginia, for robbery.

The governor harkened to the plea of Charles E. Scharz, Portland attorney, who said Recort has been working on his brother's farm for several months, is well liked and has proved trustworthy.

Recort was said to have admitted the robbery and to have voluntarily returned part of the loot.

## Charges Snook Lawyer Talked With A Juror

Courtroom, Columbus, Ohio July 30—(UP)—Prosecutor John J. Chester Jr., in the trial of Dr. James Howard Snook accused of the murder of Theora Hix said this afternoon he had asked dismissal of a number of jurors.

He said he had offered Judge Henry L. Scarlett evidence that a jury member had been in conversation today in the court house with a defense attorney.

Chester said the matter would be inquired into by the court later in the day. It was understood that Chester had a photograph of the jury member and the attorney.

## CATTLE INDUSTRY IN NEED OF BUXOM GIRLS AND RAIN

## (CONTINUED FROM PAGE ONE)

was an "unsatisfactory" day. Many car loads were carried over, unsold. The immediate cause was the report of drought throughout the corn belt, which sent corn futures to new highs for the year. With the yards crowded with grass-fed steers from Texas, farmers hesitated to stock up with feeders.

Packers, on the other hand, at the very start of the canning and sausage season, faced the fact that meat consumption in the United States has fallen from 70 to 58 pounds per capita.

With cattlemen, they planned to meet in Omaha next month to start a national "eat more meat" campaign. Started during the war as a patriotic duty, "meatless" days have continued as healthy, fashionable duties. Men seeking health, women seeking "slim boyish" figures, have eaten fish and vegetables, causing a slump in meat demand.

Cattlemen have solved their problem in their own way—mostly by hard work. The rest they leave not to legislation, but to nature. It isn't the government they're asking for relief, it's the weatherman and the fashion dictator.

## Budget Bureau Has Estimates Nearly Ready

Washington, July 30.—(UP)—The budget bureau soon will lay before President Hoover the preliminary estimates of government expenditures for the fiscal year 1931, which are understood to aggregate about \$4,000,000,000, or slightly more than the government spent in the last fiscal year, it was learned today.

Minful of the President's injunction that governmental departments must hold their expenditures next year to the level of fiscal year which closed on June 30 last, the departments have generally endeavored to prune their estimates to the limit.

## "I WAS HIGHLY NERVOUS BEFORE KONJOLA SCORED"

Lady Relates Fine Experience With Master Medicine—All Else Failed

## MRS. ROBERT WEST

"I was in a highly nervous condition before Konjola scored another one of its marvelous victories," said Mrs. Robert West, 1219 Wade street, Indianapolis, Indiana. "Nervous spells came on me when I least expected them and made me weak as a child. From morning until night I was tired and run down."

"The first bottle of Konjola showed that I was on the right road to recovery, and by the time I finished the fourth bottle, I was well and happy again. All my health worries have disappeared; my nerves are quiet and settled. Now I can hardly believe that I was ever in distress. I endorse Konjola to all who suffer, as it is, indeed, the master medicine."

Konjola is sold in Decatur at the Smith, Yager & Falk drug store, and by all the best druggists in all towns throughout this entire section.

## HEAT WAVE IS STILL UNBROKEN

## Weather Man Sees Little Relief In Sight; Mercury Reaches 95

Indianapolis, July 30.—(UP)—Little change in temperature was predicted for Indiana today and tomorrow by J. H. Armington, U. S. meteorologist here.

"Although temperatures throughout the state today were a bit lower than yesterday, I can see little relief in sight," Armington said.

Madison, according to official readings, was the warmest place in Indiana yesterday with 95 degrees. Vincennes was next with 93 and Bloomington and Evansville third with 92.

Cambridge City was the coolest with 58.

Indianapolis remained around the 85 mark most of yesterday. It was 83 today.

## East Sweaters

New York, July 30.—(UP)—Thunder showers brought partial relief to a parched countryside last night but had little effect on the heat wave which has enveloped the entire east. The forecast for today was fair and "not quite so warm."

Three deaths and 14 prostrations here yesterday were ascribed to the heat, and five drownings were reported in the metropolitan area.

The maximum temperature here

was 91. Washington and Albany, N. Y., reported high marks of 98 degrees; Boston 94; Philadelphia 92; Pittsburgh and Portland, Me., 90.

## Cotton Industry Crisis In England Grows Worse

Manchester, Eng., July 30.—(UP)—The grave crisis in the Lancashire cotton industry, where 1,800 mills were shut down throwing out of employment 500,000 men, took a turn for the worse today with announcement that the cotton waste spinners and manufacturers association also had given notice to their workers of substantial wage reduction to become effective next Monday.

The notice stated that the workers would be asked to take a cut of two shillings, six pence in the pound, or 12½ per cent. It was taken for granted here today that the workers would follow the lead of the spinners, weavers and cardroom workers and be locked out rather than accept the drastic reduction.

## Train Strikes Auto At Akron, Ohio; Three Killed

Akron, O., July 30.—(UP)—Three men were killed in a crash at O'Connor's crossing here today when a Baltimore & Ohio train struck their automobile.

The men, all from Cuyahoga Falls, were on their way to work, when the train struck their machine. The car and occupants were carried 200 yards by the locomotive.

The dead: Charles Owens, N. M. McClung and Emory Hanna.

## Mr. Calvin Coolidge Says:

"The man who saves is the man who will win."

"The people of past ages did not fail to work, they put forth great effort, but what they produced they at once consumed. They did not get ahead; they made no progress but there came a time when they began to create a surplus and from that day civilization began to appear."

The foundation of it all was Thrift.
