STICK BY
YOUR TOWN:—

Patronize your home stores, whether you live in a big town or a small town, says the Labor Digest. The reasons for this are many. For example a citizen who owns property in a town has a stake in that town's prosperity. If the home town is prosperous, that means more people will be drawn to the town. There comes an increased demand for property because of the increase in population. This in turn means an increase in the value of all the desirable realty in the town. Thus each and every citizen shares in the well being of the town. How then is this well being best to be preserved and advanced? The answer is very clear—by giving the home merchant a chance to live and thrive. But he cannot thrive if the money made by a citizen is spent in some other town for exactly the same wares which often could be purchased advantageously in the home town. Surely, if the home merchant does not prosper, this is reflected in a dull, sleepy condition which gives the community a bad appearance. A sort of city rot prevails. There is a lack of pep and ginger in the town's makeup. The town fails to prepossess, to attract. Live, hustling enterprises which might locate in the town sense an atmosphere of indifference, of discouragement, of depression. These subtle influences have a bearing on important decisions affecting the town's welfare—often adversely.

Stick by your home town. It is the one in which you have the deepest interest, the biggest stake. Its prosperity means more to you than the prosperity of some other town. Stop wearing out rubber tires in order that the merchant of some other town may get your money. It is unfair to your home merchant—it is unfair to yourself.

Let your resolution then be:
Every dollar I shall spend, all things being relatively even, I shall in the future, spend in my home town.

William F. Kinney who has more millions than most of us have dollars wants a haircut when he wants it and doesn't care if it does cost more than forty cents. He has been touring Europe the past several months and Monday decided he ought to be given a "round trip" by a real barber before returning to the good old U. S. A., so he called Louie Airgo in New York by telephone from Paris and asked him to come over and do the job. Louie is leaving tomorrow and will no doubt do the work in such a manner as to make the Paris barbers put on Airgo shaves, haircuts, shampoos and so on and so on.

Starting fires at this time of year when the country is as dry as now is a very serious thing. If you must burn trash or leaves be sure to see that they are entirely out before you leave. Each day we hear of destructive fires being started from bon fires. Thirty thousand acres of woodland is being destroyed this week in northern Wisconsin, the result of a cigarette butt being carelessly thrown down. We have but recently secured a reduced insurance rate. Let's preserve it by being more careful.

TODAY'S CHUCKLE

Jackson, O., —(UP)—A baby girl with a perfectly formed tooth was born to Mr. and Mrs. Ray Gehring of Wellston, near here.

to do this for my aunt," ought to be sent up long enough that his aunt will feel sorry for him. This is the third time the bank has been robbed and each time Miss Blanch Morrill was alone. She will certainly soon begin to feel as though there ought to be some one around to help her entertain these visitors and we suggest a man with a sawed off shot gun.

It is sad news for many Indiana folks to learn that David Starr Jordan, president of Leland Stanford university is fatally ill at his home in Palo Alto. He was the founder of Indiana University and has for years been recognized as one of America's greatest educational leaders.

J. Thomas Hefflin, son of the loud speaking senator from Alabama, is under arrest again, this time at Phoenix, Alabama, on a charge of drunkenness and his companion is held for driving a car while intoxicated. Too bad for every one concerned, young Tom, old Tom and the public in general.

Please cut the weeds along the country roads. They are offensive and mar the looks of the countryside. It could be done all over the county in a few days and every body would appreciate it more than we can tell you. At this season of the year the weeds look the worst and are.

The young man who ran down Mrs. Pontius at Wolcottville Saturday night received a sentence of two to twenty-one years in prison while the woman who sold him the home brew got off with ninety days. Looks a little unfair doesn't it?

It wouldn't hurt to have a program including an airport, a sewage disposal plant, a better river and a few other things. Even if it took ten years to get them we would be shooting at some thing worth while.

MODERN ETIQUETTE

By
ROBERTA LEE

Q. At what age should girls use the prefix "Miss" on their cards?

A. Sixteen.

Q. How should halved oranges and grapefruit be eaten?

A. With a pointed spoon. Oranges and grapefruit must be eaten very quietly, and carefully, without squirting juice into the eye of a neighbor.

Q. Are transparent blouses, through which the under garments can be seen, proper to wear?

A. No. If very sheer material is used a special slip should be worn beneath it.

Household Scrapbook

By
ROBERTA LEE

Lemon Juice
The juice of a lemon taken in hot water the first thing in the morning is an excellent liver correction, and is an excellent anti-fat medicine for stout people.

A Reading Stand
A reading stand of painted wood to use in bed, or place upon a table, is a great convenience, particularly if the book is heavy.

Kerosene Oil Spots
To remove kerosene oil spots from cloth scour with turpentine, then with warm water and soap.

"My! you look lovely to-night"

SHE knew the compliment to be true—for the last simple had vanished.

If you are one of the embarrassed—and men are not exceptions—with skin blemishes that linger, and sometimes leave scars, you must realize that the logical cause may come from the blood.

A clear, smooth, velvety skin speaks loveliness. Men admire it. Women praise and secretly envy. Hope, joy, happiness, and even love, may depend on the possession of a clear, unblemished skin.

On the other hand—skin eruptions are outward evidences of the condition within. Authorities state it is an indication that the body's power of resistance to disease and infection is low.

Meaning, that there is a deficiency of red-blood-cells.

Without plenty of rich, red blood, there could be no strong,

sturdy, powerful men, or beautiful, healthy women.

When you get your red-blood-cells back to normal, that sluggish let-down feeling, loss of appetite, boils, pimples, and skin troubles disappear. You get hungry again and you sleep soundly; firm flesh takes the place of that which was once flabby. You feel strong. Your nerves become steady. You are resistant to diseases.

S.S.S. is Nature's own tonic for improving the appetite, building strength, and clearing the body of so-called skin troubles, by increasing the red-cells of the blood.

S.S.S. is made from fresh vegetable drugs and has stood the test of over 100 years.

All Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

HIGH SCHOOL NOTES

By PAUL HANCHER

School is not running smoothly as yet but as smoothly as can be expected for the beginning of school. We have not been seated yet, but that will be done Monday or Tuesday at the latest. All of the classes are going but no large assignments have been made, but it won't be long now.

There is a lot of talk about the football game to be held Saturday at the Country Club field, and great hopes are extended for this year's team.

The largest class up at school has not been determined because the exact registration is not known.

The usual warm reception was accorded to the freshmen this year as in former years, but they seemed to be a sturdy lot and did not mind it much. They took a willing part in the entertainment that was afforded them by the kind upper classmen, and will soon be full fielded freshmen.

About Monday of next week the elections of officers will start. It will start with the seniors and end with the freshmen.

NOTICE

The ladies wanting tags for their entries in the Art Exhibit of the Decatur Free Street Fair may secure them Saturday afternoon from 2 to 8 o'clock (Daylight saving time) by calling at the Art Building, which will be located in the Bowers Building on Monroe Street. It would be wise to secure the tags Saturday afternoon so that the entries and registration will be taken care of for the opening day, Tuesday. Committee

"Fip" and "Bit"

Fip is a colloquial name in the United States for a five-penny piece. It has practically passed out of usage. Bit is also a colloquial Americanism for 12½ cents. Usually it occurs in the expression "two bits" for 25 cents and "four bits" for 50 cents.

sturdy, powerful men, or beautiful, healthy women.

When you get your red-blood-cells back to normal, that sluggish let-down feeling, loss of appetite, boils, pimples, and skin troubles disappear. CONGRESS TODAY

—(UP)—

Senate:

Considers Jones resolution to investigate transfer of prohibition enforcement to justice department.

Tariff bill to be made unfinished business.

Adjournment scheduled until Monday.

House:

In recess until Sept. 23.

Black Snow

Though sometimes discredited, it is an actual fact that black snow sometimes occurs. The color is produced by the action of innumerable fungi, known as the "Micrococcus nivalls." It has also been reported from time to time that snow either red, blue, or green in color, has fallen in certain localities. This is caused by the action of such fungi. The black snow is comparatively rare.
