Ask Mother, She Will Remember Revised Fashion

New York, Sept. 5.—(U.P.)—Who knows but what chaperones may again come into style, since leg o' mutton sleeves, ankle length skirts and corsets have cast their threatening shadow on the mode? With shops reproducing sketches of The Gibson Girl, and all sorts of research going on in family albums, one is prepared for almost anything.

There is the fur jacket for instance. Of course it has been presented before the sports wear, but this year's early crop of short fur jackets has a faintly reminiscent air, which comes perhaps from the line of the collar which goes up not down in some cases. The fur bordered evening wrap and the fur trimmed suit set one's memory stirring, while "shirt-waists"—for what else is a tuck-in blouse—again with us at a time when we are doing our best to reconcile ourselves to shorter waists and longer skirts.

The satin tuck-in follows the tweed ensemble about until one gets quite into the habit of thinking them inseparable.

The tweed jacket costume and ensemble ushers in the fall season whether in town or country. It is smartly belted, sometimes fur trimmed, and chee Chanel fur lined. Paquin who has a way with him with coats has developed them with belts and flares. While opinions vary as to length Paquin finds the seven-eighths coat to his liking. Even his fur coats are fitted, which brings to mind that the problem of the busy woman is further complicated by the necessity of fittings. The new mode must seem individual or it belies its mission.

The Royal Neighbors will hold their district convention at the Ben Hur hall, Thursday evening at 7:30 o'clock. Each member is requested to bring one dish of food, for the pot-luck dinner.

The guests were invited into the house, where they were delightfully entertained. Lovely refreshments consisting of Angel Food cake and ice cream were served by Mrs. Liddy assisted by Mrs. F. W. POPULAR BERNE COUPLE IS MARRIED SUNDAY

A quiet wedding took place Sunday night at 9 o'clock at which time Miss Josephine Reusser, daughter of Dr. and Mrs. A. Reusser of Berne became the bride of Mr. Harmon Bagley, son of Mr. and Mrs. A. Bagley, also of Berne. The wedding took place at the Mennonite parsonage. A single ring ceremony was used and was read by the Rev. Suchau. The couple were attended by the bride's sister, Mrs. Robert Krick of Decatur, as bridesmaid, and Mr. Robert Krick, as best man. Dr. Reusser was also a witness of the wedding.

The bride was attractive in a dark brown crepe dress, fashioned with a large tan collar which hung loose in two ties in the back. It was divided into two parts, each lined with rows of harmonizing buttons in the front. The sleeves were long and tight. The skirt was shirred below the waistline and hung evenly at the hemline. The bride wore a tan hat and briele kid footwear to match the trimmings of the gown. She carried a large bouquet of apricot colored roses. The groom wore a dark suit. The bridesmaid, Mrs. Krick, was attired in a black crepe dress, of a late fall fashion, with a black hat and black footwear to match. She carried a large bouquet of Tea Roses. After the ceremony the bride and groom went to the home of the bride where a wedding party was given in their honor. The Reusser home was artistically decorated with a profusion of late autumn flowers. The affair was informal and was attended by twenty-

Colchin of Omaha, formerly of Decatur and son of Mrs. Lucy Colchin of this city. The wedding took place Tuesday morning, September 3, at 9 o'clock at the Lady of Lourdes church at Omaha, with Rev. Lace and orange blossoms held the Normandy bonnet of her tulle veil in place. Her flowers were white roses. The bridesmaid, Miss Agnes Floral wore a full skirt with a lace panel and basque waist. Her footwear was blonde and she carried sunburst roses. Following the ceremony, breakfast was served at the Conant hotel, where covers were laid for 20 guests. Auto-Minded

Bobbie, age two and one-half, knows many of his letters and can pick out many words. He is a bit original in naming the letters unfamiliar to him. He was spelling "b-o-o-k," and named the letters "bee-tire-tire-kay, book." The family automobile provided the suggestion for the middle letters.

Medicinal Perfume

The use of perfume for medicinal purposes, among the ancients, was very widely practiced. Rosewater formed the basis for many remedies, while during a plague perfume was used extensively as a preventive. The savage and barbarous nations, as well as the civilized and refined, used perfume extravagantly. African chiefs anointed their bodies with it—perhaps as a sunburn protection.

Emerson "Made" Whitman

When Walt Whitman's "Leaves of Grass" first appeared, it did not attract attention till a letter from Emerson to Whitman calling the volume "the most extraordinary piece of wit and wisdom that America has yet contributed" was published in the New York Tribune. This created a demand for it.

Poor Pickings

Miss Panny says she sees by the papers where freight train robberies amount to only 1.8 cents per car per annum, and she would not have thought burglars would find it worth while to break open a car for so small a sum.—New Orleans Times-Picayune.

Earliest Use of Iron

Specimens of iron have been found in Assyrian and Egyptian ruins. In the British museum there is a piece of iron believed to date from about 4000 B. C. In the Black Pyramid of Abusir, at least 4000 B. C., Gaston Maspero found some pieces of iron, and in the funeral text of Teti I (about 3400 B. C.) the metal was mentioned. The knowledge of iron spread from the south to the north of Europe, and one theory is that iron first came into use in Africa.

Hawaii Possible State

There is no constitutional law which would prohibit the island of Hawaii being given the status of a state. It is already annexed and is a territory of the United States, having the usual territorial degree of self-government, with representation by a delegate in the United States congress.

The weather bureau says that cyclones are storms that cover extensive areas with winds of varying degrees of intensity, but usually not of the force experienced in tornadoes or hurricanes. An enlisted man in the navy has little use for any other name than his last. Since his shipmates refer to him only by that name. Should he however, have the name of O'Connor he is called Chuck O'Connor; Murphy becomes Spud Murphy; Ryan is always Patty Ryan, while Richards becomes Dick Richards and Webb is bound to be Spike Webb.

Rubber Made More Lasting

In the past five years long strides have been made in preventing the deterioration of rubber. Loss of strength previously was probably due to a slow process of oxidation. Anti-oxidants have been found which now prolong the life of rubber materially.

Federal Grand Jury Continues Its Probe

South Bend, Ind., Sept. 5.—(U.P.)—While District Attorney Oliver M. Loomis continued to prepare his case against alleged racketeering and political graft in Lake county, the Northern Indiana federal grand jury today idled with minor federal law violators.

More than 200 persons are to be called before the jury in connection with the Lake county situation. It was considered likely that more than

100 would be indicted. Added impetus was believed to have been given the jury after 5 of 96 negroes taken in raids in Lake county last night were held on vice charges. The mayor and chief of police of East Chicago and several prohibition agents were arrested in raids in East Chicago recently and were bound over to the grand jury for investigation.
