Cats and Catnip
The Biological survey says that it knows of no reason why cats are fond of catnip. It is true that all breeds of the cat family like catnip. Catnip does not grow in some countries where cats are found, but even so, cats which are not familiar with catnip seem to like it the first time they come in contact with it.

There's No Escape
We can escape neither death nor taxes, and it appears that death herself cannot sidestep the tariff. Six traveling skeletons, a short time ago, were assessed a 10 per cent ad valorem duty before being admitted to the United States.—New Orleans Times-Picayune.

Cong. Kvale Dies

Congressman O. J. Kvale of Minne-
sota was found burned to death in
his cottage at Fergus Falls, Minn.,
Sept. 11. From a cursory examination
authorities believe an overheated
stove caused the blaze.

Blamed

Gilda Grey, Milwaukee movie ac-
tress and known as the "princess of
shimmy," got her name in the paper
again. The wife of C. B. Krepps,
Gilda's former manager, charged that
he married her only to "spite" Gilda
when she refused his attentions. Mrs.
Krepps has filed suit for separate
maintenance in St. Louis on Septem-
ber 9.

Facts About Furs

The most durable fur is that of the
otter, with bear, beaver and seal com-
ing next in order. Natural mink is
more durable than Persian lamb, and
sable less lasting than either. Coney
is the least durable of any fur, and
the skin of the mole comes next in
lack of lasting power.

"De Soto Oak"

In Florida, in Tampa Bay park,
there is a large spreading oak which
is said to have been the resting place
of De Soto on his first trip to Florida.
It is known as the "De Soto Oak."
Gen. Nelson A. Miles made his head-
quarters under this tree for a while
during the war with Spain.

Name Is Indian

The name "Iowa" is derived from
the Indian tribe Ioways or Alatauex,
a branch of the Sioux. The word means
"sleepy ones."

Immense Iron Supply

Of the world's iron supply the United
States furnishes 88.5 per cent and
has 10,630,000,000 tons in sight, most
of it in the Mississippi valley.

29-YEAR OLD
CAR IS WINNERAntique Parade Attracts
Large Crowd Of Fair
Visitors Today

Hundreds of street fair visitors saw
the parade of antique cars, together
with the sporty new '29 and '30 mod-
els, which was held at two o'clock this
afternoon.

The oldest car entered was a 1900
model, one cylinder Oldsmobile and
first prize was awarded to the entrant.
The car is owned by John Ifer of
Wells county and was entered by the
Sailors Motor company of this city.
It was the oldest thing in cars you
ever saw. It has one seat and the horse
power is 11. When first registered
with the Secretary of state, its number
was No. 013.

Other awards in the antique car par-
ade were: Model T Ford 1910 model,
owned by Oliver T. Linn, Wells Coun-
ty, entered by Jeff Leitchy of Berne,
second prize.

Buick, 1905 model, 4 cylinder, 2
seater, owned by Buick Motor com-
pany, Van Wert, entered by Decatur
Chevrolet Corporation, third prize.

The prizes were awarded on the
following classifications: oldest car
entered; best kept old car; best kept
and oldest car. The prizes were \$20
each. The judges for the contest were
William Faurate, Dr. J. C. Grandstaff
and Dal Hunsicker.

About 100 new cars were in the
parade, including the Ford, Chevrolet,
Dodge, Chrysler, Oakland, Graham-
Paige, Hudson-Essex and Marmon.
There were only about 10 old cars,
coming under the antique classifica-
tion.

Predicts Cheaper Gems

Minneapolis, Sept. 12.—(UP)—The
day when three dollars will buy a dia-
mond large enough to satisfy the most
demanding of "Gold Diggers" is not
far distant, Dr. J. Willard Hershey
of McPherson college, Kansas, told
the American Chemical society today.

Dr. Hershey, who recently produced
the largest synthetic diamonds on re-
cord, said he was sure the difficulties
which prevented the manufacture of
"large, beautiful gems" would be over-
come.

The Kansas chemist revealed that
his record-sized stones were made of
a combination of pure carbon and var-
ious metal particles melted in an
