NOTICE!

Our directors have made application to change our Charter to a STATE one.

We shall have same shareholders, same directors, same officers as at present. We believe that we can more nearly meet the requirements of our community under the State system.

To meet the details of this change it is necessary to give the following notice for 61 days:

The First National Bank located at Decatur, in the State of Indiana is closing its affairs. All note holders and other creditors of the association are therefore hereby notified to present the notes and other claims for payment.

T. F. GRAIKER, Cashier.

NOTICE TO TAXPAYERS

Notice is hereby given that Monday, November 3, 1930, will be the last day to pay your full installment of taxes. The county treasurer's office will be open from 8 A. M. to 4 P. M. during the tax paying season. All taxes not paid by that time will become delinquent and a 10% penalty will be added. Those who have bought or sold property and wish a division of taxes are asked to come in at once.

Call on the Auditor for errors and any reductions. The Treasurer can make no corrections.

The Treasurer will not be responsible for the penalty of delinquent taxes resulting from the omission of tax-payers to state definitely on what property they desire to pay, in whose name it may be found, in what township or corporation it is situated.

Persons owing delinquent taxes should pay them at once, the law is such that there is no option left for the Treasurer but enforce the collection of delinquent taxes.

The annual sale of delinquent lands and lots will take place on the second Monday in February 1931 at 10:00 A. M.

County orders will not be paid to anyone owing delinquent taxes. All persons are warned against them.

No receipts will be held after expiration of time, as the new delinquent law requires the Treasurer to make daily deposits.

Particular attention: If you pay taxes in more than one township mention the fact to the Treasurer. Ed. A. Ashbaucher.

In making inquiries of the Treasurer regarding taxes to insure reply do not fail to include return postage.

Treasurer Adams County, Indiana. Oct. 6-Nov. 2

Iodine's Great Value

The finest fleeces in the world are grown in the Orkneys, where the sheep feed on seaweeds. Salt derived from sea water by evaporation contains much iodine, and its introduction into general use for the table would be a great benefit to the human race. It would also be most beneficial for farm animals. Unfortunately, it is expensive; but it could be made comparatively cheap if production were undertaken on a large scale at suitable manufacturing plants along the coast.—Exchange.

Identity Lost

Do you know your own wife? Yes and no—and probably mostly the latter. In Mexico census officials discovered a man who, after living for 32 years with his wife, does not know her baptismal name. The wife, it is alleged, has become so used to the nickname given her by her husband since they were still sweethearts that she has completely forgotten her real identity.—Philadelphia Ledger.

EVADING HEAVY TAX PAYMENTS

Assessments Dissipating Some of England's Largest Fortunes

By Arthur F. Degreve, UP Staff Correspondent

London, Oct. 21.—(U.P.)—Taxation is dissipating some of Great Britain's oldest and largest fortunes, transferring the ownership of vast estates and discouraging the amassing of wealth, a survey by the United Press have revealed.

The death duties are the most keenly felt of all taxes, they rank second in the list of the government's sources of income. The 1930 budget revealed that more than 4,000,000,000 was expected from estate duties.

The huge landowners have evolved several means of defeating this taxation. The most popular is to convert existing ownership into private limited liability companies, in this way the most of operating the companies can be deducted from the income tax payments, the amount of taxation reduced during life and death duties avoided.

Estate Duties Protected

It likewise has the added inducement of protecting the estates from reckless heirs extravagances. Among the titled owners who have transformed their estates into private liability companies have been the Dukes of Buccleuch, Devonshire, Grafton, Leinster, Marlborough, Rutland, and Sutherland; Marquis of Zetland; the Earls of Berkeley, Darnley, Harewood, Moray, Ossory, Roseberg, Spencer and Strathmore and Viscounts Novar, Ullswater and Wemborne.

Another plan is transferring property to a younger member of the family. If the transfer is made six months before death, the estate is not subject to death duties.

Others are selling outright their holdings and living on the capital, which is not taxable. In 1927, Lord Derby, one of England's wealthiest peers and greatest sportsmen, sold Lancashire property for \$5,500,000 and explained he did it because his son would have had to sell more to pay death duties at his passing.

Standard Rate

The standard rate of income tax increased from 20 per cent in 1929 to 22 1/2 per cent in 1930. The lower incomes, however, virtually were not affected by the increase and in some cases actually pay less.

Life insurance premiums are an important factor in relieving the amount taxable. An amount equal to 10 per cent of the premium paid can be deducted from the tax otherwise payable. The maximum amount of premiums subject to this relief, however, is a sum equal to one sixth of the total income.

Many of the large landowners have been forced to sell their estates to tenants in order to pay the huge death tax. The recent retirement of Lord Durham from racing is said to have been due to a large extent to the necessity of selling some of his stable to pay death duties of more than \$3,500.

To Soften Brittle Paper

The bureau of standards says the paper which has become dry and brittle from exposure to weather can best be softened with water vapor. If the paper has been exposed for a number of years, great care will be necessary, and the moistening can doubtless be best accomplished by exposing the paper to a moisture-saturated atmosphere for a considerable period of time.

Weight of Asbestos

It would be difficult to say how light asbestos is in its native form. It is quite a heavy stone, but it may be fluffed up until it is very light. The amphibole variety is very weak and is used principally for pipe covering, etc. The chrysotile variety is strong and if long enough may be used for spinning.—Exchange.
