Regular winter temperature we  
have been having the past few  
days but don't get discouraged.  
Remember we still have Indian  
summer coming to us.

This is "start the clock" week.  
That's just a phrase for urging  
every one to get up and "git." Do  
a little hustling and letting go,  
help start industry over the land.  
There is a feeling of optimism  
here this week that should be con-  
tinued.

We believe every thing looks a  
little brighter to the average per-  
son here now than it did a few  
months ago and it is up to every  
one to do his share, pull his load  
and help his brother a little if he  
can. The sun will shine brightly  
one of these days.

David Lawrence says the repub-  
licans are greatly worried about  
the out come of the election in two  
weeks. Oh, well, a little worry  
won't hurt them any. They have  
had the people feeling that way  
pretty steadily ever since they got  
hold of the government reins.

There were plenty of smiles last  
evening when the official announce-  
ment was published in this paper  
that the Old Adams County bank  
would reopen tomorrow for it  
means much to the community. On  
every hand were heard remarks of  
pleasure and confidence and the  
event promises to be a very suc-  
cessful one.

According to the predictions on  
the coming election the democrats  
seem to have the best chances for  
success in the congressional contests.  
Looks as though the senate will  
be republican while the democ-  
rats have a good chance to control  
the house. We will be able to  
tell you more about it in two weeks  
from tonight.

Its surely about time they ad-

vertised for bids for the new fed-  
eral building if it is to be roofed  
before winter sets in. It seems to  
take just so much red tape to get  
things started by the government  
and we will just have to wait but  
the building program as we under-  
stand it was to aid the depression  
this year. Oh well, we can use it  
when it does come.

The suggestion by William G.  
McAdoo that the government use  
the sixty million bushels of wheat  
it is hoarding to keep the price up,  
to feed the hungry people, looks  
like a better procedure than to  
waste it or throw it away. If there  
are hungry people we must feed  
them. Then why not use the over-  
supply for that purpose? Certainly  
seems like a very sensible proposi-  
tion.

Of course you won't overlook the  
Hallowe'en celebration to be held  
here under supervision of the General  
Electric band. It will include  
a program of music and games, a  
calithumpian parade and a lot of  
features that will make you laugh  
and that's what most of us needs  
—a good old fashioned haw, haw.  
Get in the game, take a part  
either as a masquerader or a sight  
seer and you will have a good time  
either way.

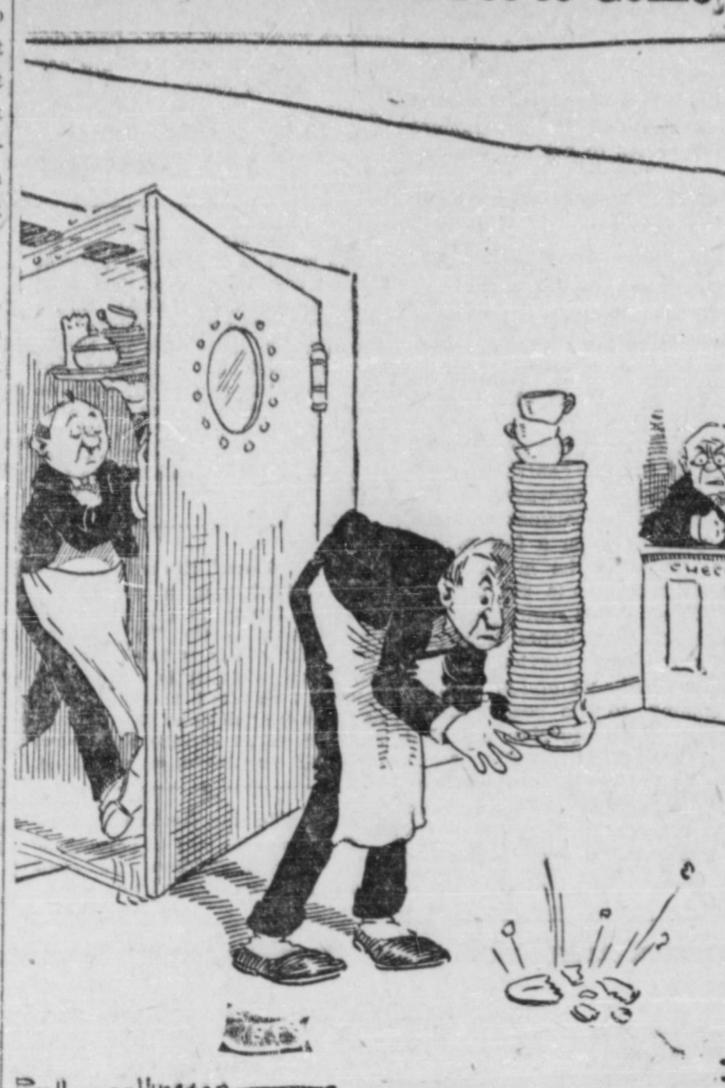

The people of this community  
have never learned to "beat re-  
treat" and that's why they do things  
a little different. They meet hard  
jobs with smiles and that makes it  
so much easier. It has been demon-  
strated again by the plans for  
reopening the Old Adams County  
Bank, bigger and better and stronger  
than ever. The people made it  
possible by meeting the require-  
ments bravely and willingly and  
honestly. Its fine to live where  
these things are possible.

The reunion of the 139th Indiana  
Field Artillery held here over the  
week-end, was in every way a suc-  
cessful event and credit is due the  
president, C. O. Porter, and those  
who assisted him. These annual  
events are worth while and the  
friendships born during the days  
when these men were offering their  
all for the defense of the flag  
should and will always be main-  
tained. Next year's meeting will  
be held at Columbus with Lieutenant  
Floyd Anderson of Elizabeth-  
town as president. Needless to  
say that many of the boys from  
here will attend. Among the guests  
here were Col. Robert Moorehead  
of Indianapolis and Thurman  
"Dusty" Miller of Wilmington, O.,  
whose ability to create good will  
around a banquet table is well  
known to those who have heard  
him. The entire program was a  
happy one and we hope every visitor  
enjoyed himself to the extent that  
he will wish to return again  
and often. Congratulations, Mr.  
Porter and assistants.

## RESOLUTION OF RESPECT

Green be your memory in the  
Order's heart.  
You loved so well, through all your  
true life's span;  
Bless'd be your rest, who acted  
well your part,  
Who honored God in doing good  
to man.

## In Memory of

Bertha Tyner, who died Septem-  
ber 19, 1930.

Once again the "Great Spirit"  
has summoned, through death a  
sister Pocahontas to take the long  
trail to the "Happy Hunting  
Grounds" to the kingdom of Pome-  
rah, to a life in the Land of the  
Hereafter.

Sister Tyner has been a diligent  
and faithful worker in our Coun-  
cil's labors of Freedom, Friendship  
and Charity, and has contributed  
freely of aid in relieving the neces-  
sities of the widow and orphan, as  
a recompense of her service she  
received the plaudit, "well done"  
from the Great Spirit.

And whereas, the all-wise and  
merciful Father has called our be-  
loved and respected sister home  
and she having been a true and

The question is: "Is syrup sugar  
in disguise, or is it just plain syrup?"

An eastern sugar importing com-  
pany recently fitted out two tank-  
ers to convey cargoes to New Or-  
leans. This was occasioned by dis-  
covery that sugar carries a much  
higher duty than syrup. So the su-  
gar was mixed with water, dumped  
into the tankers and shipped to New  
Orleans. There custom officers said  
the scheme simply was a plot to  
evade the tariff law.

The New Orleans customs offi-  
cials took the problem up with the  
treasury department. The bureau of  
customs replied that syrup after all  
was in essence sugar and that the  
higher rate should be applied.

There is talk however of taking  
the question to court. If the com-  
pany should do this and win a deci-  
sion, clarification, it was explained,  
could only come through con-  
gressional action.
