ASSEMBLY FAILS
TO DEVISE WAY
TO REDUCE TAX

(CONTINUED FROM PAGE ONE)
provided.

Personal nad corporation income tax measures now are being drafted under direction of Speaker Myers, to replace three that have already been introduced. The new bills are expected to retain the best features of the three in more than simplified form.

It is estimated by the ways and means committees that the new measures would produce approximately \$7,500,000 annually, half the amount now raised by the 29-cent state property levy.

The personal income tax rate in the new bill will be fixed to range from one to four per cent, and the corporation income measure will call for a flat rate of three per cent.

Ski Saves Clerk
From Alpine Death

Berlin, Feb. 7.—(UP)—Gustav Hozer, 27, a clerk of Winterthur, was saved by a ski jump from a terrible Alpine death.

While skiing in the Silvretta Alps Hozer lost his way and fell into a crevasse, but his left ski spanned the opening and held him suspended head downward. He hung that way for two hours before succeeding in chipping holes in the ice wall with his axe to make supports for his right foot and hands. He was unable to extricate himself, however, and hung in momentary peril of death for several hours before he was discovered.

Stock Exchange Idiom

The term "cover" in connection with stock transaction is a word which is used when one is in the act of buying in a stock which had previously been "sold short"—in other words, a stock which had been sold with the hope that the market in that stock would subsequently decline and would thus afford an opportunity for its purchase as a lower price, with the difference between its sale and purchase price representing a profit on the transaction.

RAINFALL GIVES
SLIGHT RELIEF

(CONTINUED FROM PAGE ONE)
tion.

Bloomington, Ind., Feb. 7.—(UP)—Last night's rainfall added nearly a month to the water supply in Bloomington's city reservoir, and averted all danger of a water famine, according to an announcement today by Mayor James M. Campbell and Fred C. Dillman, water superintendent.

An emergency pumping station is being erected at Bean Blosson creek, two miles from the reservoir, which within a short time will be equipped to supply added demands, it was announced. Meanwhile the estimated reserve is sufficient to maintain a safe amount on hand until April 1, due to last night's precipitation of .85 of an inch, and a 200,000-gallon daily supply being pumped from a drainage basin near the reservoir.

Bloomington has spent \$10,000 in recent weeks to maintain its water supply, and faces an equal expenditure within the next month, unless there are general, prolonged rains, it was estimated.

First L. ad Pencils

The name pencil was originally applied to a small, fine pointed brush used in painting. It has been said that a manuscript of Theophrastus shows signs of having been ruled with a black lead pencil, but the first distinct allusion to a pencil occurs in the "Frontispiece on fossils," by Conrad Gesner in 1565, who describes an article for writing formed of wood and a piece of lead.

SALE CALENDAR

Auctioneers are asked to bring in their sale dates which will be run free of charge in this calendar.

Feb. 9.—B. A. Winans, 1 mile east of Baldwin, Ohio. Roy Johnson, auct.

Feb. 11.—Mrs. Geo. Scare, 1 mile south, 1 1/2 mi. west Convoy, Ohio. Roy Johnson, auct.

Business Confidence

Confidence, not only in banks in particular, but in business dealings in general, is truly said to be "the soul of trade." In South America there are many places waiting to be developed simply because capitalists do not feel any security in contracts there. They are fearful that by hook or by crook the fruit of any investment they may make will be taken from them.

BARGAINS IN LIVING

Rooms, Dining Room suits, mattresses and rugs. Stucky and Co. Monroe. Our phone number is 44 163-4

Church and
Sunday School

M. E. Church
Church School at 9:30 a. m.
Junior Church at 10:45 a. m.
Morning worship at 10:45 a. m.
Let every Methodist and all the
constituency be present at the closing
services of the revival.
The Church School will plan to
stay for the worship service. Rev.
Franklin will preach on the "Sec-
ond Coming of Christ." W. F.
Beery will be in charge of the
music. Reception of members at
the close of the service.
Evening mass meeting at 7 p. m.
Rev. Franklin will preach on "The
Judgment."
Epworth League at 6 p. m.
Prayer meeting at 7 p. m. Wed-
nesday evening.
Fourth quarterly conference
Thursday evening, Feb. 12. Dr. J.
F. Bean, district superintendent of
the Fort Wayne district, will pre-
side.

St. Marys Church

First Mass, 7 a. m.
Children's Mass, 8:30 a. m.
High Mass, 9:45 a. m.
Prayer Hour and Benediction,
2:30 p. m.

First Evangelical Church
Sunday morning program opens
at 9:15 o'clock, under the leader-
ship of the Sunday School board.
There will be classes in Bible study
for all ages, and a hearty welcome
to all. Following the lesson study,
the pastor, Rev. M. W. Sunderman
will preach upon "Prohibition."
E. L. C. E. at 6:15 p. m.
The evening service will be in
charge of the February section of
the Brotherhood. A very interest-
ing program is being planned.
Prayer and Bible study on Wed-
nesday night.

United Brethren

R. E. Vance, pastor.

If thy brother trespass against
thee, rebuke him; and if he re-
pent forgive him. And if he tres-
pass against thee seven times in a
day, and seven times in a day turn
again to thee, saying, I repent;
thou shalt forgive him.—Luke 17:
34.

Sunday School, 9:15 a. m. Wor-
ship and Communion Service fol-
lowing. Sermon theme: "Christ
Expected at the Feast." Baptism
and reception of members.
Christian Endeavor, 6 p. m.
Evening service, 7 p. m. Theme:
"Living Banner." The evangelis-
tic spirit is being carried on in the
Sunday evening services. Soul
stirring song service and special
selection by the choir. Bring your
friends and worship with us.

Presbyterian

Harry H. Ferniteil, pastor
Come ye yourselves apart into a
desert place, and rest awhile.
Your days are busy and your hours
are filled with many things which
try the best there is in man. The
spirit of man is continually striv-
ing with God. Each Sunday care-
fully planned services are held in
this church. Without is the noise
of the commercial world, with its
hurry and confusion. Within
there is worship in quietness and
peace. You need the inspiration,
the rest, the stillness, you need to
know that God is in His Heaven,
and God broods over this busy
world.

Sunday school at 9:30 a. m. Dr.
Patterson is the superintendent.
Morning worship at 10:30 a. m.
The pastor will preach on the sub-
ject "The Man of the Hour." The
choir will assist with special
music.
Christian Endeavor at 6 p. m.
The pastor will conduct the study

and one of our popular young
ladies will lead in the devotionals.
Evening services at 7 p. m. The
pastor will bring a message which
will be of interest to all. Come
and help in the singing of the
songs you know. Let God know
you are interested in religion and
in His Son Jesus.

First Christian Church

C. R. Lanman, pastor.

"It will be strange indeed if we
do not arrive at the conclusion that
the world has still in Jesus Christ
something to grow into instead of
out of, and that when we shall have
reached the new boundaries which
he has set, it will be time enough
to think of a new prophet and a
new religion."—Winston Churchill.
"Christianity has not been tried
and found wanting, but has been
found difficult and not tried."—
Sherwood Eddy.

Bible School is at 9:30 a. m.
Church service at 10:30. Sermon:
"Whither Bound?"
Christian Endeavor at 6:15 p. m.
Edward Hendricks is the leader.
The evening service will be at 7
p. m.

GAUGE MAKES
MOST MINUTE
MEASUREMENTS

Bureau of Standards De-
velops New Instrument
For Workers

By J. W. Young
United Press Science Correspondent
Washington, Feb. 7.—(UP)—A
new instrument which makes mea-
surements so accurately that it is
apt to be out not more than four
hundred-thousandths (.00004) of an
inch one way or the other and does
it without touching the parts being
gauged has been developed by Dr.
I. C. Garner of the U. S. Bureau of
Standards here.

It is called an optical coincidence
gauge. One eyepiece which will mag-
nify 85 diameters prisms to change
the direction of sight and adjusting
lens make up this novel instrument.
The operator looks into the eye
piece, focusses it, and by careful
adjustment makes two points the
distance between which is being
measured, appear to be in almost
the same spot. He then reads on a
scale the distance between these
spots accurate within four hun-
dred-thousandths of an inch. The in-
strument is so ruggedly constructed
and so easy to operate that such
accuracy is reached in routine mea-
surements.

One application of this long dis-
tance measuring is the finding of
the exact size of a piece of casting
which has just been poured from
mold and before it has cooled. The
optical gauge is fitted with a periscope
system, measurements can be made
far in the interior of hollow cast-
ings where it would be impossible
or very difficult to take a mechan-
ical measuring instrument.

Even the thickness of a coat of
paint can readily be found with the
new optical gauge. The diameter of
a precision grinding wheel or lathe
can also be accurately determined
without stopping the machine.

No Pain to Daisy

Thomas D. Payne, of Dallas, Tex.,
who is said to have telegraphed
Miss De Vos, jailed secretary of
Clara Bow, offering his assistance
in getting her freedom. Payne
claims to have been present when
the film star authorized Miss De
Voe to use the money that she af-
terwards accused her of stealing.

Dies Year After
Pension Award

Auburn, Neb. Feb. 7.—(UP)—
Perry Whitlow, 85 went to war for
his father. He received his first Civil
War pension just last year. Now
he's dead.

When his father was called to
arms in the sixties to fight in the
Union army Perry, the eldest son,
assumed his father's name and went
to the front. The father stayed home
to support a wife and family of
small children.

After the war, the elder Whitlow
drew the pension without protest.
After his father's death he began a
long fight to have the names changed
and to be rightfully recognized as
having been a war veteran.

He was successful last year. For
many years he has lived on a meag-
er income.

Water Tamed Through Stone

An instrument to measure the
rate that water will flow through
stone has been developed at the
bureau of standards. No natural
stone, bureau experts point out, is
completely impervious to water.

TOWN FACING
DARK NIGHTS

Sebring, O., Feb. 6.—(UP)—The
White Way has been darkened, the
police force has been reduced to
one man and residents are paying
sewage charges as Sebring strug-
gles in the slough of financial de-
pond.

One-half of the \$860 which the
Mahoning County Budget Commis-
sion says Sebring may receive this
year, has already been spent as
the town of 3,950 population is wad-
ering what it will use for money
during the next ten months.

Sebring city fathers were told by
the commission that all—save \$860—
of the 1931 taxation revenue must
pay off sinking fund charges.

The White Way in the business dis-
trict has been dark for weeks and
a similar action seems likely in re-
sidential sections. The police force
has been pared until Marshal Charles
Baumgartner is the lone sur-
vivor. Citizens are paying rentals in
order to maintain the sewage sys-
tem and residents and officials
like are in a dilemma as to what
if anything—to do next.

If law violators are as faith-
ful in paying fines this year as last
\$3,000 may be realized as an asset.
But the police force, in particular,
is not optimistic.

Aviator's Handicaps

The evenness of air while flying
varies with the temperature. If
the air is warm, or what is called
thin air, it is difficult to gain alti-
tude. In cold or dense air it is easy
to gain altitude. The air over cities
is warmer than that over the sur-
rounding country. It is when a first
approaches warmer air that the
plane has a tendency to lose alti-
tude. In some places a change
from cold to warm air is very
abrupt. This is known as an air
pocket or humpy air.
