"I was an almost constant suf-
fer from rheumatism for five ter-
years. My legs and joints were
minimally swollen and the muscles
and down my back were so sore
they were sensitive even to the
lightest touch. Of course, could not
sleep with any degree of comfort. I
had only a few bottles of MALVA.
Now my pains are all gone, and
am feeling better than I have felt
many years."

Why not try a bottle—today?

THE TOP OF THE WORLD
TOPICS OF RESEARCH CLUB

The members of the Research
Club met at the Methodist parsonage
Monday afternoon, with Mrs.
B. F. Franklin, who was both
hostess and leader. Mrs. Franklin gave
a splendid review of the book, "The
Top of the World," written by Mrs.
Welthy Honsinger Fisher, wife of
Bishop Fisher of India.

Mrs. Fisher told in detail of a trip
she and her husband had taken up
into the Himalaya mountains to the
highest point to be reached by man
called the "top of the world". Her
description of the country, its plateau,
valleys, and mountains with the
hundreds of different species
of trees was very vivid; the rich
tropical growths of shrubs, trees,
and vines, the wealth of brilliantly
colored flowers of immense size, the
birds of brilliant plumage and sweet
song flashing among the dark
trees, all made a wonderful back-
ground for a strange and pictures-
que people.

The country has many different
religious creeds, the Buddhists, Bra-
hmanas, Hindus, Mohammedans, each
having his own particular headdress
distinguishing him from other relig-
ions; there are thousands of vil-
lages scattered through the land
and on mountain sides; there are
the wonderful tea gardens and pal-
aces and private school of the weal-
thy class, and the one piece garment
and practically starvation food of the
poor class. The scenery of the
mountains is very lovely, and sun-
rise viewed from the "top of the world"
was a sight the Fishers will always remember.

miman, Joe Deininger, Robert Deit-
sch, Junior Marshall, Doyle Krick,
Alice Jean Cowan, Shirley Potts,
