June 4—(UP)—Haven't people's houses that look like themselves? A two-story in particular, with a story a white strip center and yellow first floor. No woman with real hair ever wear a brown white belt, a yellow skirt, or even if she lets her hair down such an atrocity. Good clothes, are apt to be pretty closely. Blues and browns have all been known to blend harmoniously because they represent the ground without which we could not very well get into this color business and see what there is most inviting. Yellows and soft and some-hitherish, nothing to guard against, these is to be sure they never over into the jaundiced class. A glimpse and wisp in chiffons provided they aren't the shade. The pearl pinkish tints and a few state effect are good—but no much state because it is avoid thunderous grays unless you are sure to give the effect of a little shower to be used by a rainbow and lots of greens and cerulean blues. Any clothes no matter how down they run on their color scales. Green has been now as a neutral color harmonizes with every color under the sun. After all, with every known and unknown of flowers. It takes a person to beat Dame Nature for schemes. Go out and look at your house and see if you are wearing the kind of color you would yourself and no friends and see about

The annual affair is traced to more than 50 years ago when "Pike county Bill" Hays, an eccentric, donated a tract of land to the general Baptist church, with provisions that it revert to the Hays heirs when it was no longer used for religious purposes.

# Don't Rasp Your Throat With Harsh Irritants

## "Reach for a LUCKY instead"

The great Lord Tennyson in a beautiful poem refers to a woman's Adam's Apple as "The warm white apple of her throat." Consider your Adam's Apple. Touch it—your Adam's Apple—That is your larynx—your voice box—it contains your vocal chords. When you consider your Adam's Apple you are considering your throat—your vocal chords. Protect the delicate tissues within your throat. Be careful in your choice of cigarettes. **Don't rasp your throat with harsh irritants! Reach for a LUCKY instead.** Here in America LUCKY STRIKE is the only cigarette which brings you the added benefit of the exclusive "TOASTING" Process, which includes the use of modern Ultra Violet Rays. It is this exclusive process that expels certain harsh irritants present in all raw tobaccos. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. And so we say "Consider your Adam's Apple."

LUCKIES are always kind to your throat
