NOTICE TO TAXPAYERS

Notice is hereby given that Monday, November 2, 1931 will be the last day to pay your Fall installment of taxes. The county treasurer's office will be open from 8 A. M. to 4 p. m. during the tax paying season. All taxes not paid by that time will become delinquent, and a 10% penalty will be added. Those who have bought or sold property and wish a division of taxes are asked to come in at once. Call on the Auditor for errors and any reductions. The Treasurer can make no corrections.

The Treasurer will not be responsible for the penalty of delinquent taxes resulting from the omission of taxpayer to state definitely on what property, they desire to pay, in whose name it may be paid, in what township or corporation it is situated.

Persons owing delinquent taxes should pay them at once, the law is such that there is no option left for the Treasurer but to enforce the collection of delinquent taxes.

The annual sale of delinquent lands and lots will take place on the second Monday in February 1932, at 10:00 A. M.

County orders will not be paid to anyone owing delinquent taxes. All persons are warned against them. No receipts will be held after expiration of time, as the new depositary law requires the Treasurer to make daily deposits.

Particular attention, if you pay taxes in more than one township mention the fact to the Treasurer also see that your receipts call for all your real estate and personal property.

In making inquiries of the Treasurer regarding taxes to insure regularity do not fail to include return postage. Ed. A. Ashbacher, Treasurer Adams County Indiana, Oct. 5 to Oct. 31

VICTORY FUND IS ANNOUNCED

(CONTINUED FROM PAGE ONE)

Announcement that the campaign would begin at an early date was made by J. J. Shouse, chairman of the Democratic national executive committee. A committee of 538 members was named. The list included practically all democratic presidential candidates and important aspirants in recent years except William G. McAdoo of California.

It is proposed to apportion the \$1,500,000 fund as follows: To wipe out the 1928 campaign deficit \$400,000; to provide for national party headquarters since 1928 and up to the convention, \$600,000, a "flying start" fund for use in the 1932 campaign just after the convention, \$500,000. John J. Raskob, chairman of the Democratic national committee, has largely financed national party headquarters since 1928 through his own funds and loans.

John H. Fahy of Boston, publisher of the Worcester, Mass., Post and former president of the United States chamber of commerce, is executive chairman of the "victory fund committee." Details and the time of starting the drive will be announced shortly.

"The plan is to make every voter who is interested in constructive government a party stockholder for 1932," Shouse said.

Creation of American 'Nobility' Suggested by Russian Duke

Peerage to be Founded Upon Personal Accomplishment and Value to Country, Proposed by Duke Alexander—Edison, as Mankind's Greatest Benefactor, Heads List of "U. S. House of Lords."

Following up his suggestion that the United States ought to have a titled nobility, Duke Alexander, of Russia, who recently made a lecture tour in this country, offers a list of Americans who would serve as the foundation of the proposed regime. At the head of the list he places Thomas Edison, who, by his inventive genius, has considerably lightened the burden of mankind. John D. Rockefeller, oil king, would have a prominent place in the new aristocracy, as would Associate Justice Oliver Wendell Holmes. Professor Robert Millikan, noted astronomer, of the University of Southern California, deserves the title which the duke would bestow upon him, if only for his temerity in debating with the author of relativity. President Hoover might meet with a little opposition from his Democratic opponents as well as the "wet" element in his own party. But David Sarnoff, of the Radio Corporation of America, would be a popular Lord, having helped to make life one grand sweet song for America. Dr. William Mayo, of the Rochester, Minn., medical clinic, is another choice for scarlet and ermine. So it appears that far from being a threat to democracy, the Duke's suggestion is an acknowledgment of truly great Americans that tower above the ruck of mankind.

New York, Oct. 14.—That the United States, as the most progressive country in the world, ought to have its House of Lords, is the startling suggestion of Alexander, Duke of Russia, who recently made a lecture tour of this country.

To the great majority of Americans the proposal smacks of treason against the sacred tenets of democracy, for which thousands of their countrymen suffered and died. Most of us regard titles, at the very best, in the same light that we regard the funny paper that we wear at a "Let's-be-silly" party.

But when the Duke elaborates upon the details of his remarkable proposal, most of us will be compelled to agree that there is something to be said for his point of view.

First, he makes it clear that the European yardstick of accomplishments would be less than useless in laying out the foundations of an American nobility. Titled honors are rarely bestowed in the Old World for personal ability. Ninety per cent of those who rank above the democratic title of Mister do so by virtue of their having inherited the honor like a piece of real estate.

The nobility which Duke Alexander suggests for the United States, however, would be built upon the rock of personal accomplishment.

BITTER FEUD GETS TO COURT

(CONTINUED FROM PAGE ONE)

Elmer Gerald, town marshal, cut short their attack when he shot and killed Odie. Gerald himself was wounded seriously. Dan, Alonzo and Gifford fled, but Gifford later surrendered.

To prevent another such attack, state police patrolled near the court house today. Sheriff Stewart announced he would "shoot to kill" if necessary, to prevent an outbreak to the courtyard. They shot Sheriff and Mrs. Trinkle in the legs and ran toward the Spurlock's cell.

TAX GROUP TO AWAIT ORDERS

Chain Tax Collection Withheld Until Formal Notice Arrives

Atlanta, Ga., Oct. 14.—(UP)—The Indiana tax commission will make no moves to collect the chain store license tax until it receives formal notification that the U. S. Supreme court has approved the tax, commissioner James Showalter told the United Press today.

The supreme court has acted favorably in a test case involving the license tax bill. Showalter said no action in the matter would begin until the injunction against the tax law, applied soon after the bill was passed, is formally removed.

He explained that after the expected few days before the injunction is lifted, the license tax administrator will be supplied with adequate assistants to begin collecting fees retroactive since July 1, 1931.

"As far as we know, probable questionnaire forms will be issued to the 92 county auditors in the state who in turn will supply them to those individuals and firms liable for the tax. Perhaps we will give the presence of the forms of auditors' offices formal legal publication.

"We expect the payment of the tax to be largely a gentleman's proposition. Most of them, we feel will send us checks immediately closing the matter.

"After a reasonable time, we will send investigators throughout the state seeking out the stores which do not display licenses according to law and the second step in the action will begin.

"We don't expect a lot of trouble collecting it, except that there must be some definite line drawn as to the limits of taxable enterprises. There will have to be a definition of the "Merchant" in the bill.
