Remarrying Ex's Newest Social Racket

Woman's Prerogative Overworked Since Divorce Became Simplified.
Eugenia Bankhead's Sixth Marriage Will Be Third to Same Man.

MORTON HOYT & EUGENIA BANKHEAD
ALAN ROSCOE and BARBARA BEDFORD
MAXINE WELLS

The recent announcement that Eugenia Bankhead, sister of the glamorous Tallulah, and daughter of the Senator from Alabama, is about to remarry Morton Hoyt, son of a former Governor of Pennsylvania, recalls the extraordinary course of their romance, or should one say romances. Morton and Eugenia were first married 12 years ago. They were divorced in 1928 at Reno, Nev., Morton being the plaintiff. In the December of the same year they were remarried and two years later divorced—Eugenia doing the suing. Since then the restless beauty has had no less than three other husbands, but none could hold her affections. Now Morton has won her for the third time, so according to sporting rules, she's his for keeps. Another case of marriage, divorce, and remarriage is that of Barbara Bedford, famous stage and screen star of yesterday, who rewed her actor hubby six months after she had divorced him for "slave driving." But the reason given by Randolph Pack, socially prominent in Lakewood, N. J., and Cleveland, Ohio, society, for remarrying Mrs. Pack No. 3 is unique. Pack rewed Maxine Wells, musical comedy actress, after he had divorced her because he was superstitious of the number 3. Maxine happened to be his third wife. Nos. 1 and 2, according to Pack, had not brought him much luck, but he expected No. 3 to be a veritable four-leaf clover.

New York, March 2.—Though it has been woman's prerogative, since Eve admonished Adam to eat more fruit, to change her mind, never in the history of the world has she exercised it as she is doing at present—especially concerning affairs of the heart.

Of recent years, in fact, ever since divorce became so easy to get, mildy has acquired the knack of changing her mind with the same nonchalance she displays in changing her hosiery. In a certain social set in these United States one is considered musty and old fashioned if there is not a record of at least one discarded husband or wife to be discussed at after-noon tea.

The recent announcement that Eugenia Bankhead, sister of the glamorous Tallulah, and daughter of the Senator from Alabama, is about to marry for the sixth time is a case in point. More remarkable than the number of the fair Eugenia's marital fights is the fact that this sixth marriage will mark her third venture with the same man, Morton Hoyt, son of Henry M. Hoyt, ex-Governor of Pennsylvania.

Morton and Eugenia made their first trip to the altar 12 years ago. In April 1928, they were divorced at Reno, Nev., hubby getting the decree on a plea of extreme cruelty.

Mrs. Erwin Stucky, Mrs. Martin Stucky and Mrs. John Floyd of the Better Homes Home Economics Club; Mrs. Gilbert Stucky, Mrs. Fred Blum, and Miss Florence Graber of the M. W. F. Club; Mrs. Lester Kerr, Mrs. Harry Messberger, and Mrs. Ada Shumacher of the Hartford township club; Mrs. J. C. Grandstaff, Miss Mary Steele, and Mrs. Orville Heller of the Kirkland township club; Mrs. Henry Bauman, Mrs. Chancey Clem, and Mrs. Hubert Zerkel of the Union township club; Mrs. Harley Reef and Miss Amstutz of the Jefferson township club; Mrs. Glen Mann, Mrs. Ralph Longenberger and Mrs. Charles Schenck of the St. Marys township club; Mrs. R. O. Wynn and Mrs. Dale Moses of the Root township club.

The next project lesson will be held in Decatur on April 15. Miss Martin will again be in charge of the meeting.

The Monday Night Club will meet with Mrs. George Laurent, Monday evening at seven-thirty o'clock.

The Arizona Department of the Woman's Club will meet Monday night at eight o'clock with Mrs. Paul Edwards. Mrs. R. A. Stucky and Mrs. John T. Myers will be the assisting hostesses. Mrs. Adrian Wemhoff will have the paper, the subject of which will be "Color and Association."

Phonogram-Gramophone
The word "Gramophone" is an invented one. When the new machine for recording and reproducing sound was invented, it was called a "phonogram," and later a phonograph. The machine had a round cylinder instead of the flat disc, and of course the inventor wanted to distinguish it from the phonogram or phonograph. "Hum!" he mused. "Now what can I call it?" Then he had a bright idea; he remembered the backslang he had used when a boy, and twisted the word "phonogram" around until it was "gramophone."
