#### Census Figures

The enumerators under the census law are instructed to enumerate persons at "their usual place of abode"—that is, at their permanent home or regular lodging places. Thus it happens that the business or industrial population of any large city includes a considerable number of persons who are not counted as part of the census population of the city, their residences or lodging places being outside the municipal limits.

#### A Cave of Wonders

An ancient cave in the fairy grove, near the old Thuringian city of Saalfeld on the River Saale in Germany, has been opened to tourists. The cave contains many stalactites and stalagmites, some of the former being more than six feet long and almost as thin as a knitting needle. The grooves were mines for rent. A source of alum-bearing slates. The mines were abandoned about 150 years ago.

Some plants that may be sown in beds in the open ground and later transplanted to their permanent locations are ageratum, calendula, calliopsis, China-aster, Clarkia, cockscomb, dahila, gallardia, godetia, lobelia, mignonette, pansy, pink, snapdragon, spiderflower, stock and zinnia. ### OUSTED GROUP MAKES APPEAL

CONTINUED FROM PAGE ONE:

"J. M. Bloboit, teacher in Jamaica Continuation School, New York, was thrown from a bus by Kentucky officials and kicked and

beaten as he lay in the grovel. We consider this behavior a shameful violation of the hospitality upon which the south prides itself."

The delegation now includes representatives from Harvard, Colby, Carnegie Tech., the University of Wisconsin, the University of Tennessee, the University of Cincinnati, Columbia, New York University, Hunter, College of the City of New York, Smith, Oxford and the Union Theological Seminary.

Students said that when they complained while being escorted through Kentucky that the federal highways were being blocked, a deputy sheriff from Harlan county asked them:

"Well, what are you going to do about it?"

They replied, "We will tell the United States marshal."

They said the deputy sheriff then took a handful of blunt nosed bullets from his pocket and said, "We have these for United States marshals."

They laughed today, recalling what one man at Cumberland Gap told Pauline Daum, of New York. They reported the man said:

"You little rat, I'd like to take you up that thar hill and skin you alive and throw your fur down to your friends."

## Spending to save . . . through ADVERTISING

NOT many of us, these days, are troubled with so much money that we cannot spend it. But we are interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget. Put down beside it, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!
