DR. SPEARS TO COACH BADGERS

Badger Coach

Chicago, Mar. 31.—(U.P.)—The field of Big Ten coaches was complete today for the 1932 season with Dr. Clarence W. Spears appointed to succeed Glenn Thistlethwaite at Wisconsin.

Dr. Spears, former Minnesota coach, returns to the Big Ten after two years at Oregon, where his teams won 14 games, lost 4 and tied two.

Three coaching changes have been made in the Big Ten for the 1932 season. In addition to the engagement of Dr. Spears at Wisconsin, Bernie Bierman, who made a remarkable 5-year record at Tulane, takes Fritz Crisler's place at Minnesota and Ossie Solem, Drake coach, succeeds Burt Ingwersen at Iowa.

Crisler has accepted a place as head coach at Princeton and Ingwersen will be assistant to Biff Jones at Louisiana State University.

Thistlethwaite resigned at Wisconsin last December after five years of indifferent success during which Badger supporters constantly clamored for a championship team. The Badgers haven't won a Big Ten football title since 1912.

Ironically, enough, it was Dr. Spears' Minnesota team which prevented Wisconsin from winning the championship in 1928 when the Gophers beat the Badgers, 6-0, in the final game of the season.

Dr. Spears' salary will be \$10,000, the largest ever paid a Wisconsin football coach and \$1,500 more than Thistlethwaite received.

His appointment was for 1-year but it is believed he will be given a 3-year term inasmuch as he will hold the rank of professor of physical education. In his 5 years at

Dr. Clarence W. Spears, after much dickering back and forth, has announced his acceptance of the coaching position at the University of Wisconsin. He returns to the Big Ten from Oregon, where he went after several years at Minnesota.

Minnesota Dr. Spears' teams won 28 games, lost 9 and tied 3. Before coming to Minnesota in 1925 he coached at West Virginia.

SOVIET ARMY ADDS STRENGTH

(CONTINUED FROM PAGE ONE)

ernment, allegedly fostered by Japan, is meeting strong opposition from Chinese opponents. In China proper, reports described a new outbreak of "incidents" along the Chinese-Japanese front near Shanghai.

Japanese bombing planes were reported to have left Changchun on Tuesday to bomb "old" troops in Minghan, north of Changchun. The word "old" was understood to signify Manchurian troops loyal to the former regime of General Chang Hsueh-Liang.

It also was reported that loyal Chinese troops from Kirin province and Japanese troops have reached Fankchen, on the Sungari river. Japanese troops from Tungchua were said to have reached Ninguta. Troops on the eastern line of the Chinese eastern railroad were reported to have been shifted to the region southwest of Harbin to cope with the situation there which is threatening Changchun.

All of these troop movements were understood to be a part of the Japanese effort to suppress outbreaks by Chinese factions loyal to the old regime in Manchuria. Conditions in the region along the eastern branch of the Chinese eastern railroad were reported to be disorderly.

New Suspect Held

South Bend, Ind., Mar. 31.—(U.P.)—A suspect in the kidnap assault and slaying of Marverine Apple, 8, in August, 1931, was held here today on orders of Police Chief John B. Kuespert.

The slaying of the Apple child was one of the most sensational in Indiana in recent years and created widespread attention. Kuespert, who refused to reveal the suspect's name, said he was convinced the prisoner would be linked with the crime. The officer said the arrest was made on a mysterious tip, source of which he refused to reveal.

Kuespert said the arrested man was one of those questioned shortly after the slaying but released when a confession was obtained from George Sherman Myers. Myers confession later was repudiated by police and he was committed to a hospital for the insane.

A Cave of Wonders

An ancient cave in the Caity grottoes, near the old Thuringian city of Saalfeld on the River Saale in Germany, has been opened to tourists. The cave contains many stalactites and stalagmites, some of the former being more than six feet long and almost as thin as a knitting needle. The grottoes were mines for centuries, a source of slum-boring slate. The mines were abandoned about 150 years ago.

STUDENTS SEEK SENATE PROBE

Ejected Group Repeats Charges of Being Removed From Area

Washington, March 31.—(U.P.)—Members of a college students investigation and relief expedition to the Bell county, Ky., coal mines, complained today before a small group of Senators that the coal operators had caused them to be ejected from the state under conditions violative of their constitutional rights.

Robert F. Hall, Columbia University, led the delegation which recounted the story today before Senator Costigan, Dem., Colo., Senator Cephed, Dem., N. Y. and Senator Logan, Dem., N. Y. Costigan is co-author with Senator Cutting, Rep., N. M. of a resolution for a federal investigation of the mine areas where it is alleged a "reign of Terror" exists.

A score of students came to Capitol Hill today. The others have gone to New York. Hall explained that 200 students from several Eastern colleges had sought in Kentucky not only to provide relief but to adopt a "laboratory method of studying the social sciences."

Hall, Eleanor Curtis, Leonard E. Mins, Morris Pischitz, and Gabriel Gariti, all of Columbia, recounted incidents of the expedition.

"W. B. Smith, County attorney of Bell county, and a mob greeted us at the state line," Hall said. "And

the intimidation began at that time."

"Mr. Smith asked Mr. Hall if he believed in God," said Miss Curtis. "Mr. Hall replied he could not speak to the whole bus. There were cries of 'send them back.' Mr. Smith asked us to go back and we refused."

Miss Curtis said the entire party then was escorted to the county seat where there was an impromptu meeting in the court house at which she complained, Colonel Patterson, an attorney for the mine operators, had made a provocative speech to the effect that:

"We can not have communism in this state and our rivers will run

red with blood before we allow it."

She said that in reply to the county attorney Smith told the students:

"I am the law and I have the constitution."

"Mr. Smith used stentorian quage," Hall told the Senators. "He referred to mine-owners' play don religious prejudice emphasizing the Jewish name of some of our students."

"It's great to feel well... that's why I am so cheerful—I have a good appetite... sleep soundly... and feel like doing my work or enjoying play."

"I never let a 'run-down' condition get the best of me. When I am troubled by overwork, worry, quick fatigue, lack of strength, loss of appetite, pimples or boils I immediately start taking S.S.S. It is really a wonderful tonic... and thru its regeneration of the red-blood-cells and hemoglobin it isn't long before I feel like myself again."
