Has Bank Plan

Indianapolis, May 26.—(UP)—New banks should not be chartered in Indiana unless they show "positive proof that there is a genuine need for them." Is the opinion of M. Bert Thurman, candidate for the Republican gubernatorial nomination.

In a statement issued here, Thurman alluded to "a large measure of the distress of the last few years to bank closings," he pointed out, however, that bank suspensions have virtually halted in Indiana.

Legislation providing for regular examinations of bank records, by organizations sponsored by bankers themselves, was urged by Thurman. "These examinations should be more rigid than state or federal examinations," Thurman said.

"Thus the banks themselves, for their own protection should literally compel weak banks to remedy any defect."

CHAPTER FORTY-TWO

"I want my baby!"
"But, darling child, you've been so sick—"

"I want him. I want him!" Lily Lou, quick to see that she could get what she wanted now, beat the coverlet with her white, claw-like hands.

When they hesitated, looking with distress from one to the other, the first suspicion of what might have happened, dawned on her.

Then there was a reason... the little baby that she wouldn't look at at first was gone... had slipped away from her before she had let herself love him...

She lay back on her pillow, her eyes closed. The old impulse to hide. To keep them from knowing that she cared. They must not guess... her baby, hers and Ken's...

"When did it die?"
She opened her eyes, brought the words out boldly, looking Herr Doctor straight in the eye. He started, and Madame Nahlman gave a little cry. The sisters looked from one to the other... they were not sure what she had said.

And suddenly she could not bear it. She burst into harsh, strangled sobs, sobs that tore themselves out of her, the sobs of the defeated and lost.

She felt them crowding around her, offering comfort, but she could not accept it. There was nothing left to her... nothing... Until the rosy sister brought the baby, his dark little face looking strangely flattened and pinched, like a sick little old man.

"He was ill, the poor little thing," Madame Nahlman said. "When you got sick, he got sick, too, and so—"

But Lily Lou did not listen to them. She took him in her arms, and held him close to her heart, smiling at them triumphantly through her tears.

She did not remember them taking him away. But when next she remembered things, they brought him back to her, and she knew that her troubles were over... the baby would get well... she'd get well...

Overnight the hospital changed from a place of torture infested with strangers, who pushed and prodded and did unthinkable things to her, to a haven of safety inhabited by ministering angels.

She could lie on her soft white bed... so safe, so drowsily content, and know that the bubchen was close at hand, that she had only to lift her eyes and Schwester Schnabel or Schwester Wolfe would be right there.

Warm April sun filtered in the sparkling windows. A milky blue sky was just visible beyond the roofs and spires. They had seemed grey before, but now they were silvery or fawn-colored, or opalescent in the sun.

When they saw she was interested in the view they dragged her bed close to the window, with a proper accompaniment of Viennese grunts and whistling breathing.

Then she could see the people passing on the street, and when an old woman took up her stand at the corner to sell balloons she sent for a red one, and clapped her hands and laughed aloud because she was sure the bubchen noticed it, and followed it with his eyes.

Kind Doctor Sanders came every day, patted her hand, and told her she must be careful not to get too fat, isn't it so, no? Chuckling delightedly at his own joke.

Madame Nahlman came often.

Six weeks... just gone out of

On the dresser was a little pile of letters. With a presentiment of bad news she ripped open the first one.

with armfuls of lilac and syringas, which the obliging sisters stuffed into bulging but strangely inconspicuous vases. "You'll be coming home in a day or two now, Lily Lou—and then we'll go to Paris, as soon as Doctor Sanders thinks you can travel. I've finished my season at the opera house."

Madame Nahlman had finished her season... and Lily Lou hadn't even heard her... hadn't heard one of the concerts either...

Where all the time had gone to... She didn't want to leave the hospital. She didn't want to leave Vienna. Why, she hadn't seen a thing! They let the rosy sister, Schwester Schnabel, come home with her for the 10 days that were left before it was time to go back to Paris.

Lily Lou's strength came back in bounding rushes of renewed vitality and joy of living. She felt better than ever. She loved everybody and everything. She wanted to kiss each rosy-cheeked child she saw in the parks, to endow each beggar with a fortune. She adored the cafes, where everyone ate outdoors on round tables with green painted iron chairs. She gorged on wild strawberries, drowned in billowing whipped cream, tried 50 kinds of little cakes, each more delectable than the other. And the coffee! Oh, wouldn't mother and the church ladies enjoy a cup of real Viennese coffee, with whipped cream on top...

She almost wept when Susanne told her how gay the opera season had been, and what a marvelous fairy exuding holiness, and each white-veiled little girl and black coddle little boy, driving in a one horse shay, all decorated with flowers, to church to make their first communion.

May didn't say how he had died. "He died," she wrote, "and he left a will, and everything he had is to go to you. I suppose it amounts to about a thousand dollars. No doubt you can use it, but it seems funny, leaving it all to you. After all, you are not the only one in the family."
