—(UP)—One of the many
assemblies that Madame
Schiaparelli has designed for 1932
has a high topped shirt with
three-colored suit for which
she has a special yen that
she included it in her own indi-
vidual wardrobe.
Colors are deep coral-red,
black jersey and grey jer-
sey with a high topped shirt with
diagonal tucks around the
neck and an inverted box pleat
back. The fitted jacket has
the waist with metal clips.
Madame Schiaparelli has
designed blouses for these
in white crepon, in straw
and blue linen and in a
red and blue jersey. The
advantage of having the same
in several colors that har-
monize is that one can combine
them with jackets and little blouses
in a variety of ways that it
is a practically inexhaust-
ible wardrobe.
Madame Schiaparelli has
designed a jack-
et in jersey, very neat and
one that is worn over a dress
jersey mastic, the skirt
is incised with pointed
tucks matching the jacket. An-
other design that this English
made applicable to all the
of fashionable women is a
skirt and dress made of a new
and silk tissue combination.

DO YOU INHALE?

Millions say
we hit the "nail on the head"
when we asked this question!

OKAY AMERICA! . . . you wanted
the facts and we've given them to
you—even though the truth has shocked
the cigarette trade! Inhaling is the very
core of all cigarette discussion.

For we all inhale—knowingly or
unknowingly . . . every smoker breathes
in some part of the smoke he or she
draws out of a cigarette.

Do you inhale? Let other cigarettes
keep an embarrassed silence if they will!

Lucky Strike can openly raise the issue.
Luckies assure you the protection you
want . . . because certain impurities con-
cealed in even the finest, mildest tobacco
leaves are removed by that famous puri-
fying process. Luckies created that process.
Only Luckies have it!
