Charter Member of The
Indiana League of Home Dailies.

The average home owner would
rather have the home loan bank if
it will work in a simple manner
than all the other things for which
the country will have to pay bil-
lions.

The legislature starts the third
week with an opportunity to take
some actions that will relieve the
public on taxes. That was the pur-
pose of the session and this week
should signify whether or not the
solons realize the importance of
their jobs.

The Wright repeal law is having
rather easy sailing in the house
but this week when it gets to the
senate, it is doubtful what the re-
sults will be. The first test vote
will be of interest to a lot of folks
who are watching the battle.

You don't have to travel far to
see beautiful scenery. It can be
found right here in Indiana, either
in the north where lakes abound or
in the southern part of the state
or at any of the parks. See Indiana
first is a good motto for the vaca-
tionist.

The county will save nearly five
thousand dollars on the amount
claimed by the state highway com-
mission for right-of-ways and steps
to have the state commission keep
faith by taking over the road from
here to Willshire and from Will-
shire west to the state line will be
taken at once. Good work boys.

We get a good smile out of the
fact that Hoover's two billion dol-
lar relief bill is sound while Gar-
ner's was so terribly unsafe. They
won't put that bunk over on the
American people this year and you
can bet your last penny. From
Maine to California the folks are
sick and tired of cheap politics.

Wednesday will be a special
trade day in Decatur, when every-
one who visits this city will enjoy
a thrilling and happy entertainment
and have the opportunity to shop
in stores where real bargains are
offered. That's the kind of pep we
need and the oftener its done, the
better business will be. Let's quit
grumbling and build business.

The valuation of real estate in
Adams county shows a decline of
seven million dollars but we are
still worth some twenty-six million
and that's a long ways from being
down and out. Now if the budgets
can be made to fit the valuations
so we can have as low or lower
tax rate as now, we will be getting
ahead.

Congress is over and business
should pick up the next several
months. There seems to be no par-
ticular anxiety as to the results in
November for no one doubts the

business sagacity of Mr. Roosevelt
and millions feel the country would
improve under his administration.
It's high time we all get busy and
restore prosperity.

Mr. Roosevelt flew to Chicago to
receive official notification of his
nomination for the presidency and
now Mr. Garner sends out word
that he knows of the honor extend-
ed to him and that he will accept
by mail if notified in the same man-
ner. It is sensible action and need
not prevent the holding of any
Democratic rallies that may be
planned later in the campaign.

We find fault with our law mak-
ers. How easy that is? Instead of
looking for merit we seem to use
a spy glass to find the errors or
the omissions. Members of the In-
diana legislature as well as of con-
gress have great responsibilities
these days and perhaps would do
better if encouraged more. Let's
be as liberal in our opinions as
possible.

We can understand how Presi-
dent Hoover would not feel so bad
over his wage cut so long as he
still receives a good living and \$60-
000 salary and thousands for travel-
ing and all the other side issues
that come to the chief, but perhaps
some of the cabinet members and
others in Washington who receive
less than what they spend, will not
like it so well, especially when they
see some else getting all the credit.

Perhaps the bonus expeditionary
forces in Washington have been
receiving too much publicity. It's
not a very good advertisement for
this nation any way it's taken.
When the veterans in national
meetings of their organizations de-
clare for the bonus, the entire coun-
try will support them but so far
that action hasn't been taken. As
soon as possible the ex-soldier
should be paid in full, and we hope
that time is not far distant. In the
meantime all men in need must be
taken care of in some manner and
if the government doesn't do it, the
local communities must.

How to Make Polishing Cloths
Good polishing cloths can be
made by mixing well 1 quart gaso-
line, ½ lb. whiting, ½ ounce oleic
acid. Soak clean woolen cloths in
this mixture and hang in open air
(shade) to dry. The cloths will not
soil the hands or clothing when
dry. Keep them in a covered tin
box.

Testing Jelly
When making jelly, put a little
on a cold plate and draw a path
through it with the point of a spoon.
If the path stays and the jelly does
not run together, the jelling point
has been reached.

Cleaning Laces
Laces will look like new if a
white paste, such as is used for
cleaning white shoes, is rubbed on,
and after it has dried, brushed off
with a soft brush.

Indicted in Prison "Sweat Box" Death

Captain George Courson and Solomon Higginbotham, officials of the Sunbeam Prison Camp, near Jackson-
ville, Fla., are shown (left) after being indicted for
first degree murder in connection with the death of
Arthur Maillefert (center), of Westfield, N. J., who,
it is charged, was tortured to death in the prison
"sweat box" (top right). The youth was found in this
structure, his neck encircled by a heavy chain and his
feet in stocks. At lower left is the barrel, which, it is
charged, Maillefert used in lieu of clothing.
