## Indian Use of Copper

Some of the prehistoric Indians of the United States made use of copper but only to pound it into shape as if it had been stone, for they had no knowledge of making bronze.

**When Glass Disintegrates**  
Glass would slowly disintegrate if buried in moist soil. The action on the glass would be due primarily to water and alkali. The disintegrating action would vary with the composition or character of the glass and the conditions that obtained in the soil. This action would probably be extremely slow with any glass, and it would probably be centuries before some glasses would be completely disintegrated.

## Famed Family in Reunion

Alexander Stillman and his mother, Mrs. Fowler McCormick, photographed just before leaving for Montreal after a family party in Chicago, when Maj. Elisha Dyer Hubbard, husband of the former Muriel McCormick, for the first time met his mother-in-law, Mrs. Edith Rockefeller McCormick.

### Citizens Watch Laundry

Paris —(UP)—All in the interest of cleanliness, Louis Reb, 40, resident here, is now facing three stone walls and an iron-barred door in prison, charged with disorderly conduct. In the heart of Paris, along the banks of the Seine, the young woman decided that her clothes needed washing. Having her entire wardrobe upon her back, she proceeded to transfer it to the river, where she straightway began scouring them with soap, her self clad in Nature's own garb.

### Canada Protects Walrus

The walrus in Canadian waters is protected. No one is allowed to kill them except for food, and the number in any one year is limited to seven for Eskimos and four for whites. The walrus is an important food for the Eskimo and his dogs. All kills have to be reported to the mounted police.

## Visits Mother

This is the first picture of the former Muriel McCormick and her husband, Maj. Elisha Dyer Hubbard, since their marriage a year ago in Bar Harbor, Maine. The picture was made in Chicago where they are staying a few days to visit Mrs. Hubbard's mother, Mrs. Edith Rockefeller McCormick. It is the first time Mrs. McCormick and her son-in-law have met.

### Chairmen 82, Re-elected

Algonac, Mich. —(UP)—Already having 82 years of aggregate service in county and township offices to his credit, Roy T. Gilbert has been re-elected chairman of the St. Clair County Board of Supervisors. Gilbert has been supervisor of Clay Township for 16 years; member of the school board for 27 years; 10 years township clerk; Algonac city clerk seven years; chairman of the St. Clair County board for 11 years; Justice of the peace eight years, and village assessor for three years.

### Nudism Grounds for Suit

Paris —(UP)—Practicing nudism in the home has proved the latest grounds for divorce in France, the wife pleading that she and their two children, a boy 14 and a girl 12, had been forced, through marital authority, to submit themselves to be photographed in company with the nude husband. In granting the divorce to the wife, the French court admonished the husband and forbade him to practice integral nudism in the future, against penalty of further reproof.

### Teaching

The teaching profession, declares Calvin T. Ryan in Hygeia Magazine, must be freed from the stigma of being considered the one occupation in which the halt and the lame can always make good.
