Issues, notably the preferred, made wide gains. Consolidated Gas was in fair demand. American Telephone moved up more than a point from its early low.

United Fruit was in demand, rising to a new high for the year at 3¼, up nearly 4 points. Gotham Silk Hosiery reached 26, up 1½, a new 1932 high. Case moved

years ago by Prof. L. B. Elmore of Lafayette who has trained and developed the children into a very proficient musical organization. He will direct the band in all its concerts on this tour. Mr. Elmore is a Supreme Representative of the Knights of Pythias and attended the national convention at Kansas City early this month. He was Grand Chancellor when the Lafayette Home was dedicated at Lafayette on August 10, 1927.

Mr. Crooker who became superintendent of the Pythian Home on March 1st of this year, had previously served for ten years as Grand Lodge Trustee and had been a member of the board of directors of the Home since the establishment of that institution.

The trip will be made in a special bus owned by the Pythian Home and used during the school year to transport the Pythian Home children to the Lafayette public schools which they attended. A compartment has been provided on top of the bus for the band instruments.

Plans have been completed for concerts each forenoon and each afternoon in the cities reached on the trip, under the auspices of the lodges in each place. Special noon hour concerts will be played each day with a complete concert program each evening which will include vocal, instrumental and specialty numbers in addition to the band ensemble.

The Pythian Home at Lafayette was established by the Knights of Pythias on December 1, 1927. It has the distinction of having been built without incurring one dollar of indebtedness from the fact that

all funds to build it and equip it were raised before the first spade of earth was turned. The total investment at this time is about \$350,000.

Funds for the erection of the buildings were raised in a campaign to build it in one day, meaning that the funds were largely raised through personal donations of members of the lodges and of one day's income. The Home consists of three large buildings, one each for boys, girls and aged people. The site comprising a farm of 135 acres was presented to the Order by the citizens of Lafayette.

The Home is occupied at this time by 62 aged members of the lodges of the state, 25 wives and widows and 60 orphan children.

# Boys And Girls From Knights Of Pythias Home, Lafayette, To Give Concert Here, Wednesday, August 24 At Four O'clock

Thirty-six cities and towns in northern Indiana will be visited by the Indiana Pythian Home Band on a seven hundred mile trip August 22nd to 27th inclusive.

The band is composed of thirty-one boys and girls from the children's home, maintained at Lafayette by the Knights of Pythias of Indiana, and will be in charge of Mr. and Mrs. W. W. Crooker, superintendent and matron of the Pythian Home.

Decatur will be visited by the band on Wednesday, August 24. The band will arrive about 4 p. m. and will give a concert under the auspices of Kekionga Lodge No. 65 Knights of Pythias of Decatur. The local lodge is arranging for the band to play at a convenient location and the public is invited to enjoy the concert.

The band was organized three years ago by Prof. L. B. Elmore of Lafayette who has trained and developed the children into a very proficient musical organization. # Hessian Fly Causing Much Damage to Fields

Lafayette, Ind., August 19.—(UP)—The Hessian fly is causing considerable ruin in Indiana fields, according to C. M. Packard, of the bureau of entomology of the U. S. department of agriculture, who is working in cooperation with the Purdue university agriculture experiment station.

The fly is more abundant this year than it has been for a decade, Packard said, and material injury to the 1932 crop occurred in all parts of the state. In more than 200 fields tested, all showed infestation.

While parasites of the usual, according to the entomologist, enough are surviving to produce heavy infestation next fall if weather conditions are favorable.
