What with world series, political meetings and the general programs, the radios are working over time this week.

Some wise guy has figured it out that the next heavy depression will come to this country in 1955. Thank goodness it isn't the same one.

The Literary Digest poll from Indianapolis gives Roosevelt a lead of 5,000, which is not so bad and which will most probably grow as election day nears.

The McNutt rally will be worth seeing and joining. There will be plenty of music, a parade with red fire, good speeches and old fashioned enthusiasm. Bring the folks and come in.

Mrs. Charles K. Knapp will address the crowd at the McNutt meeting with a special appeal to the women voters. She is an able speaker and you may depend upon hearing a worth while message.

Governor Roosevelt is still telling the people what is wrong and what ought to be done and thinking folks know he is telling the truth. This condition cannot be corrected in a day or two but the longer we put off starting, the worse it will be.

Among the young men who attract attention in the speaking campaign, in Fort Wayne this campaign, is a former Decatur lad, Francis Corbett, who is enthusiastically for Roosevelt, Van Nuys, McNutt and the Democratic ticket. We hope to have him speak here during the next few weeks.

The Lindbergh case is before the public again after a rest of several weeks. A suspect is held at Harrisburg, Illinois, for questioning, with some indications that he may be able to give some light on the worst crime of the past year. If he is the guilty man, there is no punishment severe enough and that's the verdict of every decent citizen in the country.

While it may appear to some that the Chicago Cubs would be good in a minor league, you may be fooled before the finish. They haven't

had any particular breaks so far. The Yanks have taken the first two games but they need two more and will have to get them at Chicago where the crowd will be against them and where the Cubs may have more confidence.

Senator Frazier of North Dakota cannot support President Hoover and so declares in public. He will probably not vote for Roosevelt but says he will keep a "hands-off" policy, which means he won't bother with the head of the ticket at all. Looks foolish but the loss is more for Hoover than for Roosevelt. Its getting tough when senators of his own party bolt.

The Republicans are playing smooth tricks now and boasting of it. To detract attention from Governor Roosevelt's speech at Sioux City last evening, they rushed through plans for a speech by the President starting a half hour earlier and lapping over the time. It makes but little difference, however, for those desiring to hear him would probably not have turned in on the Roosevelt meeting any way.

The Democrats are rather "cocky" these days, which is about the worst thing that can happen thus far before the battle. A lot of things may occur and it is wise to keep right on working. Many an election considered in the bag in September has slipped out before November. Every voter should be seen, every precinct organized and the campaign kept moving.

It is reported that store robberies similar to the one at the Gass shop this week have recently been pulled off in Auburn and Lima. If this hi-jacking is general it looks as though something ought to be done. It's a serious matter when thieves walk in and steal about every thing in a store and get away without any clue of any kind.

William R. Hearst, who is considered a rather successful business man says: "Mr. Roosevelt is going to be elected surely, and during the first four years of his administration we are going to get back such good times that he will probably be re-elected. Roosevelt is not a radical. He has not done anything radical in the four years he has been governor of New York, and that is the length of his presidential term. Roosevelt is simply honest, and of course that frightens the high financiers more than radicalism."

Chicken Creole
Chicken creole is made by using the left-overs of chicken and gravy. Cook rice, pick the chicken off the bones, mix with the gravy and use small bits of pimento. Heat in the double boiler or the oven.

Ink Stains
An excellent remedy for removing ink stains from white goods is to cover the spot with lemon juice and salt and hold it over a steaming kettle.

Cut Flowers
The cut flowers can be preserved much longer if a pinch of salt is added to the water in which they are standing.

DON'T QUOTE ME

(U.P.)

Washington, Sept. 30. — (U.P.) — American politicians have to stand a good deal of abuse but they don't know what real punishment is. V. J. Patel, the former lord mayor of Bombay, former president of the Indiana legislative assembly, and now described as "the business brains of Gandhi," says he expects to be thrown in jail when he goes back home.

He is here in behalf of the independence movement. In India a man is not regarded as a practical politician until he has been thrown in jail. They turn out criminals to make room for political prisoners, he says. He discovered cement in his food once, according to his principal American tour adviser, Sallendranath Ghose, president of the India National Congress of America. Patel wears native costume but smokes American cigarettes.

Soon after congress convenes the new house office building will be opened. It will contain 252 suites, each congressman having two rooms. The old office building in which members were crowded into one room each, is being remodeled into two room suites. For the new building the government has bought 252 easy chairs at \$36.63 each. It bought 254 davenports. These are overstuffed and upholstered in solid leather. They are six and one half feet long so that the tallest congressman will be able to sleep on them without having to pull up his knees. The government got them at \$67.48 each, a price the purchasing agents considered very reasonable.

Movie interests are snuggling up close to both sides in this campaign. Will Hays, president of the Motion Picture Producers and Distributors of America, Inc., was Republican national chairman in the Harding campaign. He is helping out this year, particularly in Indiana. Charles C. Pettijohn is general counsel of the Hays organization. He is a Democrat and is reported to be one of Governor Roosevelt's advisers on the western trip. Both Hays and Pettijohn originally were Indiana lawyers.

MINE RIOTERS ARE SENTENCED

CONTINUED FROM PAGE ONE
... sentenced sentence; Elmer Rookberry three months; Ray Keene, 30 days; Opal Hixon, six months; Albert Irvin, 90 days on probation; Floyd Gillespie, Michael Convey, Bond and James Hickman, 90 days each;

Ide Medley, 90 days suspended; Oil Tribbley 60 days.

The remainder of the original 22 defendants were either found not guilty or were dismissed.

Evidence introduced during the trial was intended by the government to show that the Oak Grove mine, a few miles north of the Hoosier shaft, and the Dixie Bee mine, at Pimento, both non-union pits, were attacked the same day as the Hoosier. This evidence was opposed by the defense but the court overruled.

Completion of yesterday's cases brings to an end court action pending against alleged rioters. Similar charges against more than 200 others were dismissed several weeks ago.

Purse Unnoticed Three Days
Reinbeck, Ia., — (U.P.) — For three days, a purse containing \$50 in cash lay on the street here untouched. When Henry Wieben had abandoned hope of recovering his money, the purse was found by the street by M. M. Sprunger and returned.

POPE PROTESTS MEXICAN LAWS

CONTINUED FROM PAGE ONE
the government is attempting the gradual elimination of the Catholic clergy and hierarchy.

The title of an encyclical is taken from the first two words of the text, "Acerba Animi" may be translated freely as the "Bitterness of Soul" or "Bitter Spirit" which the Pope maintains the Mexican government holds against the church.

Difficulties between the church and state in Mexico reached a climax when Gen. Plutarco Elias Calles, a pronounced anti-clerical, was elected President in 1924. Calles received from congress powers to recognize marriage as a civil contract

and to prohibit religious teaching in public schools. Various states have enacted laws further limiting the activities of the church.

The basis of the present relations between church and state, reached in 1929 forbids the hierarchy to designate priests to register in compliance with Mexican law; limits religious instruction to the churches, and allows Mexican prelates the right to apply for modification of the constitution just as any Mexican citizen may apply.

The number of priests in the federal district, in which Mexico City is located, was reduced to one per 1000,000 population, leaving some 50 priests to do the work previously delegated to 250. State governments made drastic reductions in the number of priests recognized officially.
