Paris Styles

By Mary Knight
 Paris Press Staff Correspondent
 Paris (UP)—In keeping with the times, the best dressed women are choosing the most simple gowns and have discarded much of the flashy jewelry and adornments of other days. It may interest you to know just what some of the very smartly gowned women are wearing.
 Baroness Thyssen is extremely chic in a black tulle suit which is a deep oval yoke of astrakhan the back, almost like a cape laid in the jacket, which slopes up to the front where it ends in a tie under the turndown collar. This is Chanel model.
 Princess Nadejda Scherbatova wore this same suit. Another Chanel model worn with success is that worn by Mrs. James Duke. It is a very smart brick red tweed tunic with a jacket that is cut to fit tightly at the waist, a plain circular skirt and white pique gilet.

Beware the Cough or Cold that Hangs On

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (Adv.)
