Business and a free attraction
drew a large crowd here Saturday.
The merchants did a good business,
the visitors had a good time and it
proved again that a little effort is
a good thing.

The healthy, happy and confident
smile of President Roosevelt is the
best tonic this country has had in
a long time. He is going to take
us out of the hole and he knows it
and the people are beginning to
suspect it themselves.

National advertisers are getting
ready to start campaigns for their
products, showing faith in the
future. The local business man
who does not go after his share of
trade is just wasting time. Either
you will do business or you won't
and those who do are those who
use newspaper display advertising.

Another saving made by the
recent legislature is one of approxi-
mately \$65,000 at each election.
Inspectors will be paid eight dol-
lars hereafter instead of twelve and
clerks and judges will work for five
a day. And its quite probable that
there will be no difficulty in filling
the places even at the reduced
wages.

The basketball season is about
over, the state tournament which
closed Saturday night, concluding
the high school contest, always
interesting. The tournament this
year furnished a number of excit-
ing games and the usual number of
upsets. North Side of Fort Wayne
which represented this section,
made an excellent showing.

The beer and agriculture bills
will be the big events in congress
the next day or two and both will
probably be enacted. Fifteen days
of the present administration has
demonstrated that things can be
done in Washington when there is
the proper desire with the support
of the people.

This is a good time to buy the
things you need. There is no doubt
that we have taken a turn for the
upward business climb. That means
a gradual increase and its safe to
say that the prices right now are
the lowest they will be in many
years. Whether its farm machin-
ery, real estate, clothing, shoes or
any other commodity, you will
probably save money by buying
now.

-COMING-
THE SIGN OF THE CROSS.

We're Around That Corner.

The Indiana state tax board is
after the money hoarder and an
order issued fixes April 10th as the
deadline for depositing your cash
in a bank. After that time an addi-
tional tax equal to ten times as
much as it would cost for deposits
will be made. It may be wise to
look this matter up and if you have
money, you must either deposit it
or list it unless you want to take
the chance of violating the law.

Senator Robinson of Indiana is
producing a lot of laughs by his
frantic efforts to attract attention.
He doesn't care how he gets it but
is taking no chance on being class-
ed as one who agrees with the
president on any thing. He will be
a candidate for re-election next
year and is evidently hoping the
sentiment will be strong enough
anti-Roosevelt by that time to make
him the hero. He probably as
usual is guessing wrong.

The activities at the sugar fac-
tory are a good sign and will im-
prove as spring approaches and the
work progresses. Ever, one happy
over the big contract campaign and
with a good season we are sure
every one will be enthusiastic by
next fall. With more than 12,000
acres planted in beets and with
any kind of a break of luck, it looks
like a hundred day run at the plant,
beginning about October 1st. And
that's something.

A dozen local men want to tackle
the job as beer distributor and Paul
Fry, state excise director, will evi-
dently be able to secure a capable
manager for that business. He
will handle the product for the en-
tire county, selling to restaurants,
hotels, groceries, drug stores or in-
dividuals as they qualify. It will
be interesting to know just how
great the volume will be and over
that point there are now numerous
discussions and guesses.

Editor: The following letter was
received by Mr. and Mrs. John
Ballard of this city, from their
son, Raymond F. Ballard, on the
U. S. S. Arizona, San Pedro, Calif.
U. S. S. Arizona
San Pedro, Calif.
March 12, 1933.

Dear Mother:

I will write a few lines and let
you know that I am alright.
You have by this time heard
about the earthquake we had out
here. Well I was in it. I went
ashore about four-thirty to get
some things that I needed and
started right back for the ship.
While I was waiting on the dock
for the ship's boat to take me
back, I was reading a magazine,

when all at once the dock began
to move back and forth. At first
I thought it was the water caus-
ing it. When I looked around and
saw every one running, I knew
something was wrong, so I ran
back away from the dock, for
fear the dock would go to pieces,
and when I reached solid earth,
well, there wasn't any. The only
thing I could do, was just stand
there with the earth moving
under my feet, and was I scared?
Well you will never realize what
it is to be in an earthquake and
see brick buildings come tumbling
down. I hope you never see one.
Of course, when the ship's boat
came in, I went right back to the
ship and I was glad to get back.
I hope to tell you.
We are still having small
tremors.

Well Mom, I can't think of more
to write now, so will close. Please
write soon.
From your son,
Raymond.

Pet Ducks Freeze in Pond

Emmett, Idaho. -- (U.P.) -- John
Lietchy awoke one morning to find
his pet ducks frozen in a pond. The
ducks failed to return to their pens,

and when Lietchy found them,
their feet were frozen tightly in
the ice. A blow torch freed them.

Resizing A Rug
Place the rug face down on the
floor and stretch it very tightly and
evenly. Tack it down at frequent
intervals. Soak and dissolve 1-4 lb.
of flake glue in 1/2-gallon of water.
In a double boiler or a container
surrounded by water. Sprinkle this
solution generously over the rug al-
low rug to dry for at least 24 hours.
If rug is light weight do not use
enough glue to penetrate to other
side.

Laundering Bedspreads
When drying a crinkled bed-
spread, fold it double lengthwise
and pin the edges to the clothes-
line. This prevents any creases as
well as uneven stretching.

A Different Breakfast Food
Try popping some corn without
grease or salt, then running it
through the foot chopper. serve
with sugar and cream. It is both
economical and healthful.
