**Doctors Give Creosote For Dangerous Coughs**

For many years our best doctors have prescribed creosote in some form for coughs, colds and bronchitis, knowing how dangerous it is to let them hang on.

Creosolium with creosote and six other highly important medicinal elements, quickly and effectively stops all coughs and colds that otherwise might lead to serious trouble.

Creosolium is powerful in the treatment of all colds and coughs, yet it is absolutely harmless and is pleasant and easy to take.

Your own druggist guarantees Creosolium by refunding your money if you are not relieved after taking Creosolium as directed. Beware the cough or cold that hangs on. Always keep Creosolium on hand for instant use. (adv.)

### Girls—Wear a High Collar and Epaulets

Fashions are following the stream-line this year, which means that interest is centered up at the top of your figure. And it's a very flattering idea, for collars that frame your face and trimming that gives you straight broad shoulders do wonders toward making you look tall and graceful.

You've never made a coat before? Then start right in on this one. The front is in two pieces and the back is all one—and there's no mystery at all to those simple sleeves. Choose a soft hairy or flecked wool, and finish it off with thin cartridge-shaped buttons. Brown is a good color, or a dull rust. Bright blue is also becoming, and oxford gray is especially smart this year.

Size 14 requires 2 3/4 yards 54-inch material, 1/4 yard 50-inch fur cloth, 1 1/2 yard 39-inch material for lining. For other smart clothes for the family wardrobe, in Easy-to-Make versions, see our new Fall Fashion Book, which is a gold-mine of home-sewing information.

Pattern No. 5364 is designed for sizes 8, 10, 12, 14, 16 years.

### Tropical Storm Hits Florida Keys, Shifts Back to Sea

Key West, Fla., Oct. 5—(U.P.)—A tropical storm, shifting so abnormally in its direction as it roared out of Cuba as to perplex weather observers, lashed the Florida Keys today and then apparently moved out to sea again.

A 55-mile wind struck Key West at 2:30 a. m. today, uprooting trees and doing a little damage to small buildings, but after that the barometer began to climb from a low of 29.09 to 29.37 at 8:30 a. m. and the wind had lulled to a 25-mile an hour velocity.

A freakish, twisting wind did \$25,000 damage at Hollywood, Fla., as it ripped through the town early today, scattering lumber, damaging small dwellings and tearing down power and telegraph lines.

Torrential rains brought 11 inches of rain to Key West in the last 24 hours.

How can she have a clear skin, too?

There is one way which many have found efficient... by restoring deficient red-cells and hemo-globin (skin and tissue purifier) to the blood.

The right amount of hemo-globin in the blood makes a vast difference in the way you feel and look.

S.S.S. Tonic has the special property of increasing the red-cells and restoring deficient hemo-globin to the blood.

Tens of thousands yearly take a course of S.S.S. to pep up a lagging appetite, regain old-time vigor, restore color to the skin and to build up resistance to infectious diseases, pimples and boils.

**Why—**

**Chesterfields are Milder**

**TOBACCO to grow, to ripen and become mellow, has to take in or absorb something... not Vitamin D, of course, but something that it gets from the right amount of Sunshine**

It's the Southern sunshine you read about, combined with the right sort of climate and moisture, that makes the Carolinas, Georgia, Kentucky, Maryland, and Virginia the best tobacco country in the world.

You can stand down there in that Southern sunshine and almost see it grow.

This ripe, mellow tobacco is skillfully cured by the farmer. Then, for 30 months, it's aged—just like fine wine.

It takes the right quantity of each kind of these tobaccos, blended and cross-blended—then seasoned with Turkish, to make a milder cigarette. Sunshine helps. Just try it!
