Hundreds of school children and  
many others will attend the special  
anniversary program at the monu-  
ment west of the court house Mon-  
day afternoon at three o'clock. Join  
the crowd.

A prominent Fort Wayne busi-  
ness man who has been here the  
past several days said this morn-  
ing that he was convinced that this  
is the best town for many miles  
around. That's a good reputation  
for any city to enjoy.

Hallow'en Tuesday. Get ready  
to have a good time. Plan to come  
to Decatur that evening and see  
the big parade. Forget any wor-  
ries you may have and join the  
thriving of merry makers. It will be  
a good tonic for you.

The world's all right and the  
players who demonstrated it in the  
Legion play this week convinced  
every one that after all its up to  
us to take the knocks, meet the bill  
collectors, dodge the officers and  
keep on smiling and enjoying life.  
After all its just a part of life.

Wonder if we don't give too much  
attention to Mae West, Sally Rand  
and the others who are making  
great sums of money by waving  
their legs and looking pert on  
screen and stage. They don't do  
anything that any girl couldn't do  
if she didn't care and preferred  
money to decency and a good name.

With every plant in Decatur going  
good and with the extra road  
work for this autumn and winter,  
a little more push would make busi-  
ness here as good as ever in history  
and if that push is hard enough  
we'll be more prosperous than  
ever. We have the opportunity.  
Let's not miss it.

Don Erwin, Republican state  
chairman is going over the state  
with a line of gab that is so clearly  
partisan that we doubt if he even  
wakes up the faithful. His figures  
are misleading and unfair and long  
before the campaign of next year  
opens he will have to change his  
tune.

Decatur is the best town in the  
country just now. Experts who  
know the percentage of employment to  
the population, is the greatest here  
have made a survey here declare  
of any town, big or little, in the  
middle west. That means some-  
thing and is sure to attract attention.  
Let's measure up to the  
reputation by keeping it going.

It has been twenty years Monday  
since the first peace monument in  
the U. S. A. was dedicated here to  
the soldiers and sailors of every  
war. It attracted much attention  
then and since. Governor Ralston,  
every state official, the state com-  
mander of the G. A. R., Congress-  
man Adair and other notables took  
part in the event. The schools of  
Decatur and Adams county will  
observe the anniversary Monday  
afternoon with a suitable program  
and you are invited to attend.

Adams Post, No. 43, American  
Legion, has wired state officials

that they are willing and anxious  
to cooperate in the driving out of  
criminals from Hoosierdom. These  
boys mean what they say and will  
protect life and home in any way  
called upon. It looks as though  
this business of making the ban-  
dits realize they can't continue  
their raids is after all largely up  
to local authorities. With the Le-  
gion, the sheriff's force and the lo-  
cal police, we ought to make this  
a good place for the gunmen to  
stay away from.

Incorporation of the Dairy Mar-  
keting Corporation, an industry  
sponsored organization set up un-  
der the laws of Delaware as a clearing  
house to handle surplus dairy  
products under an agreement with  
the Secretary of Agriculture, was  
announced by the Agricultural Ad-  
justment Administration October  
20. Chicago will be the headquarters  
of the corporation. H. C. Darg-  
er will be general manager. There  
are ten directors representing pro-  
ducers, processors, and distribu-  
tors. The corporation is to function  
in the removal of surplus dairy  
products from markets. The secre-  
tary will purchase dairy products  
from the corporation and the Fed-  
eral Emergency Relief Administra-  
tion will distribute to the needy.  
In authorizing the execution of the  
agreement Secretary Wallace stat-  
ed that it was not to be taken as  
a precedent, and that other com-  
modities purchased by the secre-  
tary would be handled by the Sur-  
plus Relief Corporation. The neces-  
sity for adjusting domestic dairy  
production to demand was recog-  
nized by the industry in signing the  
agreement.
