A GREAT WORK:

The fact that 158 fatalities were reported on Indiana highways, outside of cities and towns, from July 1 to November 1, would be more than a sufficient reason for the widening of the shoulders along main highways, James D. Adams, chairman of the State Highway Commission, stated today. A majority of the deaths were said to have resulted from collisions between motor vehicles.

The increased safety that results from the wide shoulders along the pavement is one of the factors that led to the widening work program on which approximately 25,000 men are now engaged in all parts of the state. The creation of work for unemployed men taken from the relief rolls was the principal factor in adopting the program, Mr. Adams stated.

While the widening work has been under way for only a few weeks, the miles of wider shoulders have already been the means of preventing many accidents on the highways, Governor McNutt was informed during a recent meeting with the Highway Commission. Several reports have been received during the past few days of cases where automobiles or trucks have been driven out on the wide shoulders to prevent what might have been a serious accident.

This work is being extended as rapidly as possible by the highway commission, the only delay resulting from failure of local communities to cooperate in securing the wider rights-of-way required. The program outlined includes widening work on most of the principal highways of the state, extending out from the cities and towns in order that the greatest number of unemployed may be given work. Rural residents benefit from the program through the use of teams and small trucks on the widening jobs, it was pointed out. Wherever the work has been done, the farmers and property owners are highly pleased according to reports received by Governor McNutt and the Highway Commission.

There is nothing much worse than a mob and the members of the crowd which took the two murderers of Brooke Hart from a San Jose, California, jail and hung them to an elm tree in the park will remember the moments as long as they live and yet few will blame

Indiana Stomach Sufferer Eats Anything Now

After suffering for 10 years from stomach disorders, which caused pain after every meal, Mr. F. F. Crell, 915 So. Logan St., South Bend, Ind., reports he was completely healed by a simple home treatment. He says since taking the Unga treatment he can sleep, and eat without worry about his stomach. He wants all other sufferers to know about his experience. Mr. Crell advises all sufferers from stomach ulcers, gas pains, excess acid, belching, pain after eating, constipation, sour stomach, poor digestion, dyspepsia, gastritis, and other stomach disorders due to hyperacidity or faulty diet, to try Unga at once. Now we offer the same treatment which produced such splendid results for Mr. Crell to all stomach sufferers on 15 days' trial, with money back if not satisfied. Also testimonials, a sworn affidavit of genuineness and a free book explaining the cause and treatment of various stomach disorders, including stomach ulcers. If you suffer, ask for the 15-day treatment today. If it fails to help you, we'll give you your dollar back. At Holthouse Drug Co.

them. The murder which followed the kidnapping of the young man was one of the most brutal recorded and there can be no defense for the perpetrators. Yet it is a serious thing to break the law down and for a mob to take the law in their hands has long been recognized as a serious crime. The worst criminal is probably entitled to his chance in court but try to tell that to a howling crowd of men and women who have worked themselves into a frenzy which nothing but the lives of those they are after will quell. It may be in violation of law but its difficult to stop. Of course the sad part is that it places those who carry the burden of the law on their shoulders in a tough spot where they have to defend the prisoners with their lives and in this case the sheriff was a victim of the mob.

We have had numerous requests that we urge the cleaning of the St. Marys river and her banks, as a part of the public work program and certainly nothing that can be done will show the spirit of the community better. This is being done in several cities and has been proposed here numerous times. Old logs and stumps and rubbish should be removed from the river bed and along the sides and the strip just south of the north bridge should be cleaned and moderately landscaped, so that visitors here will have a good impression of Decatur and her citizens. Let's include it in the program.

When a history of this depression is written all the space should not be given to the men who will become heroes for solving the economic mess. We have in mind a woman here who has managed to keep a family of twelve going on the sum of \$37.50 a month received from compensation insurance for the accidental death of her husband. If this hasn't been a task, then there never was one, and yet she has managed to avoid charity. There are doubtless hundreds of similar cases and these people who carry on in the face of the greatest difficulties are certainly deserving of something.—Newcastle Courier-Times.

Decatur schools and those in several townships of Adams county are entitled to their share from the state educational equalization fund and while to obtain this requires some effort and considerable work, those in charge will attend to it at once, as the extra money will mean much to those who obtain it. The President is continuing his efforts on a real public work program that will stamp out unemployment for a long time and should result in an era of prosperity that will take much of our troubles away. He is for the people and all the complaints of leaders who oppose him, will not stop his efforts for them. And the people are realizing it now more than ever.

News is breaking fast these days and we are working all the time to furnish it to you while its fresh. Keep posted by reading the Daily Democrat and tell your friends to subscribe.

SECRECY AND MYSTERY!

Secret writing systems have excited from ancient times. The Greeks and Romans used cryptograms to convey messages. The Bible tells about methods of hidden writings. And all down through history methods of encipherment that would defy detection have been tried, until today the most elaborate codes and ciphers are in use by diplomatic services, army and navy intelligence services and other agencies of government. The story of CRYPTOGRAPHY is a fascinating one. Our Washington Bureau has prepared a bulletin on this subject that will hold your interest like a detective story. It explains the simpler methods of constructing ciphers and codes and something of the methods used to decipher such secret messages. Fill out the coupon below and send for this bulletin:

Preserving the Broom
Try fastening a strip of an old stocking around the bristles of the new broom. This will prevent it from spreading and add many weeks to its life.
Waxed Paper
If waxed paper in which bread is wrapped is saved it can be used for cleaning the stove. Rub the paper over the range while it is

still warm and it will remove the grease and soil.
Ironing Center pieces
To avoid puckering when ironing round centerpieces and tablecloths, iron from the center to the edges.

TAKE A TIP FROM GOODYEAR ENGINEERS
Buy New Tires NOW!

SAFETY MILEAGE LASTS LONGER IN COOLER WEATHER
THE TREND IS TOWARD LONGER NON-SKID TREAD MILEAGE ON COOLER ROADS

NON-SKID LIFE INDICATED BY HEIGHT OF BARS FOR VARIOUS ROAD TEMPERATURES

The point of this chart is simply this — it's good sense and good business to buy new Goodyears now. Because you'll have more slippery driving in the next five months than in all the rest of the year — because tires which get their "breaking in" during wet, cold weather average 30% more total mileage than tires started off new in hot weather months — because you can buy the best tires Goodyear ever built at prices almost exactly where they were a year ago it will pay you to protect yourself from tire troubles by putting on new Goodyears now.

FIRST CHOICE AT WORLD'S FAIR
Exhibition and demonstration vehicles and buses at A Century of Progress, Chicago, were equipped with nine leading makes of tires. Goodyear Tires outnumbered all the other makes combined.

ARE YOU SLEEPY? MRS. HOUSEWIFE

The chances are, you could fall to sleep reading the paper. You probably consider your tiredness the advanced agent of old age or some impending illness, and that's about it. Many women have the wrinkles of old age before their time, because they did not save themselves in their kitchens. Three articles have been designed to perpetuate your youth.

A KITCHEN STOOL — So you really rest as you work.
A SMALL KITCHEN GARBAGE CAN — You don't need to run outside to your large one, ten times a day.
And a WASTE PAPER BASKET — For your food wrappers.
