National Adver. Representative  
SCHEERER, Inc.  
15 Lexington Avenue, New York  
35 East Wacker Drive, Chicago.

Charter Member of The  
Indiana League of Home Dailies.

She finally arrived.

Spring is here—tra-la-la.

Only nine more shopping days  
till Easter. Better do it early.

The winter of 1933-34 will always  
be remembered as the best one coal  
dealers had for 60 years.

If the old weather man just knew  
it, we've had all the snow and zero  
breezes to hold over until next year.  
year.

Congress will pass the necessary  
legislation guaranteeing the principal  
of the Federal Home Loan  
bonds. This will make the bonds  
as good as any government bond  
and will increase the demand and  
sale throughout the country.

Peter Gilliom who died at Berne  
yesterday was one of the leading  
citizens of the community, a man  
of stalwart principles and excel-  
lent character. He leaves a fine  
family and the county loses one of  
its pioneer and substantial citizens.

They're waiting for bad man Dill-  
inger at Lima, Ohio, and if he  
marches into that city in view of  
all the preparations to get him, he's  
not as smart as some fellows think  
he is. If he wants to put on a real  
show and end his career as a killer  
and bank robber, let him try in-  
vading the Ohio city.

Congressman James I. Farley an-  
nounces that he will be a candidate  
for re-election. Mr. Farley has  
made a fine record in his first term  
and the voters of the Fourth dis-  
trict will no doubt want him return-  
ed so he can continue to help in  
promoting President Roosevelt's  
great recovery program.

Will Hays, movie czar, has ban-  
ned the filming of any picture de-  
picting the life of John Dillinger.  
In that the country supports him.  
If the movie producers cannot  
think of anything better than a

story of crime and killing to show  
theater patrons, it's time someone  
stops them.

Col. Theodore Roosevelt is to be  
the new head of the Republican  
party league. We grant his name  
helps some, but doubt of the fiery  
colonel accomplishes much in  
bringing the factions of his party  
together. His will no doubt be a  
selfish purpose, all the time think-  
ing that he is "going to get his  
cousin" and that won't work now.

A total of 130 boys and girls will  
be graduated from the seven rural  
high schools in the county next  
month. Commencement exercises  
will start April 23 in Hartford town-  
ship and continue throughout the  
week. It's a fine record for Adams  
county to have that number of  
rural high school graduates  
and proof that the people of this  
community believe in giving their  
children the opportunity of an edu-  
cation, regardless of the sacrifice  
it may mean to them in extending  
this privilege.

The gift of about 500 loads of  
sand from Judson W. Teeple of  
this city to be used in improving  
the parkways in Hanna-Nuttman  
park, is greatly appreciated. The  
city was without funds to buy the  
material and had it not been for  
Mr. Teeple's generous donation the  
paths would have remained mud  
or clay bottoms. The park will  
not only be one of the finest nature  
spots in this part of the state, but  
by the time work is completed  
there, will be of great pleasure and  
utility to all those who wish to  
visit it.

A chart has been prepared show-  
ing that collisions or smash-ups in  
autos going 60 miles an hour is  
equal to a fall from an 11-story  
building or 120.3 feet. At 20 miles  
the impact is equal to a fall of 13.4  
feet and at 40, equal to 53.5 feet.  
Figure it out yourself and you'll be  
convinced that chances are against  
you when going break-neck speed.  
The same chart also shows that  
most accidents occur between five  
and nine o'clock in the evening  
and that when you travel 60 miles  
an hour you get an average of only  
10.1 miles per gallon of gas, while  
at 30 miles the gas averages 18.4  
miles.

The strike of auto workers,  
scheduled for today, was called off  
last night after President Roose-  
velt took a hand in the matter and  
wired the labor organizers to co-  
operate with him. A strike now  
would kill industry, cause rampant  
unemployment and add to suffer-  
ing of thousands of people. After  
all it's a matter of adjusting differ-  
ences and arriving at an under-  
standing and employer and em-  
ployee can do that while working,  
just as easy as during times of  
strike, when violence and blood-  
shed generally result. The coun-  
try will back the President in his  
stand that this is no time for tying  
up things.

**Uncle CHARLEY says:**  
BY CHARLEY GRANT  
After a feller paints things red  
he usually feels blue.

Many a feller makes good money  
in a bad business.  
Takes a masterful chap t' make  
a gal his slave.  
Many a chap gets over a rough  
spot with a smooth line.  
Loose livers quite often wind up  
in a tight place.  
What if you do get turned down?  
Buck up.

**CARD OF THANKS**  
We wish in this manner to thank  
the neighbors and friends for their  
many kindnesses, those who sent  
flowers, Rev. Thompson for his con-  
soling words, and Dr. Elcher for his  
kind treatment and the nurses  
at the hospital for their kindness  
to our mother, Mrs. Rebecca Em-  
ery during her illness.  
Mr. Iona Case,  
Mrs. Cora Harris,  
Mrs. Myrtle Orvis,  
Ira Emory.

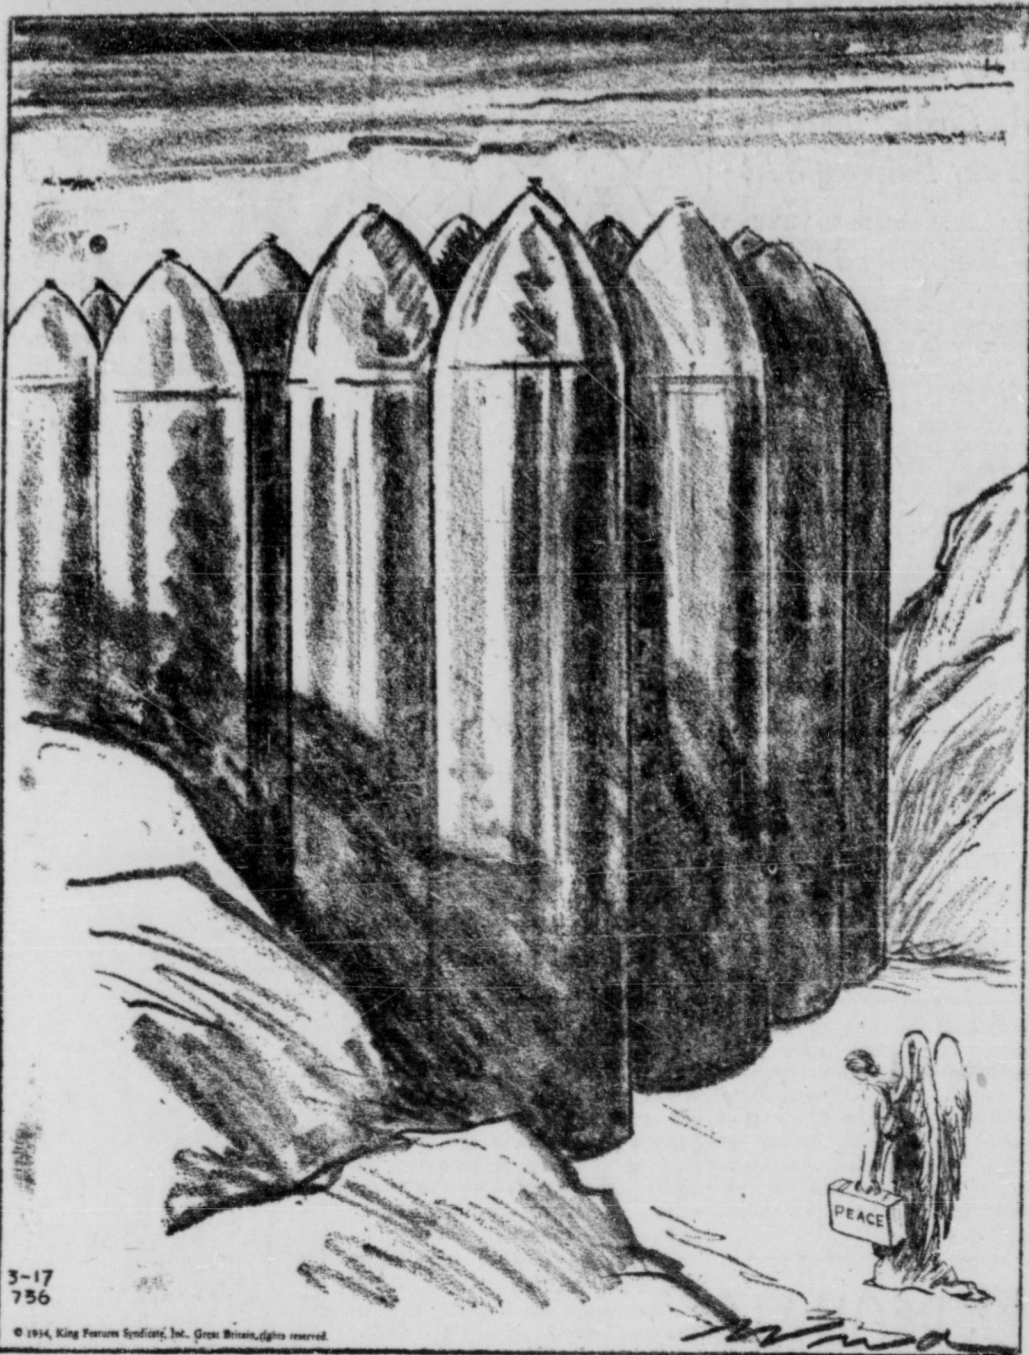

**'PLEASE DON'T  
MIND ME  
FOLKS!'**

"GO RIGHT AHEAD  
and don't mind me. I'm  
used to newbies!"  
"I just ran over to use  
your telephone for a few  
calls."

THE CITIZEN'S  
TELEPHONE CO.

## COMPLETE JURY IN CLARK CASE

(CONTINUED FROM PAGE ONE)

John W. Dillinger, 72-year-old father of John Dillinger, was reported today to have received word from the notorious outlaw since the latter's escape from the Crown Point jail March 3.

The elder Dillinger was reported to have told a woman identifying herself as Euldie Callender, Gallion, O., that the desperado had communicated with his Morgan county relatives but declined to enlarge upon the information.

The woman said she had visited the Dillinger farm home near here after receiving a "spiritual urge" to aid the fugitive. She displayed a letter from Louis Piquett, Chicago attorney for the outlaw, and said she had written Dillinger a letter from her Gallion home the day before he escaped from the

Lake county jail. The letter, she said, contained photographs of her four-year-old daughter.

The woman said she had been at the office of Gov. Paul V. Nutt late yesterday but was unable to return at another time.

## Moose Lodge Opens Membership Drive

The Loyal order of Moose lodge No. 101 has opened a membership drive and an effort is being made to obtain a number of new members and renew those who have lapsed during the last year. The membership fee has been raised to six dollars, Charles H. Nutt secretary stated. The fee for initiation is only one dollar. The charter will be kept until May 1 and a large number of new members are expected. The local lodge has a membership of 300. The Moose lodge is located on North Second street.

# the MODERN GAS RANGE

is the  
only  
cooking method  
which gives

**INSTANT HEAT**  
any degree of  
heat up to 2000  
the second the  
valve is opened

When you turn on the gas in your modern gas range, you have heat instantly. No waiting for "warming up." Gas places at your command 2,000 degrees of heat... or any lesser degree... every time and any time you want it. Because gas gives instant heat, it is the ideal fuel for cooking. Besides, gas is dependable and clean. It's economical, too, because it saves you time and you never use more than you need.

Cooking experts say that for best results, broiling must be done under a flame. And the modern gas range is the only one that enables you to have your steak under a flame that is accurately regulated to give a constant, even heat. Gas is perfect for broiling... that's another reason why it's the ideal fuel for every cooking use.

The modern Gas Range is the ONLY range that permits

**PERFECT BROILING**

Correctly broiled steaks are possible only under a FLAME
