FIFTH AVENUE FASHIONS

By ELLEN WORTH

Sleeves Take a New Short Cut to Chic

The smart sleeve is the short sleeve and the newest length is above the elbow. Here the sleeves are cut-trimmed, and perfect for the cool, all day, everyday frock that plays such an important part in your wardrobe. Other chic details? Note that drop shoulder line, the low pleated fullness, and the fabric, printed sateen in a tiny tie pattern. Handkerchief linen would be smart for the plain color bow and belt.

Don't overlook the tucks just under the yoke, nor that trim row of buttons. Of course the dress is easy to make. Size 16 requires 4 1/2 yards 36-inch print, 3/4 yard 36-inch plain. Width about 2 1/4 yards.

Pattern No. 5537 is designed for sizes 14, 16, 18, 20 years, 32, 34, 36, 38, 40, 42 bust.

SUGGESTS NEW PLAN

Editor Democrat:

Now that Prof. Wirt has shot his little squirt and is back from the big town perhaps the rest of us can now sleep without fear of the reds swooping down on us in the dark. The gentleman must be aging rapidly and unlike whiskey is not improving with age. He has either entered his second childhood or is in the employ of financial interests.

One problem that the entire country will have for at least this year is poor relief. Here is a solution so simple it is a wonder it hasn't been at least tried. To solve any problem of such dimensions it must be approached from both sides—fairness to the taxpayer and fairness to the man up against it. The agricultural communities are easily solved. Take our country.

Here is the situation today. The taxpayer pays and receives no benefit. Those on poor relief receive aid which is but temporary and might be said to be hand to mouth existence—precarious and with loss of self respect by being on charity. Federal aid this winter has assisted considerable, but reemployment has not and will not take up every man this year that wants work, or should work. Here is the kernel. As every farmer in each township must pay so much tax towards poor relief and gets no benefit, outside of doing his patriotic duty, why not let each farm (owner) contribute a certain amount of work. Thus in each township there would be this work to do. The trustee could be the clearing house. Those on relief or actually needing work or exercise or both could thus be satisfied. They would have jobs awaiting them and they could again look the old flat world in the face.

As to the feasibility of this plan, what farm in the county but could have some work to let out on it this year, cleaning fence rows, putting in new fence or replacing broken posts, in preparing the ground this spring, during harvest, repairs on buildings, making wood this winter. It looks as though every man in the county could be furnished plenty work.

Now some farmers will say "we will do our own work" and "we don't need help." That's O.K. but some can use help. And all must remember this you absolutely must assist in paying the poor relief tax. Like the corn-hog reduction program every farmer is helping to pay for the hog bonus. If he stays out of the co-operative plan he gets nothing in return for what he pays. Now if he will enter to co-operate in this poor relief work he will at least get that amount of work done.

Now as to how it will work. Either through the commissioners or trustees to arrange the terms. Either the trustee will pay the applicant in money or O. K. his grocery bills as usual, or each farmer to pay the worker or O.K. the worker's bill which is to be returned to trustee and farmer settles later.

With trustee as the clearing house farmer can pay in money at so much per day, or products of farm such as grain or a hog for meat. And presto goes all poor relief levies.

Yours truly, GROVER ROMEY.
