The unemployed may get garden seed, including Bodle sweet corn, by applying to Will Linn, chairman of the FERA board.

Candidates have until June 7th to file their account of primary expenses with the county clerk. The blanks are in and the filing can be made any time prior to that date.

The bail money which Mr. Insull has such a difficult time to raise, was mere pin money when he was riding on the waves of prosperity and headed for the isle populated by two or three billionaires.

It's a good time to paint and brighten up the house and garage, to make repairs and to beautify the yard. And all these things are just the difference between a good and a bum community.

Merchants who are "up on their toes" and using advertising space report business much better than for several years and those who don't can't expect to get out of the slump.

The Indiana State Medical Association bulletin starts out with "Make your husband a spring house-cleaning booster rather than a knocker." The housewife, if she has an average husband, replied: "Oh, yeah!"—Princeton Clarion-News.

Politics will continue to be a big topic for another month until the organization meetings and the conventions are over. A three months lull will follow before the campaign gets under steam for the November election.

The dust storms are something new for this part of the country and about the only cause that sounds reasonable is that the spring drouth is unusual and a good shower is about the only thing that will clear the atmosphere.

We are in favor of making some change in the weather bureau if those who handle the pumps don't do a little better job of regulating. Even the crop of May flowers has been shortened this year and if we don't get the proper amount of moisture and sunshine, the crops may not be average.

John W. Kern was nominated for mayor of Indianapolis and it is predicted will win. He has served as judge in Marion county the past

four years and in other places of trust has demonstrated his ability. He is the son of the former illustrious leader of the same name and has many admirers over the state who expect to follow him in years to come.

The kidnapers seem to like the western territory best. The latest excitement on the coast is the abduction of a millionaire named Gettle in Los Angeles. Gettle had given a big party and was loitering with a friend when a couple of tough "mugs" grabbed them, tied the friend up, threw the millionaire, who weighed two hundred, over the fence and lit out. It's certainly time we cleared the country of the desperate characters who are making this an unsafe nation for any one that has a few bucks to rub together.

The primary was given to the voters of Indiana so they might have a voice in selecting their officials but the law has been sadly misused and will probably not survive another legislature. To start with not to exceed fifty per cent of the eligible voters in the state cast a ballot in Tuesday's primaries. In this county hundreds of Republicans voted the Democratic ticket, to the disadvantage of every one except the winners. In other counties this was reversed where the Republicans are in the majority. The old system had its weak spots but we doubt if it was any worse than the present system.

Senator T. A. Gottschalk was re-nominated for senator of Adams, Wells and Blackford counties and Frank Thompson of Bluffton for joint representative. The former ran ahead in each of the three counties and finished with a large majority. Mr. Thompson lost Adams county by a small margin to his opponent, Von Eichhorn, but carried Wells by nearly 400, giving him a majority of 195. Each of these men have served you well in the past and deserve support in November. They are experienced and capable and will be able to represent their districts in the highest grade manner.

### Batter

After mixing a cake, the batter is not smooth, but the flour is inclined to be in tiny lumps, put it through a fine sieve and then pour into the tins for baking. The cake may not be quite so large but it will be fine in texture.

### Be Thoughtful

When giving away an article of clothing that you have made, include the small pieces of material that have been left over from the cutting out. They will be just the thing for patching later on.

### Vacuum Cleaner

A light grade of automobile engine oil is an excellent lubricant for the vacuum cleaner.

## CARD OF THANKS

cases, including boys and girls between the ages of 16 to 21. For offenses, not including robbery, the court may sentence them and place them on probation, rather than send them to prisons.

In Indiana the cost of maintaining a prison inmate is about one dollar per day. Under probation the offender remains at home, under the guidance of the probation officer or juvenile court.
