National Adver. Representative
SCHEERER, Inc.
115 Lexington Avenue, New York
35 East Wacker Drive, Chicago.

Charter Member of The
Indiana League of Home Dailies.

Now that we have had flag day,
the next patriotic event is the
Fourth of July.

Up to June 12, 11,600 pages were
printed for the Congressional Rec-
ord, which matter might be taken
by the over-production committee.

Which one do you think thought
himself the big shot when Musso-
lini and Hitler got together for a
conference?

If America collects those Euro-
pean debts treasury officials should
sense the happiness of the ordinary
fellow when he receives a distri-
bution check from a closed bank.

A motion picture director's wife
was robbed of \$86,000 worth of
jewelry, which of course is a crime,
but anyone who can afford that
much stuff for adornment need not
expect much sympathy.

Hogs are going up, reaching
\$4.30 on the local market yester-
day. Within the past two days the
increase has been 60 cents per
hundredweight. The next thing
might be a shortage.

The objections to Sherman Min-
ton's nomination seems to come
from former Senator Watson and
the republican press. Well no one
thought they were nominating any-
one to please them.

The vacation season is also time
to be careful about your drinking
water. Visiting strange places may
mean hazards as regards good
drinking water and many times
typhoid fever comes from impure
water.

It appears that the strike of steel
workers will be called. It's a
shame that tie-ups and disputes
must come at this time, injuring
business and depriving deserving
men and women of jobs. All hope
to avert the impending strike has
not yet been abandoned and indus-
try may be kept going with both
sides getting together.

During the first five months of
this year, 12,102 Indiana farmers
foiled the big bad wolf of mort-
gage foreclosure by means of ob-
taining new loans through the
Federal farm mortgage organiza-
tion. The new deal means some-
thing to the person who feared the
thoughts of losing his home and
farm.

The plan to erect a shelter house
or cabin for the girl and boy scouts
in Hanna-Nuttman park, west of
Decatur is a splendid step. A
nature place in itself, the park is
just the right site for a scout camp
and recreation center. If funds
are contributed, those in charge of
the scout organizations here will,
with the aid of the city, direct and
supervise the building of the camp.
Let's do it.

It was brought out in a recent

congressional investigation that a
great many of the rural school
teachers in one of the richest coun-
ties in the state were receiving as
low as \$270 a year. Not that the
teachers were not worth more
money, but the districts were un-
able to provide the funds. A grant
from the federal government is be-
ing sought as many of the district
schools cannot operate at all.
School teachers are entitled to liv-
ing wages and it's a sorry state of
affairs when counties or districts
have to deprive children of elemen-
tary training, because of lack of
money.

The Literary Digest says Roose-
velt is stronger with the people
today than he was in 1932. Com-
menting on this week's straw vote
returns on the new deal, the
magazine says: "The President re-
ceives 534,804 votes in support of
his administration as against 340,
569 in opposition. This gives him
a majority of 61.09 per cent. of the
total vote to date, which shows an
increase in his popularity of 3.77
per cent. over his 1932 election
ratio and also an increase in his
majority over the previous week's
returns of the poll. Vermont is the
only State voting against the
Roosevelt policies so far, but the
poll vote shows an increased senti-
ment now for the President over
the 1932 election ratios he received
there. Twenty-nine States give the
President a higher percentage of
votes in this poll than they did in
the 1932 official election while
nineteen States, most of which are
in the agricultural regions, give
him a smaller ratio than they did
eighteen months ago."

Household Scrapbook
—BY—
ROBERTA LEE

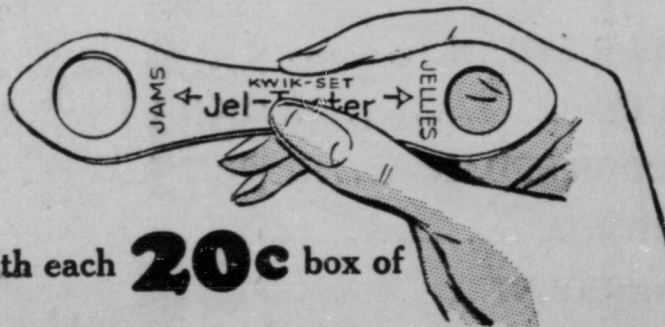

Grease Spots
Add a small amount of gasoline
to the water when scrubbing dirty
floors. It will take away the grease
spots.

Stockings
If the stockings persist in wear-
ing out at the toes, try buying them
a half-size larger, and see if this
does not remedy the difficulty.

Fish
While scaling fish, hold it under
running water. The scales will not
scatter and the job will be less ob-
jectionable. Start at the tail of the
fish and scrape towards the head.

NEW PATENTED JELLY TESTER
TELLS WHEN JELLIES AND JAMS ARE DONE

FREE!

with each 20c box of

KWIK-SET

The new fruit pectin that ends
jelly failures forever

We make this offer to prove how
Kwik-Set makes every woman an
expert jelly maker. You get perfect
jellies every time. This new fruit pectin
saves time, saves money, saves fruit.

THERE has been a discovery in
jelly-making—one that enables
the most inexperienced housewife
to make perfect jelly every time.
And in addition, you save time,
save money, save fruit—and never have
a jam or jelly failure.

This new discovery enables you
to supply the pectin that many
fruits and berries lack. It makes
certain they will "jell". Its name
is Kwik-Set.

You simply follow the direc-
tions inside the package. Success
results 100 times in every 100 trials.

You just can't have a failure.
Kwik-Set makes fruit juices go
much further, takes far less time than
old ways ever did. Now making jelly
is a quick and simple job.

The discoverer of Kwik-
Set has been granted patent
number 1,646,157 by
the United States Patent
Office. Thus Kwik-Set is
legally protected by U. S.
basic patents.

Free Jel-Tester

To introduce Kwik-Set we are giv-
ing away an amazing new invention
with every package. This little
device tells when jellies or jams
are done—just when to take them
off the stove to make sure of per-
fect texture. Packed inside of every
package.

Answers To Test
Questions

Below are the Answers to the
Test Questions Printed
