35 East Wacker Drive, Chicago.

Charter Member of The  
Indiana League of Home Dailies.

If Mary Kinder goes into the  
movies the producers will hear  
more than criticism.

Cooperation and a spirit to help  
has always brought dividends  
locally.

The railroads paid out nearly a  
quarter of billion dollars in taxes  
last year, which is one reason you  
can't ride free.

Many laws would be unnecessary  
if everyone just used common  
sense and good judgment in doing  
the usual things.

If "mental cruelty" could be  
used in divorcing one's self from  
the hot weather many a person  
would have tried it last week.

The world loves the old fashion-  
ed mother type of person, as shown  
by the tributes paid to Marie  
Dressler.

It may spoil your dream and  
cause the children to have night-  
mare, but school officials are get-  
ting ready to open the school in  
four weeks.

Hitler will more than likely point  
to Germany as the land of oppor-  
tunity—from painter to the presi-  
dency.

With upsets in governments we  
often wonder if England will con-  
tinue as a kingdom and if the  
Prince of Wales will succeed to  
the throne.

The business that "sweat it  
through" in July and then found  
itself in the red ink hopes for a  
better break when the mercury  
drops below zero.

If industrial plants are to be  
closed on account of strikes, why  
not declare a month's holiday  
throughout the country, hike to the  
mountains, cool off and then start  
all over again?

Also remember that your fore-  
fathers didn't have a snap clearing  
the country and getting a shelter  
built. Today, despite taxes, strikes  
and reduced earnings we enjoy  
more than they did.

After reading that two persons  
were killed and more than 25 in-  
jured by stunt motorcycle drivers  
who lost control of the vehicles, a  
person wonders what good such  
freak demonstrations are anyway?

It cost \$71,000 to operate the De-  
caturn public schools last year,  
which is not excessive when con-  
sidered that more than 1,000 chil-  
dren were housed and given in-  
structions for nine months. The

school board closed the fiscal year  
with a balance of \$21,000 and hopes  
to be able to continue through the  
coming year without interruptions.

Allen county will probably com-  
bine the county highway superin-  
tendent's office with the surveyor's  
office, making the surveyor super-  
visor of the roads. Other counties,  
including Adams county, did this  
a year ago and have found it very  
satisfactory.

Two of the five convicts who  
escaped from the state prison last  
Saturday didn't enjoy their free-  
dom very long. They were picked  
up in a little Missouri town Tues-  
day, one of the convicts being shot  
by officers. The men are probably  
amateurs compared with those of  
the Dillinger type and knew little  
about hide-outs. It is likely that  
the others will be rounded up  
shortly, their escape just adding a  
few more years to their sentences.

An article in a popular weekly  
magazine picks out some of the  
flaws and mistakes in the home-  
stead project in Readsville, West  
Virginia. The first job of its kind  
ever attempted, a certain amount  
of mistakes could be expected. On  
the Decatur Homestead division,  
government officials have the ad-  
vantage of the experience gained  
from the Readsville project. At  
least there is no reason for making  
the same mistake twice and the  
local undertaking should serve as  
a model. After all, the whole thing  
is just building small modern cot-  
tages and that should not be such  
an impossible thing to do correctly  
in this day and age.

Some gals eat like pigs 't make  
nice calves.

Lois o' these big beefy fellers  
are easily cowed.

Speakin' o' stenographers, th'  
type that kin type are th' type  
men like.

A lot o' these old stick in th'  
muds are kind o' dry.

Don't pump your friends, let  
WELL enuf alone.

Two words kin sure make a big  
sentence—ninety days.

## Household Scrapbook —by— ROBERTA LEE

**Jar Covers**  
If there are not sufficient tin  
covers for the jelly or preserve jars  
wait until the paraffin tops have  
hardened, then cover the tops with  
circles of brown wrapping paper  
and tie down. Then the paraffin can  
be used again next year.

**Scorched Linen**  
When the linen is not scorched  
very badly, rub a cut onion on the  
marks and then give the linen a  
good soaking. The cold water will  
remove the scorch stains.

**Orange Juice**  
Keep the oranges in the refriger-  
ator and there will be no need of  
diluting the juice with ice in order  
to be cold enough on hot mornings.

**Card of Thanks**  
We wish in this manner to ex-  
press our sincere thanks and appre-  
ciation to the neighbors and  
friends, those who sent floral offer-  
ings, and to the Moose Lodge and  
all who so kindly assisted us during  
the illness and death of James Rice.  
John Rice and family

Boys if you need Sweaters  
for school, take advantage of  
our Half-Price sale. Teeple &  
Peterson.

## At the Ringside as Usual

## ARRIVALS

A girl baby was born to Mr. and  
Mrs. Tom Smith at the Adams  
County Memorial hospital this  
morning. The child has been named  
Catherine Ann. Mother and babe  
are getting along nicely. Mr. Smith  
is chemist for the Central Sugar  
company and was telling friends  
this morning that the little daugh-  
ter was the sweetest thing he ever  
saw.

Mr. and Mrs. Adrian Lichtle route  
4, Decatur, are the parents of a  
girl baby born at the Adams County  
Memorial Hospital Wednesday  
night.

Mr. and Mrs. Dorwin Drake, 210  
South 13th street, are the parents  
of a baby girl, born Wednesday  
morning.

**TEMPERAMENTAL UMPIRES  
WRONG FRANKIE FRISCH**  
ST. LOUIS, Mo. (U.P.)—Tempera-  
mental umpires are a pain in the  
neck to Frank Francis Frisch,  
manager of the St. Louis Cardi-  
nals.

"Something must be done with  
them," he declares. "They insist  
they are always right and the  
manager or player who is arguing  
with them is wrong."

Frisch is preparing to fight for  
the rights of major league man-  
agers and ballplayers to question  
the judgment of umpires and  
league executives. His first move  
will be to solicit assistance from  
the other seven league managers,  
and with their help he believes the  
sweeping power and authority of  
arbiters will be curbed consid-  
erably when the 1935 season opens.

"This present condition must be  
changed—changed immediately,"  
Frisch declares, "or I am afraid  
the fans will lose interest in the  
great national pastime. The man-  
agers must fight this battle."

**IDAHO U. PLANS GRID  
UPRISING THIS FALL**  
PORTLAND, Ore. (U.P.)—Idaho's  
days of being a door mat for the  
Pacific Coast intercollegiate foot-  
ball conference are over, Leo Cal-  
land, genial Vandal mentor, be-  
lieves.

Calland, former University of  
Southern California captain and  
guard, believes his veteran line  
and promising backfield will de-  
velop into the strongest eleven to  
represent Idaho since he began  
coaching there five years ago.

Calland's biggest task will be to  
replace Willis Smith and John  
Norby in the backfield. Both have  
signed to play for the New York  
Giants professional team this fall.  
Idaho has eight scheduled games,  
including contests with University  
of Washington, Washington State  
College, University of California  
at Berkeley, Oregon University,  
and Creighton, at Omaha, Neb.,  
Nov. 29.

**RABBIT HUNTING DELAYS  
DRIVE FOR NEW BOUNTIES**  
ONTARIO, Ore. (U.P.)—Rabbit  
hunters today awaited posting of  
additional bounties before another  
"50,000 drive" is started.

Malheur County farmers trapped  
or poisoned 40,000 rabbits, for  
which they received 2½ cents per  
pair of ears before the bounty  
fund was exhausted.

## BUFKIN TO BRING REST TO WASHINGTON U. COACH

SEATTLE (U.P.)—Coach Jimmie  
Phelan of the University of Wash-  
ington football team will rest eas-  
ier on the bench in a tight spot  
this fall with the assurance that  
Burt Bufkin will be playing safety.

The young man, who showed  
West Point cadets a few fancy  
things in offensive and defensive  
play early last fall in his short  
stay, is one of the best defensive  
back on the coast. He is a fast,  
shifty runner.

Phelan was also elated that Hor-  
mer Harris, great Seattle Negro  
all-around star, will enter Wash-  
ington this fall along with an un-  
named 195 pound back, who has a  
big reputation in Washington high  
school circles.

Washington, which has given  
Southern California bitter games  
during the past two years, will  
have a star backfield, including  
Matt Muczynski, late of Chicago  
prep circles; Art Ahonen, Paul  
Sulkosky, Bufkin, Jay Hornbeak,  
and Sophomores Haines and Cain.

**Bad for Jack Rabbits**  
BURNS, Ore. (U.P.)—Harney  
county stockmen hope a party of  
archery enthusiasts will come  
again. Five men with bows and  
arrows shot 22 jack rabbits in the  
course of one afternoon.

**Pipe Workers Got Pay Boost**  
BIRMINGHAM, Ala. (U.P.)—Eight  
hundred cast iron pipe workers  
here received pay increases rang-  
ing from 10 to 18 per cent follow-  
ing mediation over their threat-  
ened strike at three plants by  
federal labor officials.

## Auction School Notes

The boys are enjoying the in-  
tensive training of the last week  
of the Reppert Auction School. The  
lectures given yesterday by Col.  
Guy Johnson were very instructive  
and of a different character from  
any others given previously by any  
other instructor.

Col. Reppert, Col. Pettit and Col.  
Gartin all delivered addresses to  
the students during the day.

Kenneth E. Woods of Hender-  
son, Tennessee, David Casner of  
Norborne, Missouri, and Irvin Pat-  
rick of Circleville, Ohio, are show-  
ing up wonderfully and are slated  
to be the coming auctioneers in  
their respective communities.

The boys will entertain and sell  
only twice more on the streets of  
Decatur as Saturday noon will close  
the school. Don't miss these two  
sales tonight and Friday night.

Col. W. H. Hildenbrand, Wichita,  
Kansas, instructor in the Reppert

School of Auctioneering on Furni-  
ture, gave a splendid address this  
afternoon on high class furniture.  
Col. Hildenbrand convinced the  
students and faculty that he knew  
his business well in his given pro-  
fession as he has spent his entire  
life on this subject and is capable  
of outlining the construction of  
the most expensive furniture. He  
is pleasant and convincing in his  
lectures.

## New Telephone Question

FALMOUTH, Mass. (U.P.)—Pro-  
hibition repeal has produced new  
questions to be answered by in-  
formation at the Falmouth tele-  
phone exchange. "What day of  
the week is this, please?" a sub-  
scriber asked recently.

## Thieves Stole Windmill

BORGER, Tex. (U.P.)—Officers  
scratched their heads over this  
one: "Some outlandish rascals  
stole my 10-foot windmill," com-  
plained Jack Hodges, farmer-  
rancher. "They also took a 24-  
foot steel tower and 100 feet of  
casing—everything but the hole."

## Answers To Test Questions

Below are the answers to the  
Test Questions printed  
on Page Two.

1. The sun god and lord of heaven  
in Scandinavian mythology.
2. World War.
3. Protestant Episcopal.
4. Clerk in the store of Scrooge  
in Dickens' "Christmas Carol."
5. None.
6. It is from the Greek, meaning  
wanderer.
7. Harrisburg.
8. Windsor.
9. Green River.
10. Brazil.
