Folding Curtains
When laundered curtains are put away in a drawer, fold them so that the top and bottom are together. If folded this way the creases will work out when hung, but if folded lengthwise there will be no weight to bring out the creases.

Cake Tins
It is better to use lard for greasing cake tins, as salt in butter will often cause the cake to burn, or stick to the pan.

Fish Odor
The odor of fish can be removed from knives and forks by rubbing a cut lemon over them.
