Christmas Tree Harvest Begun

Menominee, Mich.—(U.P.)—With

Christmas scarcely more than a month away, activity has commenced in the upper peninsula Christmas tree region which supplies Chicago, Milwaukee, St. Paul and other large cities with their Yuletide trees. The trees are generally cut early before they cannot be handled for shipping if they are frozen.

Food for Thought
"From seven to eight years required to grow orchard" says florist. Why can't we do this spinach?

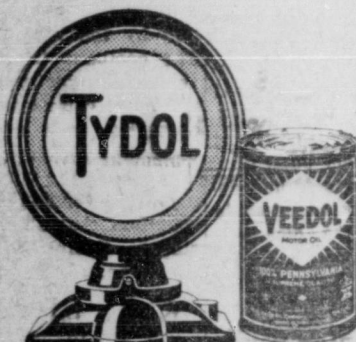

WHEN your motor does not start instantly on a cold morning it means battery drain... It means also that on dry cold spots of upper cylinder walls, metal grinds on metal and causes damage to your motor.

Two things are needed to prevent these dangers. A fast starting gasoline and a lubricant that protects upper motor parts. Tydol, the gasoline that lubricates, offers you this combination at no extra cost... With every charge of this fast starting gasoline that enters your motor there is a positive "film of protection" that not only aids fast starting but lubricates upper motor parts the minute your motor starts.

Proved by Byrd at 60° below

Don't handicap a fast starting gasoline. With Tydol, use Veedol cold-proof motor oil, 100% Pennsylvania at its finest. Tydol and Veedol make an ideal winter combination and are used exclusively by the Byrd Antarctic Expedition.
