"THE LADY DANCES" by MARGE STANLEY

SYNOPSIS
In search of adventure, Mark Talbot sails on the S.S. "Orient" for Honolulu. On board, he meets beautiful Vanya Prokova, professional dancer. Vanya ignores Mark, but he cannot forget her. In Honolulu, on a round of the night clubs, he searches for her in vain. Next morning, while standing on a wharf, he watches a boat steaming by and is stunned to see Vanya on deck. He learns the vessel belongs to Pearly Shene and is undoubtedly heading south for Tonga in "The Friendly Islands." Anxious to get away from Honolulu, Mark books passage on the "Colin" sailing west.

CHAPTER VII
The Colin was weighing anchor with the tide at dawn. Mark decided to sleep on board, and accordingly returned to the hotel for his luggage. He was aboard by nightfall, comfortably installed in a stateroom a bit less elaborate than the one he had recently occupied on the Orient, but considerably more livable than he had expected on a South Sea tramp freighter.

He spent the evening on deck, leaning over the rail and watching the broken reflection of a full moon in the waves. The gulls were silent; only the muffled sounds of the city and the gentle slap of the harbor waves gave an undertone of sound. His thoughts returned to Vanya. He was sailing west at dawn; she was already far to the south. Their paths had crossed, tangled for a short time, and separated; doubtless he had done with each other. "And that," reflected Mark, "is probably entirely to her satisfaction. Lord! Of all the cool, unfriendly propositions, she is certainly the coolest and most unfriendly. And just as well for me, too, that I didn't find her last night; I'd have been fool enough to still be hanging around Honolulu."

He stared down at the black waters. "There are a thousand like her in the South Seas," he told himself. "Probably plenty just as pretty, or prettier—than that's possible," he ended gloomily. "Well," he concluded, "I might just as well stop thinking about her. I'm not going to change my plans to go trailing after her."

He stared at the sparkling waters for a long time. It was when the black sheen of the waves began to remind him of Vanya's ebony hair that he turned disgustedly, and went to bed.

STRANGE PORTS
Mark awoke a little disgusted with himself. Of course, he couldn't actually expect to control his dreams, but he really registered a strong objection to dreaming of Vanya! The logical way to prevent that, naturally, was to find himself other interests; here, ready at hand, was the Colin and its crew of world-travelled sailors.

The ship steamed heavily westward through oily seas; Mark rose and ascended to the deck, determined to find his amusement in talking to Captain Korff or others of the ship's company.

All of these were hard-bitten seafaring individuals who had sailed most of the seven seas, and had many a story to tell of strange ports and far-off islands. The Solomon Islands, the Society Islands, the Marquesas, were names that rolled easily off their tongues in tales around the officers' mess. Discipline, so far as passengers were concerned, was far less strict on the lumbering freighter than on the giant Orient; Mark found himself welcomed on the bridge, in the wheel house every where, in fact, from galley to stoke-hole.

The Captain and the first mate, O'Keefe, seemed delighted to have a new and interested audience for their yarns, and that Mark certainly was. He found O'Keefe, a mystical Irishman, perhaps the more entertaining of the two, and never tired of listening to his tales during the dog watch. He listened with avid interest to the ruddy mate's tale of the barque Cuchulainn, that had sailed to Hy Brasil, and was never seen again, barring once, when it bore past a startled watch on a collier, looming out of the fog and rushing by with all sails set, and not a human soul on deck. Hy Brasil, Mark learned on inquiry, was a phantom island seen at dawn from Galway, west of Ireland; gatabu, that sea men call Nuku, I've picked up copra and pineapples there."

"What would happen," pursued Mark remorselessly, as if to punish himself for asking, "to a girl who danced there?"

"What would happen to her at any port in the Coral Sea?" said the Captain by way of answer. "She wouldn't be there unless she expected it to happen."

The reply added nothing to Mark's peace of mind. "Serves me right for asking!" he told himself. "Only a fool deliberately asks for a kick. Well, the Friendly Islands are one place I'll steer clear of. Too bad, at that; I'd sort of like to see some ex-cannibals."

"What would happen to her at any port in the Coral Sea?" said the Captain by way of answer.

O'Keefe had seen it himself, with its spired port glistening in the sunrise, and, moreover, he had sailed right over the spot by broad daylight, and never a thing but green sea water was there. And this, he concluded, was just as well, for a ship that sails to Hy Brasil never returns; at least it never returns to mortal ports.

Mark was fascinated and charmed by O'Keefe's legends, but he found a far more practical source of information in little Captain Korff. The man had been literally everywhere. Mark listened with relish to his oath-laden descriptions, and plied him with questions concerning the remote and romantic places he mentioned. And finally he put a query that he had deliberately promised himself not to ask. It slipped out unexpectedly as he idled one evening beside Korff in the wheel-house.

"Have you ever been to Tonga?" he asked.

"The Friendly Islands?" responded the Captain, with an oath or two by way of emphasis. "How many times I don't know!"

"What's the place like?" pursued Mark. Now he'd started, he might as well finish, he decided.

"Cannibal islands," answered Korff, "or were once. Taulanga, on Vavau, is the best harbor, and that's not much. A hard town, lad; one of those places where South Seas scum gathers. Then there's Hapai island, and there's Nukunonoa port on Ton-

gatabu, that sea men call Nuku. I've picked up copra and pineapples there."

"What would happen," pursued Mark remorselessly, as if to punish himself for asking, "to a girl who danced there?"

"What would happen to her at any port in the Coral Sea?" said the Captain by way of answer. "She wouldn't be there unless she expected it to happen."

The reply added nothing to Mark's peace of mind. "Serves me right for asking!" he told himself. "Only a fool deliberately asks for a kick. Well, the Friendly Islands are one place I'll steer clear of. Too bad, at that; I'd sort of like to see some ex-cannibals."

"What would happen to her at any port in the Coral Sea?" said the Captain by way of answer.

O'Keefe had seen it himself, with its spired port glistening in the sunrise, and, moreover, he had sailed right over the spot by broad daylight, and never a thing but green sea water was there. And this, he concluded, was just as well, for a ship that sails to Hy Brasil never returns; at least it never returns to mortal ports.
