Thin, Weak, Backache?
ALL women at some period of their lives need a strengthening tonic. I felt miserable and sick all over. I took Dr. Pierce's Favorite Remedy and was cured of all my ills—I never felt better. New size, tablets 50 cts., liquid \$1.00. Large size, tablets \$1.50, liquid \$3.00. All druggists. Write Dr. J. C. Rorer, Inc., Buffalo, N.Y., for free medical advice. HOLLYWOOD—In her hospital bed, the victim of bronchial pneumonia, Miriam Hopkins is urging Jack Whitney and his film associates not to replace her in "Becky Sharp."

The studio received a call from the actress within a few hours of her admittance to the Good Samaritan hospital. "I'm already feeling much better," she quickly assured. "Please do not get another blonde for the part."

It is Whitney's present intent, at least, to accede to her wish. Production has been halted and Director Rouben Mamoulian is figuring on a week or more delay.

Just when Miriam will be able to face the camera again, her physician, Dr. Sam Hershfield, is not now prepared to say. "Becky Sharp" is being done in technicolor and this means more lights and greater heat.

Hollywood's battling dance director, Leroy Prinz, doesn't like to see two men attacking one. This being the case, he crawled out of his car on Hollywood boulevard the other evening and, one thing leading to another, soon found himself defending a perfect stranger. The funny part of it was, the stranger turned out to be a milk thief who was being pursued by two grocery clerks. On the man's word that he had taken the milk for his hungry children, Prinz shelled out of his own pocket to settle for the amount of the theft. He and his late opponents, the grocery clerks, then shook hands and the boulevard returned to its normal activities.

She had no mischievous intent, but Helen Hayes let Adrian in for some tough moments by making him a present of a black French poodle. In the first place, the dog has developed a passion for pencil erasers. And gets sick every time he eats one.

Moreover, he insists on following the fashion designer like a shadow. He upset a take of the "Naughty Marietta" company when Adrian was called to the set, and, being locked up in punishment, proceeded to chew pieces out of a couple of dresses intended for Joan Crawford

to wear in her current picture.

A vividly written story about kidnapers who nabbed a feminine victim when she was trying to close the doors of her garage is responsible for new precautions at the Coldwater Canyon home of Heather Angel and Ralph Forbes. Ralph read the story and it gave him a case of the willies. He summoned workmen and now the garage doors open and close on a case of the willies. There is a tunnel and a stairway leading from the garage to the house.

● In every line of endeavor, you'll find the people who work the hardest—those who are the most active—are the ones who are most apt to become fatigued and irritable. They are continually drawing on their extra energy. F. F. Peters is typical of those who are active from morning till night. Let him tell you how he replenishes his energy supply when tired. He says: "As a master builder I have learned that a tough construction job just naturally calls for Camels. I smoke them all the time, in the field, at the office, and when the day's work is over, because Camels give me new energy when I'm feeling tired and listless, and they never get on my nerves." mand for public hearings.

The minority hopes to recruit influential Democrats in a movement to limit Mr. Roosevelt's powers in spending the money. Glass is expected by Republicans to aid at least to the extent of opposing the bill's grant of authority for loans to needy individuals.

The bill would authorize Mr. Roosevelt in general terms to limit or expand the functions of any governmental agency. Wholesale Democratic desertions are forecast on that section of the bill unless Democratic leaders promise certain shifts of power among the departments will not take place. Most notable of these is the transfer of the forestry service from the agriculture department to the interior department, as proposed by Secretary Harold L. Ickes. That touches the politically and economically sensitive question of cattle grazing rights.

Democratic political success in 1932 and 1934 has placed many Democrats in senate seats previously occupied by cattle country Republicans. Before the recovery bill is disposed of the lowering herds of the northwest may become a major factor in cloak room bargaining.

Word reaches administration leaders that Mr. Roosevelt wants the recovery bill enacted just as written which explains the possibility that trades involving the bonus and social security may figure ultimately in its passage.

The American Liberty League joined the debate today with an

objection that congress would abdicate its powers of establishing policy if the bill were passed in its present form. The league did not challenge the amount of money proposed but complained only of the authority proposed, for Mr. Roosevelt in spending it.
