# Our tense modern life affects DIGESTION

## Smoking Camels Found to Ease the Strain and Promote Well-Being

Life gets more complex. The pace grows faster. People live harder. Where do we see the effects? Frequently on digestion, so often overtaxed by the busy whirl! Smoking Camels is or definite aid in promoting good digestion. Turn to Camels yourself. They have a mildness and delicacy that never grow flat or tiresome. Make the pleasant experience of smoking Camels part of your daily life, and see how much more zest you have for smoking and how your digestion is measurably improved. Camels set you right!

And now we come to one of modern life's most gracious privileges—dining at Keen's English Chop House in New York, as shown at the right. Like the Mermaid Tavern of Shakespeare's day, Keen's is famous as a gathering place of congenial spirits.

"We've noticed that patrons who appreciate fine foods also appreciate fine tobaccos," says William (above), of Keen's. "Camels are a favorite at Keen's English Chop House. We've noticed that our guests who smoke Camels during and after meals seem to find more pleasure in dining."

JUNGLE BOUND! "I smoke Camels for digestion's sake," says Frank Buck, animal collector. "Camels for flavor!" he says. "They are rich and mellow."

MURRAY MURDOCK (in center), of the N. Y. Rangers, has played over 500 straight hockey games. "I often have to eat and run," Murray says. "Smoking Camels helps to digest my food."

## COSTLIER TOBACCOS!

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

## Indiana Security Investors Protected

Indianapolis, Ind., Feb. 10—Indiana security investors are among the best-protected in the nation. Gov. Paul V. McNutt said yesterday in his weekly radio address in which he reviewed the 1935 securities law.  
"The 1935 general assembly plugged holes in the old blue-sky securities law through which confidence men sapped thousands of dollars in savings of Hoosier investors," the governor said.
