

McGURN'S BROTHER SLAIN

Chicago Gangsters Murdered Brother Of Dead Capone Killer

Chicago, March 3.—(UP)—Anthony De Mory, who "knew too much," followed his brother, machine-gunner Jack McGurn to a slay in a Chicago "recreation" hall.

De Mory, third member of the hot-blooded Sicilian family to fall before the machine-guns, was shot last night as he played cards in a Chicago "recreation" hall.

De Mory agreed he must have died because his brother's assassins feared he might talk. De Mory was an active police record, although his photograph were on file.

De Mory never took an active part in the gang business that brought his brother fame as a Capone machine-gunner. His only threat to the family was his Sicilian blood—same blood that sent the mad McGurn into gangland to avenge his machine-gun death, and sent him on a career that

Where Ice, Floods Threaten Middle West

With many sections of the middle west reporting flood conditions and heavy damage following an extended thaw this graphic photo shows an inundated suburban section near Joliet, Ill. An ice jam in the Kankakee River caused a 15-foot rise of the water and threatened to sweep summer homes down the river should the ice break.

MONEY

INTEREST COSTS REDUCED NEARLY ONE-HALF

The "LOCAL" always loans for LESS. All loans made at less than maximum rate permitted by law. No interest required.

Up to \$300.00

AS FOLLOWS:

- \$50.00 now costs only \$1.00 per month
- 100.00 now costs only \$2.00 per month
- 150.00 now costs only \$2.50 per month
- 200.00 now costs only \$3.00 per month
- 300.00 now costs only \$4.00 per month

Costs of other amounts are in proportion as this low interest rate governs all loans.

POLITICAL WEB TANGLING CASE

Hauptmann Hope For Second Reprieve Dimmed By Politics

Trenton, N. J., March 3.—(UP)—A strange web of politics in keeping with the bizarre tradition of the Lindbergh case emmeshed the fate of Bruno Richard Hauptmann today.

A session of the state legislature last night served to dim the forecast of a second reprieve made earlier by a responsible state official.

In the maneuvering of the state assembly on a bill seeking to divert highway funds to relief and another to prevent the interim ouster of Col. H. Norman Schwartzkopf, head of the state police, political experts professed to see an alliance between Republican governor Harold G. Hoffman and Democratic boss Frank Hague, Mayor of Jersey City.

The Governor, it was said, had agreed to continue against the highway bill—a measure on which he addressed a joint session last night in return for aid in denying extension of the term of Col. Schwartzkopf whose handling of the Lindbergh case he had characterized publicly as "the most bungling" in history. They are political and personal enemies.

The alliance became evident to observers when the young bill which would keep Schwartzkopf temporarily in office after his term expires June 7 was passed on the Calendar on motion of its sponsor. This action was taken, it was learned, because Hague had ordered the

Democratic minority to side with the governor on the bill and proponents feared its defeat had it been brought up.

STRIKERS ASK

(CONTINUED FROM PAGE ONE)

conversation.

Mayor Fiorello H. LaGuardia, who proclaimed a state of emergency yesterday and ordered police, firemen, and health board employees to replace strikers where the health of the public was endangered, summoned union leaders and building owners to a new conference.

Bambrick, working on the third floor of one of the buildings where elevator operators had quit, said 100,000 men and women would be on strike today. He said 70,000 were out yesterday in approximately 6,000 buildings.

Building owners disputed his estimate and said strike breakers hired yesterday, with more to be employed today, would restore service nearly to normal.

Twelve thousand patrolmen on 24-hour duty arrested only 64 persons in the strike's first two days, principally because pickets made few attempts to prevent strike breakers from entering buildings.

One casualty was Mrs. Peggy Chamberlain, a hotel chambermaid. Fingering a purple eye, she said: "The manager biffed me when I tried to organize."

Pickets did use "persuasion" on strike breakers at the Mayflower hotel. Twelve hours after a crew to replace the strikers had been employed, the replacements walked out.

"I think it ain't healthy," the substitute doorman told the manager.

Cook Renews Claim to Discovery

Frederick A. Cook

Roland L. Redmond

Congratulated by King

Echoes of a controversy which once shook the scientific world were revived when Frederick A. Cook recently renewed his claim to having been the first to discover the north pole. Cook seeks vindication from charges that he faked his discovery. Although Admiral Robert Peary is credited with having been first to reach the pole, Cook contends that he made the discovery a year before, in 1908, and has asked Roland Redmond, president of the American Geographic society, to consider the case at the next meeting of the council in April. He explained that he sought vindication "before I die."

BITTER FIGHT FOR HOME RULE

Pleas Greenlee Against Curtailment Of Local Units Power

Indianapolis, Mar. 3.—(UP)—Pleas E. Greenlee, candidate for the Democratic nomination for governor, today sent an open letter to Gov. Paul V. McNutt promising a bitter fight against curtailment of powers of small governmental officers in enactment of the security program.

Greenlee, however, promised support of the administration's security bills to be considered by the legislature which convenes in special session Thursday.

The former patronage director of the administration denied that he would again take an active part in "political machinations" in an effort to guide legislation through the general assembly. Greenlee was instrumental in enactment of most of the administration bills in the 1935 session.

"I want to assure you," Greenlee wrote the governor, "that I am as much interested in seeing the people reap the benefits of social security as anyone and I will do all in my power to bring it about."

"However, I am definitely committed to the idea that local units

of government shall lose no part of their identity and powers."

One of the three security bills scheduled to be enacted gives a state welfare board wide powers over county and district boards.

by those in control of these corporations. In one year alone, the government will be deprived of revenues amounting to over one billion three hundred million dollars.

The taxes which would be repealed under Mr. Roosevelt's suggestion had the following estimated annual yield:

- Capital stock tax \$163,000,000.
- Corporate excess profits tax \$5,000,000.
- Corporate income tax (estimated 1937) \$826,000,000.
- Total \$994,000,000.

Mr. Roosevelt said the treasury believed the new proposed tax would yield that sum plus the \$620,000,000 in permanent revenue which would be needed to finance a continued farm program and the increased amortization costs due to immediate payment of the

bonus.

Mr. Roosevelt criticized present corporate taxes as containing "inequalities" and "leaks."

"The accumulation of surplus in corporations controlled by taxpayers with large incomes is encouraged by the present freedom of undistributed corporate income from surtaxes," he declared.
