This story will interest many Men and Women

Not long ago I was like some friends I have... low in spirits... run-down... out of... tired easily and looked terrible. I knew I had no serious organic trouble so I reasoned... as my experience has since proven... I work, worry, colds and whatnot had just run me down.

The confidence mother has always had in Dr. Tonic... which is still her stand-by when she feels run-down... convinced me I ought to try this treatment... I started a course... the... began to come back to my skin... I felt... I no longer tired easily and soon I... that those red-blood-cells were back to so... fighting strength... it is great to feel... again and like my old self. © S.S.S. Co.

However, they are attractive without a doubt.

It's precious in white or tub pastel, cotton or linen with the effect of some sharp contrasting shade as vivid green, red, navy, etc., etc.

High-Speed Living Taxes Digestion

RUSH HOUR—tired nerves tighten, often send us to the table in no shape to enjoy food. Camels have the pleasant effect, during and after meals, of aiding and promoting digestion.

"CAMELS ARE A FAVORITE with us here," says Mr. Joe Moss, who presides over New York's Hollywood Restaurant (above). "I see Camels on lots of tables. We've found that

success comes through giving people the best. The fact that Camel uses costlier tobaccos and people prefer Camels shows that they appreciate the same policy in other lines too."

Smoking Camels found to have a positive beneficial effect upon Digestion...

Our modern "eat-and-run" way of living is hard on digestion. Experiences with indigestion are common! Hence unusual interest attaches to the following fact: that smoking Camels has been found to have a marked beneficial effect in aiding digestive action. You'll find Camels milder too, packed with the rich enjoyment of choice tobaccos.

Turn to Camels for digestion's sake... for the pleasure to be found in Camel's costlier tobaccos. Camels set you right!

OTIS BARTON, inventor of the "bathysphere," says "diving tests condition—especially digestion. 'Camels help make my food digest better.'"
