Continuance Of CCC Is Approved

Washington, May 8—(UP)—The house, speeding the \$2,364,000,000 relief-deficiency bill toward passage approved today a \$308,000,000 appropriation to continue the civilian conservation corps at a strength of 350,000 men.

Approval of the CCC provision came after seven hours of general debate on the measure during which house appropriations committee chairman James P. Buchanan urged early continuance of federal loan and relief activities in the interest of economy.

Hindenberg To Reach U. S. Early Saturday

Lakehurst, N. J., May 8—(UP)—The Hindenberg, giant German dirigible, will arrive over the naval air station here at approximately 1:30 A. M. CST tomorrow, according to information received here in a navy radio message late today.

Apply Lime With Caution

It Can Often Do More Harm Than Good To Lawns

Lime may be necessary or actually harmful to lawns. This does not mean that it should never be used because there are cases where it is needed, but lime must be used intelligently.

The function of lime is to correct or neutralize acid soils when they are to be used in growing plants which do best in a neutral or alkaline soil. It is necessary, therefore, that you know the condition of your soil as well as the preference of the plants you are going to grow in it before lime can be intelligently used.

Many dealers in lawn and garden supplies will test soil for acidity free of charge. Inexpensive testing kits will enable you to do your own testing.

Many grasses do best on soil that is slightly acid. You'll appreciate the importance of this when you know that an acid condition is unfavorable to the growth of weeds.

Contrary to general belief, moss is not necessarily a sign of acid soil. It is rather a sign that present conditions are not favorable to the growth of grass. Lack of available plant food in the soil is often indicated by the growth of moss.

The impression that lime is a suitable substitute for plant food should be corrected. Even though a soil test shows that because your lawn is too strongly acid it is desirable to apply lime, a well balanced plant food is needed. An application right now of 4 pounds of complete plant food per 100 square feet, applied evenly, is necessary to make your lawn a thing of real beauty, and velvety green.

BONUS PAYMENT BUSINESS AID

Bulk Of Hoosier Veterans To Be Paid By July 15

Indianapolis, May 8.—The bulk of Hoosier veterans may expect to receive their bonus payment bonds between June 15 and July 15, Harry R. Hall, state service officer of the Indiana American Legion said today.

Hall, who has directed the work of filling out thousands of bonus applications by the Legion said that word from Washington is that 2,000,000 veterans in the United States may expect payment commencing June 15th. The bonus bonds of \$50 denominations with odd amounts in cash will be sent to the veterans by registered letter.

The machinery has been set up in Washington for quick payment of the veterans. Four hundred additional employees have been added to the treasury field force to handle payment. Government printing presses have been running 16 hours a day, turning out 38,000,000 of the bonds. A total of 800,000 veterans have not yet filed for their bonus payments.

The plan for cashing the bonus bonds includes the designation of some 200 first and second class post offices over the country as paying centers. Veterans holding bonus bonds can cash them at these post offices, according to present plans. Veterans living in communities and towns not designated paying centers may present their bonds to the postmaster and they will be forwarded to a paying center.

Banks have loaned approximately \$60,000,000 to veterans on a previous installment. New applications for bonus payment are being received in Washington at the rate of 650 a day.

Hall urged every veteran in the state who could possibly do so to hold his bonus bonds as a "nest egg." They will draw 3 per cent interest and may be cashed in an emergency, he said.

BRITAIN ASKS

(CONTINUED FROM PAGE ONE)

neighboring countries under the Reich's roof, Great Britain asked: "A distinction is apparently drawn between the Reich and the German Nation. The question is, really, whether Germany now considers the point reached at which she can signify she recognizes and intends to respect the existing territorial and political status of Europe except insofar as it might subsequently be modified by free negotiation."

Next Germany is asked whether she is ready to include an agreement for limitation of air forces in her

proposed mutual aerial defense treaty for Western European treaties.

The questionnaire expresses gratification that Germany is ready to conclude non aggression acts with France and Belgium and possibly with the Netherlands. It notes that the German government has expressed its willingness that the pacts "should be accompanied by treaties of guarantee."

Significantly, it is asked whether Germany is prepared to include Russia, Latvia and Estonia, "as well as states actually contiguous to Germany," among the powers with

which he is prepared to conclude pacts.

Hitler is asked to clarify the functions and constitution of the new international court of arbitration which he proposed in his peace plan of April 1, and explain its relation to the League Council and the Hague Tribunal.

In view of Germany's willingness to return to the league, it is asked that Hitler explain his attitude toward the Hague court and to treat containing provisions for arbitration and conciliation.

Mortgage Moratorium Provision Is Invalid

Indianapolis, May 8—(UP)—The three year mortgage moratorium provision of the Frazier-Lemke act was held unconstitutional by Judge Robert C. Baltzell in district federal court today.

The section which provides that foreclosure proceedings on mortgages may be postponed three years violates the right of the mortgagee to determine the time of selling the property when the mortgage is in default, the court held.

"You be the Judge and Jury too!"

TEST

TERRAPLANE

against the best any other low priced car can do!"

Drive as many of the other low priced cars as you care to... particularly the other three leading "makes." Then take a "Discovery Drive" in a Terraplane.

You will find very little difference in price for the model you want... but a big difference in what you get for what you pay.

JUDGE STYLE—Terraplane against the other three, with the only 1936 design that is entirely new.

CHECK SIZE AND ROOM—Full 115-inch wheelbase in Terraplane... up to 3 inches more than the others. And 145 cubic feet of inside space... more head room, leg room, seating room.

TEST EASE OF HANDLING—Something brand new here... Tru-Line Steering and Radial Safety Control, patent applied for. Exclusive in Terraplane.

TRY RIDING COMFORT—Terraplane's Rhythmic Ride, against the ride you get in any other low priced car.

CHECK PERFORMANCE—88 or 100 horsepower in a Terraplane... 3 to 9 more

than any of the other three leaders. More power per ton, and smoothness no other low priced car approaches.

TEST BRAKES—Terraplane is the only low priced car with latest, finest hydraulics, and a separate safety braking system operating from the same brake pedal if ever needed. Plus a third braking system from the easy handling parking brake.

MEASURE SAFETY—Only Terraplane, of the leading four, has a body all of steel with solid, seamless steel roof.

COMPARE ECONOMY—Terraplane averaged 23.95 miles per gallon in the Los Angeles-Yosemite Economy Run, with 3 passengers and baggage—with no coasting.

CONSIDER RUGGEDNESS—We'll show you owner records of 125,000, 150,000 miles and up. Ask any other low priced car to match them.

Just come in and say, "Show me." We'll back Terraplane... every time.

CONSTIPATION* MAY CUT DOWN YOUR ENJOYMENT OF LIFE

Long Neglected, It May Even Develop Serious Consequences

Common constipation* keeps you from being at your best. It causes discomfort, and may lead to headache and loss of appetite. You feel low, lack your usual vigor.

So many people treat this condition as a slight matter. But it can be the starting point of serious trouble. It contributes to a general run-down condition. With lowered bodily resistance, you are more likely to pick up the first chance infection you meet in your everyday routine.

Common constipation is due usually to insufficient "bulk" in meals. Fortunately, a delicious cereal supplies gentle "bulk." Within the body, the "bulk" in Kellogg's ALL-BRAN absorbs moisture, forms a soft mass, and cleanses the system.

Serve ALL-BRAN as a cereal, with milk or cream, or cook into muffins, breads, etc. Two tablespoons daily are usually sufficient. Stubborn cases may require ALL-BRAN after. If not relieved this way, consult your doctor.

ALL-BRAN is guaranteed by the Kellogg Company as an effective laxative food for constipation.* Sold by all grocers. Made by Kellogg in Battle Creek.

*Constipation due to insufficient "bulk"
