**ROARING WIDE OPEN!**  
Fred Jacoby, Jr., outboard motor-boat champion, says: "Camels make food taste better and help me get the good out of what I eat."

**A CASHIER HAS TO BE**  
fast, accurate, pleasant. Miss Travis Lander, shown at the ticket window, says: "I like to smoke at mealtime. Camels help my digestion."

## A SUGGESTION

At mealtime, try Camels yourself  
and see why smokers say

"For Digestion's sake—  
smoke Camels"

**WHEN THE ALARM RINGS,** Fire-Chief Frank Gilliar forgets about food and rest till the last spark is out. Does he enjoy smoking? "You bet I do," he says—"Camels. Smoking Camels while I'm eating and after gives me a great feeling of cheer and contentment."

**BEST-DRESSED GOLFERS.** Johnny Farrell was voted the best-dressed golfer at the National Open Championship matches for a number of years. He says: "A Camel puts me on the top of the world. Camels aid my digestion."

## The Presidential Room of the Mayflower Hotel Washington, D. C.

Beautifully gowned women... diplomats and statesmen... gather here, while the Mayflower kitchens give forth a stream of rare and tempting dishes. The famous *maitre d'hôtel* of the Mayflower—greeted as "Fred"—says: "Of course, our cosmopolitan clientele prefer Camels. They are a great favorite with our guests."

## Science confirms the truth of the popular phrase "For Digestion's Sake... Smoke Camels"

Scientists have found that Camels promote well-being by stimulating the flow of the digestive fluids... alkaline digestive fluids... necessary for good digestion. Often fatigue, worry, excitement, nervousness—all interfere with this digestive flow. Camels restore and increase it, thus assisting digestion to proceed normally and healthfully.

With their finer, costlier tobaccos, Camels give mildness a new meaning. They do not get on your nerves or rasp your throat. Make Camels your smoke—for their cheery "lift"... for digestion's sake. Camels set you right.

**Costlier Tobaccos!**  
Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

## BEHIND THE SCENES IN HOLLYWOOD

By HARRISON CARROLL

Copyright, 1936, King Features Syndicate, Inc.

HOLLYWOOD—These Changing scenes: More than the usual high on the set of "The Texas Rangers" when we go through the sound lock of the double doors, past the little red warning light.

Good reason, too, for Fred MacMurray, Jack Oakie, Lloyd Nolan and Director King Vidor to be happy. They are just in from location in Mexico, where the weather gave them only 12 good shooting days and Fred into the hospital for a

MacMurray, Oakie and Nolan play bad men in the story. They are rehearsing the scene where they are surprised by the sheriff's posse. The sound stage is a dense brush, set with a boiling coffee pot in the center. Over them are the branches of a large tree brought almost a thousand miles from location to match

to one side an oil burner to light the flames for the "fire" and a camera to get out steam when the scene is over. The camera is being hoisted by a crane over the scene.

When the posse rushes the trio, the wooded hideout is filled with extra deputies, shouting, firing, darting back and forth under the trees. The trio "escapes" and stand back of the camera while the posse picks up its frantic search.

Director King Vidor tells me an interesting sidelight on their location while the cameras get ready. It seems he decided to do a few shots while the weather was cooperating, converting an empty lot on the main street of Gallup, N. Mex., into a Mexican town. Jack Oakie is supposed to be in the scene, playing the famous character, Basse.

The sheriff of McKinley county, W. Roberts, strolls across the scene one thoroughfare to watch the proceedings. After the take, Actor Vidor tells him whom he is impersonating, asking, "Did you ever hear of Basse, the outlaw?"

Robert Roberts grins: "Guess, I know a little. My uncle killed him."

It is bothering Joe E. Brown, who is hunting up the Warners' star on the set of "Fido Joe."

"Watch what I have to do in this

scene," says Joe. "It's all Art! And here's what Joe has to do: He's sitting facing the engine in the compartment of a streamlined train, finishing breakfast. He has to balance a coffee spoon on the edge of the cup, rap it with another spoon and make it do a couple of loops into a water glass, all the time singing a Chinese folk song. (Joe's just in from China, in the story.)

"You can't fake this," says Joe. "That's what makes it Art. I've been practicing three weeks and the best I can do is once in seven tries."

A Chinese gentleman approaches at Joe's beckoning. He is Paul Fung, Nolan and Director King Vidor to be happy. They are just in from location in Mexico, where the weather gave them only 12 good shooting days and Fred into the hospital for a

## THREE SLIGHT ACCIDENTS HERE

No One Injured In Three Automobile Accidents Saturday Night

Minor auto mishaps Saturday night produced no serious results. Two brothers, Russel and Ralph Jauregui, figured in two accidents only ten minutes apart. The first accident happened at 7:40 p. m. Only ten minutes later the same car, driven by the same men, struck an auto driven by John Beal, accompanied by his wife. This accident occurred at Adams and Tenth street intersection.

Mrs. Beal was slightly injured. Both cars were considerably damaged. Authorities are investigating the collisions.

The third collision of the night occurred at 9 o'clock when an auto driven by Walter Lyons, of Blue Creek township hit a lamp post at Rugg and Mercer to avoid striking an auto driven by Walter Schumm, of Schumm, Ohio.

The Lyons car was damaged and the light post broken from its base.

For another, how about a printed sheer muslin in white on wine ground. You'll find loads of occasions to wear it for afternoons, to town or for those week-end vacations.

Cotton challis, prints, pique, glazed chintz, crash, linen, tub-sinks, etc., are among other suitable fabrics for your choice.
