Already this RED CROWN'S saved
me more than I paid for it... and I've
still got it!"
boasts Barclay B. Barnacle

Mr. Barnacle, known throughout the state for his prominence in Tall Stories Club circles, was glad to tell us how he solved the problem of gasoline costs... We pass it on for what it's worth, which doesn't seem to be much.

"I use our car all day, and my son, Barclay B., Jr., uses it all night. That used to take a lot of gas... until we switched to Red Crown, yesterday.

"Seems like right then our fortunes looked up. Why, only fifteen minutes after I'd bought the first tankful I stopped in the bank and found I had 85 cents more in my account. That's about five gallons saved."

"And this morning, after Junior had driven his girl 50 miles over to Lenoxville and 50 miles back to attend a lecture on Crop Rotation, there was still tea gallons left in the tank!"

"Course some would say Junior just might o' parked down the road a piece and never gone to Lenoxville... but anyhow, I'll be buying Red Crown if I ever have to buy any gas again."

Mr. Barnacle's imagination runs away with him at times, it seems. Certainly it did THIS time!

Of course, no motorist really has any such exaggerated belief as this, about gasoline mileage. But many do have inaccurate impressions. That's why Standard is conducting the most extensive road test ever attempted, this summer. Rather than make claims, Standard prefers to make it easy for motorists to find out the real facts about gasoline mileage for themselves.
