OFFICE-WORKER

HELPED BY NATURAL LAXATIVE FOOD

ALL-BRAN Corrected Her Constipation*

Here is her voluntary letter: "For years I was a sufferer from constipation. It was necessary to take a laxative every night before retiring. I was an office-worker, and did not get much exercise."

"Some one told me that ALL-BRAN was a good remedy for constipation. I bought a box, and found that it helped my condition. Since then I have not had to resort to laxatives."—Mrs. Margaret Jones, 911 E. Laura Street, Clearwater, Florida.

Scientific tests have shown that Kellogg's ALL-BRAN corrects constipation safely and pleasantly. This delicious cereal supplies mild "bulk," as well as vitamin B and iron. Two tablespoons daily are usually sufficient. If not relieved this way, see your doctor.

Wouldn't you rather enjoy this natural food than abuse your system with harmful pills and drugs?

Protect your family from the dangers of common constipation. Serve ALL-BRAN regularly for regularity. Either as a cereal with milk or cream, or cooked in tempting muffins, breads, etc. Recipes on every package.

Sold by all grocers. Made by Kellogg in Battle Creek.

*Constipation due to insufficient "bulk" in meals.

Government Rushes Aid to Drought Districts.

Scenes such as those above were typical of the Dakotas, Minnesota, Wyoming and other western states as farmers and government agencies joined forces to battle effects of one of the worst droughts in midwestern history. The government prepared to employ 25,000 needy farmers on public works projects financed by a \$500,000,000 federal fund under direction of Harry Hopkins.

HAIL AND RAIN
(CONTINUED FROM PAGE ONE)

The Hiawath unit of the upper Michigan National forest.

The second Michigan fire burned over 300 acres in the Huron National forest with 250 fighters battling to bring it under control.

Consumers feared a rise in food and meat prices. Large canning companies were reported buying up all available corn, peas and other vegetables, fearing a shortage.

Farmers in the 11 states where the drought has hit hardest deserted their fields days ago. Government agencies are paying them a "security wage" to build dams and roads and dig wells as part of a long time
