October with its pageant of col-  
ors. No state provides more beau-  
tiful scenes than does this old  
Hoosier commonwealth during the  
autumn season. Look it over.

About twelve hundred farmers  
in Decatur territory raise sugar  
beets and profit as a result. That's  
why every one should ask for  
Sparkling Crystal White Sugar  
made in the local plant.

The Cubs and Sox will fight it  
out again in a Chicago city series,  
designed apparently to get a few  
dollars to tide the boys over dur-  
ing the long winter season. The  
fans will have a good time throw-  
ing pop bottles at each other.

It takes eight hours of labor to  
make a hundred pounds of sugar  
and twenty millions pounds are  
turned out each campaign by the  
Central Sugar Company of this  
city. We can all well afford to  
boost such an institution, first last  
and always.

Ladies, be sure to be at the Ad-  
ams theater Monday afternoon at  
1:30 to 2, to get a good seat for  
the Daily Democrat's cooking  
school. You will enjoy it a lot. And  
it's absolutely free with no em-  
barrassing strings and nothing to  
sell but good will.

What Indiana makes, makes Ind-  
iana and we are turning out mot-  
ors, harness, sugar, stock feeds,  
electric motors, fertilizer, butter,  
ice cream, cheese, fine meats, ce-  
ment articles, castings, tile and  
building blocks, novelties, handles,  
hoops, cigars and numerous other  
articles. Use them, demand them  
and help make this a better com-  
munity. That's real boosting.

Fire Prevention Week opens  
next Monday by proclamation of  
President Roosevelt. Its purpose is  
to remind the public of the huge  
losses each year from this source,  
much of which can be eliminated  
by care. Accumulation of trash and  
old paper, faulty electric wiring,  
bad flues, worn out heating appli-  
ances are some of the causes. Have  
your furnace and chimney looked  
after now. Cleanliness is the best  
fire preventative.

Many people do not realize what  
an important industrial center this  
is becoming. For instance, the  
Cloverleaf Creameries handle 25-  
000,000 pounds of milk a year, man-  
ufacture six million pounds of but-

ter, a million and a half pounds of  
cheese, a million and a quarter  
pounds of buttermilk powder and  
thousands of gallons of the finest  
ice cream made any where. It's a  
really great outfit and aids in mak-  
ing this a market far above aver-  
age.

The forty-sixth annual session  
of the Indiana Conference on So-  
cial Work is in session at Indian-  
apolis this week end. For many  
years these meetings were limited  
to a few social workers, mostly  
from large cities. Now with coun-  
ty welfare boards, with aid for de-  
pendent children, the blind and the  
needy, the problems effect every  
one. This year sessions are inter-  
esting and the program includes  
men and women of national re-  
nown. Several from here are at-  
tending.

One of the most attractive spe-  
cial editions we have seen is that  
of the Goshen News-Democrat, ob-  
serving the one hundredth birth-  
day of that live and enterprising  
newspaper. Beautifully laid out  
and made up, well edited and per-  
fectly printed, with liberal fea-  
tures of historical interest, the  
publishers may well feel proud of  
their effort. For a century the pa-  
per has been a leading force in Elk-  
hart county and has much to do  
with making Goshen one of the  
finest cities in the middle west.

To call attention of motorists to  
the necessity for careful driving,  
a black flag, message that a death  
has occurred during the past twen-  
ty-four hours, will be hoisted on  
the steps of the Soldier's and Sail-  
or's monument in Indianapolis on  
those days when traffic fatalities  
occur. On other days a white flag  
will tell the story that no deaths  
have occurred from such accidents.  
That city has had 78 deaths from  
motor accidents this year as com-  
pared to 55 for the same period  
last year. However the accidents  
have been more frequent but the  
occupants of cars seem to have  
been luckier this year.

James A. Farley made a speech  
at Lansing, Michigan this week  
and declared that while the Dem-  
ocrats are having a few differen-  
ces, they will be ironed out at  
"our own council table." He de-  
clared that Senator Vandenberg  
can "arm the country against more  
dangers that never have happen-  
ed and never will happen than any  
man in public life." He predicts  
continued prosperity and greater  
success for the Democratic party.  
He asked every one to compare  
his bank account and his pay en-  
velope with a few years ago and  
thus determine whether or not the  
administration had been helpful.  
Well Jim has proven a good gues-  
ser in the past and perhaps knows  
more about what he is talking now  
than any man in America.

With the approval of the city of  
the plan for financing the new  
school building and the agreement  
to issue fifty thousand dollars  
worth of bonds, which with the  
school bonds and the government  
grant will make a total of \$245,000,  
it really looks as though this splen-  
did community will soon let such a  
contract and that work will start  
soon. The new building must be  
completed in nine months which  
means it will be ready for occu-  
pancy next September. The school  
board has already started a pro-  
gram to secure labor for the raz-  
ing of the central building and lat-  
er the west ward building will be  
torn down. The work is expected  
to progress rapidly from now on.  
Permanent plans will be adopted,  
bids will be received and a con-  
tract awarded within fourteen  
weeks from last Monday, to com-  
ply with the terms of the federal  
grant. Every agency should and  
will cooperate with the school  
board that we can secure the fin-  
est building possible for the mon-  
ey to be expended. This building  
will be used for many years and  
we are all deeply concerned in  
having it as comfortable and as

## Same Old Bait

healthy and pleasing as it can be  
made. The community is for the  
project and the school board and  
the council are to be commanded  
for their good work.

### Brooms

New brooms should be soaked in  
boiling hot salt water then dried  
thoroughly before they are used.  
The bristles will be toughened and  
the life of the broom prolonged.

### Aluminum Ware

All that is needed to remove  
those brown stains on aluminum  
pots and pans is a cloth wet in  
warm water, then dipped in salt.  
Rub on the stains and they will

come off very readily.

### Paint

A few days before paint is to be  
used turn the new can upside down.  
It will mix and avoid so much stir-  
ring when the can is opened.

## FORMER LOCAL PRINTER SO MUCH LIKE JIM FARLEY STRANGERS ASK HIM FOR JOBS

G. Frank Schultz

James A. Farley

Akron, O., Oct. 2 — (Special) —  
If looking like big Jim Farley  
makes you a good Democrat, G.  
Frank Schultz of 63 Kuder avenue  
ought to be F. D. R.'s right hand  
man.

Mr. Schultz, a Times-Press print-  
er, looks so much like the post-  
master general that people are con-  
stantly stopping him on the street  
telling him about conditions in  
their wards.

In strange cities even stranger  
people walk up, slap him on the  
back, he says, and then begin in-  
sulting him, saying it would be a nice  
thing if he got their sons-in-law  
soft political jobs.

Mr. Schultz is just about the size  
of Mr. Farley with an equally  
smooth pate and a deep husky  
voice. He thinks the similarity is  
a good joke. It serves, he said, to  
make a good Democrat a better  
one. He just has to live up to his  
appearance.

Sometimes the similarity be-  
tween the two men works the  
other way. Friends of Mr. Schultz  
see the postmaster general and  
wonder why the printer is shaking  
hands with so many people.

"Schultz," a friend told him re-  
cently, "I was out to the Demo-  
cratic picnic at Summit Beach Park  
and I saw a chap that looked just

like you on the platform."  
"I started to come up," the  
friend continued, "to find out what  
you were doing there. Then you  
began to talk. It even sounded  
like you. For a minute I thought  
I'd taken one too many. Then  
some one told me it was Jim  
Farley."

G. Frank Schultz was a printer  
at the Daily Democrat office when  
war was declared in 1917, and en-  
listed in Company A. Home in  
Decatur for the veterans' reunion  
today, the above article is of par-  
ticular interest to old friends of  
Frank.
