It's going to be a lot of clean,  
wholesome fun.Delaware county leads the state  
for divorces with a little over five  
to each 1,000 population. They do  
pick out the darndest things to  
excel in over there.Toledo's city manager acted  
wisely in refusing to permit a pa-  
rade of the Ku Klux Klan. Surely  
no one wants to go through an-  
other era of that kind of business.The Ford plant at Dearborn is  
to be doubled at an expenditure of  
forty million dollars, it is announ-  
ced. Evidently Henry and Edsel  
are not afraid of the country go-  
ing to the dogs.It's time to take the porch furni-  
ture in and get ready for the  
bleak days. You still have Indian  
summer to enjoy but don't think  
that the cold winds will hold off  
more than a few weeks.You are either for President  
Roosevelt and his plans to make  
this a greater democracy or you  
are for the old guard and against  
him. You can't be both, so you  
may as well make up your mind.Boys who destroy property as a  
part of their fun program as Hal-  
loween approaches should be told  
that they are doing wrong and  
that it is just as much a crime for  
them as it is for the bandit or  
other violator.Crime doesn't pay, especially  
when they go so far as to get Mr.  
Hoover and his G-men on the trail.  
The Brady gang dodged them a year  
and a half but finally came to the  
point where they had to shoot it  
out and of course, got the worst  
of it.President Roosevelt tells his  
story to the nation and thus keeps  
in constant touch with them. The  
news from Washington is usually  
colored to suit the opinion of the  
writer and it's fine to hear from  
the chief executive himself as to  
the what and why of his plans.Ogden Mills believed in the old  
reactionary methods of govern-  
ment, which will never again have  
the power they had during the days  
of Coolidge and Hoover, but Mills  
was sincere and the nation loses  
one who was able to present his  
argument with force, which is al-  
ways a good thing in any govern-  
ment.Early Hallow'een pranksters  
picked up a thousand pound roller  
belonging to an Allen county farm-er and hung it in a tree, fastening  
it with heavy wire. A lot of hard  
work and for what? How any one  
can get pleasure out of such an  
act, costing the owner consider-  
able of course, even if he could  
hire the same men who did it for  
nothing, is more than we can fig-  
ure.Several groups of church work-  
ers have petitioned the state board  
of agriculture not to hold a fair on  
Sundays, stating that it distracts  
attention and keeps people away  
from church services. It would  
be interesting to know just how  
many of those who attend the  
state fair on Sunday are kept from  
church. Why can't they attend  
both, especially since the program  
designed for the Sabbath is re-  
ligious and educational?A man named Studeny was  
caught at Ligonier with 215 gal-  
lons of alcohol in his car. He was  
fined three hundred dollars and  
sent to the penal farm for sixty  
days, disclosing a desire of officials  
in that territory to teach law vi-  
olators a lesson. The man stead-  
fastly refused to disclose where he  
got the stuff or what his racket  
was but evidently there is some  
kind of bootlegging game going on  
and it ought to be broken up rap-  
idly before it gets a good start  
again.The Duke of Windsor is visiting  
in Germany and his welcome  
among the laboring people, his  
ability to mingle and eat black  
bread with the workers, probably  
tells more than any thing yet pub-  
lished, why it was desired to get  
him out of power in England where  
they still believe in classes. He  
wants to help the under nourished  
and he is studying the subject  
earnestly. He will visit this na-  
tion and it is not improbable that  
some day he will return to cause  
more of a storm in England than  
he possibly could have done as  
king.According to the report from  
Don Stiver, director of the depart-  
ment of safety for Indiana, there  
were 3,595 automobile crashes in  
the state during the month of  
August and less than half of these  
reported to the police. That's a  
serious violation of law and be-  
coming more serious each month  
as the list grows. Failure to co-  
operate in the battle against acci-  
dents is punishable by revocation  
of driver's licenses and a fine of  
\$100 and the department plans to  
enforce this law. If you are in an  
accident, regardless of whether  
you are to blame or not, you should  
report to the police and fill out one  
of the blanks to be sent to the state  
department.When you examine 700 highway  
accidents and find that 525 of  
them occurred on straightaway  
stretches and only 125 at admit-  
tedly dangerous curves, you do not  
have to go far to find the only  
possible explanation, which is ex-  
cessive speed. Barring a few plain  
lunatics, the very great majority  
of drivers take such hazards as  
bad curves, hill crests, etc., with  
a certain degree of caution. But  
the wideopen modern road, prop-  
erly surfaced, marked and banked,  
is too much of a temptation for a  
multitude of people who are in too  
much of a hurry even to think.  
That is why the majority of acci-  
dents happen where there is least  
excuse for them.—Montreal Star.TWENTY YEARS

FREE LIME AT  
SUGAR COMPANYCentral Sugar Company  
Offers Free Lime To  
FarmersMany farmers of Adams coun-  
ty and vicinity are reported as  
taking advantage of the opportuni-  
ty provided by the Central Sugar  
company to obtain free lime.No charge is made for the lime,  
which also is loaded onto trucks  
without any charge.Company officials stated today  
that it is planned to make the lime  
available all the rest of this week.  
If sufficient demand is shown by  
farmers, the company may also  
make the lime available part of  
next week.The lime is of particular value  
in enriching the soil for legume  
growing purposes, although it is  
also an aid to other crops through  
its fertilizer properties.Officials stated that many farm-  
ers now engaged in hauling sugar  
beets to the plant are taking ad-

hauling the lime on return trips.Memorial Hospital

TO SAVE FUNDSGottschalk Points To Sav-  
ing Of Funds Through  
Competent HelpIndianapolis, Ind., October 13—  
(Special)—Millions of dollars will  
be saved the federal state and coun-  
ty governments in the next twelve  
months on public assistance pay-  
ments to dependent children, the  
blind and the aged as a result of  
competent investigation, Thurman  
A. Gottschalk, state administrator  
of public welfare, said today.Staffs of county welfare depart-  
ments throughout Indiana were es-  
tablished this month on the merit  
system, with the state paying half  
the salary expense of all visitors,  
visitor's aids, supervisors and child  
welfare workers. Likewise, by rules  
of the state department of public  
welfare, the case load for visitors,  
or investigators in counties, were  
limited to 200 per visitor on the  
aged and the blind and 75 per vis-  
itor on children's cases.In the past year, 24,000 children  
have become eligible for aid for  
dependent children. Ninety per cent  
of these have come off the relief  
rolls or other forms of public as-  
sistance. Eleven thousand formerly  
were on township relief; 5,000 were  
supported by parents having WPA  
jobs and 4,000 formerly received  
county aid through the mother's  
aid law.By the middle of 1938, the public  
assistance rolls of the aged, now  
standing at 40,372 will have grown  
to 65,000 persons, due to the drop  
in the age limit from 70 to 65 on  
July 1, 1938.This means, Mr. Gottschalk point-  
ed out, that within the next year,  
county welfare visitors, all of whom  
now meet minimum standards as to  
education and experience, will be  
busy with checking and verifying  
some 20,000 children's cases and at  
least 25,000 more aged cases to  
make sure that the monthly fed-  
eral-state-county checks are not being  
paid to ineligible. Last year, coun-  
ty welfare workers caused 6,000  
cases to be stricken from the age  
assistance rolls because of in-  
eligibility, and deterred the awarding  
of grants to 12,000 more ineligible  
applicants. This work of competent  
investigators alone saves the state,  
county and federal governments at  
least \$4,000,000 a year on payments  
in Indiana.While the number of investiga-  
tors throughout the state has been  
increased for the coming year, Mr.  
Gottschalk said, the total cost of  
their salaries to the counties had  
been actually decreased, since the  
state is refunding one-half the sal-  
aries of all employed under the  
merit system."Employment of competent inves-  
tigators is a good investment," Mr.  
Gottschalk said, "when we consider  
that we will be paying out \$1,500-  
000 monthly to 73,000 public as-  
sistance recipients. For years we have  
demanded in Indiana that public  
school teachers meet minimum qual-  
ifications. Welfare workers also  
dealing with children and families  
should be as well-trained as teach-  
ers."

suggested that the bonds, which  
will total \$50,000, be payable as fol-  
lows: \$2,000 the first year, \$3,000  
each of the next eight years and \$4-  
000 each of the next six years.Under this plan, the annual total  
payments of principal and interest  
will be about equal, as the principal  
payments would increase as the in-terest payments decreased. The  
bonds would require a civil city rate  
of about 10 cents to the retiree  
of the bonds each year.Some similar plan probably  
will be presented to the school board  
in order that the school board  
\$90,000 share of the cost may be

1. Long life and low upkeep

2. Scientific investigation has  
proved that it costs motor-

tires and car repairs.

3. Concrete builds business,
