

IN SOCIETY

STARRY AND GUEST

MEETING IS HELD
The W. M. A. of the United Brethren church held a literary and social program at the church Wednesday afternoon, with thirty-five present. Mrs. George Meyers was the leader, with "Christian Literature Around the World," as her theme.

The meeting opened with singing by Mrs. Carl Fisher accompanied by piano. Responsive reading of scripture was followed with prayer by Mrs. Lilly Hill.

A clever playlet was given by women of the organization entitled "Officers First." The past week was visiting week and it was reported that fifty calls had been made.

Plans were made to attend the rally to be held at Calvary church in Fort Wayne October 26. New members were received in the society, Mrs. U. S. Drummond and Mrs. Carl Fisher. The meeting closed with prayer by Mrs. Weber.

During the social hour which followed, lovely refreshments were served by the hostesses, Mrs. Delaney, Mrs. Addie Andrews and Mrs. Habert Cochran.

made by melting together certain ingredients. Sand lime and ordinary washing soda are used for bottles and window glass. Lead oxide is used instead of lime for flint glass—for things which must sparkle and shine. Various ways liquid glass was used—blown, molded and pressed.

"Glass was first made in America at Jamestown in 1608 and exported to England in 1609. The glass industry was given an impetus when coal oil became a lighting fuel."

Mrs. John Schug gave a subtitle on spun glass used for insulation and its possibility of use as a cloth, providing the scratchiness can be removed. Mrs. S. E. Hite as her subtitle discussed the use of safety glass to protect motorists.

During the social hour which followed, the hostess served delicious refreshments. The next meeting will be held at the home of Mrs. Ivan Stucky and Mrs. Hite will have the paper.

The regular meeting of the Philathea class has been postponed because of the Baptist convention, being held at Anderson this week.

OLD PATCHWORK QUILTS MAKES INTERESTING TOPIC

With "Old Patchwork Quilts" as her subject, Mrs. C. A. Dugan presented a most interesting paper when the Ladies' Shakespeare club met at her home on Monroe street Wednesday afternoon. Fourteen members were present.

A comprehensive review of the history of the making of patchwork from early Grecian and Oriental days to the present time was given.

Mrs. J. L. Kocher read "The Romance of Linen," Mrs. Krick told of "Old Fashioned Quilting Bees."

During the business meeting it was decided that each hostess would conduct the fifteen minutes devoted to the study of better speech. The ladies also voted to give \$4.00 for the planting of an acre of trees in Memorial forest at Shoals, Indiana, in commemoration of Mrs. Virginia Claypoole Meredith, honorary president of the Indiana Federation of Clubs.

Mrs. Dugan served a lovely luncheon at the close of the afternoon. The next meeting will be held at the home of Mrs. C. E. Peterson Wednesday afternoon. Mrs. William H. Bell will be the leader, with "The Restoration of Williamsburg and Period Furniture" as her subject.
