## CLUB H. HEUER CLUB HOSTESS

Mrs. F. H. Heuer was hostess to members of the Research club Monday afternoon. Mrs. John Parrish presided in the absence of the president, Mrs. Leo Saylor. The club collected was followed by a table discussion of current events after which Mrs. Nellie Han presented a most worth while and instructive subject "The Soy Bean Industry."

What is it you can find on the floor, on the pages of a newspaper, in the delicatessen and on the map dish? The answer is soy. This bean has been cultivated in China and Japan since ancient times. All that earlier people guessed about its nutritional value for humans and animals, its soil replenishing qualities and an astonishing portion of its medical properties observed in its by-products, are being verified in scientific laboratories. But technicians in the past few years have discovered many additional uses for soy bean products in our modern industries.

Soy bean meal today is present in the manufacture of billiard balls, auto accessories, axle grease, children's toys, glues, buttons and hairpins. Its weather-proofing and insulating properties play an important role in automobile manufacture.

"How much the future holds for the 'little honorable plant' is up to the research laboratories for it now appears to be on the threshold of a widespread conquest of the agricultural and industrial world."

Mrs. A. R. Holthouse and Mrs. R. W. Graham were welcomed as new members. Routine business concluded the afternoon meeting. The club will meet next Monday at the home of Mrs. Leonard Saylor. Mrs. C. M. Prugh will be in charge of the program with "The Bible As Literature" as her subject.

## 40 and 8 Engine on State Tour

"Black Jack" of Fort Wayne Voiture 37, the most travelled Forty and Eight Engine in the Legion, is shown ready to lead the mobilization of colorful replicas of French trains in the Box Car Membership Roundup of the Legion to be held Sunday, October 24. Upper left, is Charles Crippin, of Indianapolis, Grand Chief of the Indiana 40-8, and upper right, Russell R. Rhodes, of Peru, Department Commander of the Legion. Legionnaires of this county will take part in the roundup.

The colorful engines and box cars of the Indiana Legion, that are fashioned after the French trains that carried American soldiers in wartime, will rumble through Hoosier counties Sunday, Oct. 24, in a statewide boxcar round up staged by the Forty and Eight.

Services of the Forty and Eight, the play and honor society of the Legion, in getting early membership, were volunteered by Charles Crippin, of Indianapolis, Grand Chief of the 40-8. An effort will be made to exceed last year's roundup in which 267 posts sent in 5,000 cards in the boxcar mobilization.

Department Commander Russell R. Rhodes, of Peru, reports that over 8,000 membership cards for 1938 are already in state headquarters and he has called for the state quota of 31,000 before the end of the year. He has named John Goodrich, of Winchester, retiring Tenth District Commander, to have charge of the membership enrollment this year. County and post membership chairmen and Forty and Eight voiture officers will turn the cards over to the Forty and Eight Boxcar crews at strategic points, covering all counties. The cards will be brought to headquarters where they will be turned over to William E. Sayer, state adjutant, and Phil E. Clements, grand correspondent of the 40-8, for counting.

The Fort Wayne engine shown above, had the distinction of being the largest to roll in the New York national convention. It has been from coast to coast and is representative of many Hoosier 40-8 creations. The Legion is open to all World War veterans who served honorably, and is an organization committed to service. Department Commander Rhodes said, in asking all veterans to enroll.

WILLS SEARCHED FOR JOKERS AS WELL AS JOKES

Buffalo, N. Y. —(UP)—Although wills and last testaments are not usually humorous, Joseph E. Bright, Buffalo insurance man, has uncovered some "gems."

For instance, Bright revealed, there is the captain of finance who wrote:

"To my wife I leave her lover, and the knowledge that I wasn't the fool she thought I was."

"To my son, I leave the pleasure of earning a living. For 25 years he thought the pleasure was mine. He was mistaken."

"To my daughter, I leave \$100,000. She will need it. The only good piece of business her husband did was to marry her."

A merchant—apparently burdened with an extravagant wife—directed his lawyer to "may by will so my overdraft at the bank goes to my wife—she can explain it."

"I want six of my creditors for pallbearers—they have carried me so long they might as well finish the job," the merchant directed.

These and many others have been collected by Bright in a slim volume named "To Will or Not to Will". It is designed to show the value of writing wills and planning estates.

**Birthstone List Approved**  
London (UP)—British jewelers, after conferences spread over the last two years, have agreed on a new list of birthstones. The list agrees with the standard American list and also with the list most commonly used in France.

**Barber's Troubles**  
Wausau, Wis.—(UP)—Fred W. Trotter, 75, who has been a barber for 61 years, lists the sleepers, the "hurry-uppers," the "direct-eye" ers, the swallowers and the non-talkers, the swallowers and the non-er's experience.

**Mothers! Treat Children's Colds This Proved Way**

More mothers use VapoRub than any other medication of its kind—they have proved it by use in their own homes. It was further proved in the world's largest colds-clinic. No "dosing"—just massage VapoRub on throat, chest, and back at bedtime. Almost at once, its poultice-and-vapor action starts to loosen phlegm, relieve irritation and coughing, help break local congestion. Often, by morning the worst of the cold is over.
