National Adver. Representative
SCHEERER & CO.
15 Lexington Avenue, New York
35 East Wacker Drive, Chicago

Charter Member of The
Indiana League of Home Dailies.

The special session of congress
starts off with a bang that makes
it appear interesting. There is an
earnestness that should result in
good for the people. We believe
it will.

The Red Cross roll call is now
being made. Adams county has al-
ways made good and will this year
but we should make it as easy as
we can for those who do this work
gratis. Join now.

Don't let another week roll by
without joining the Red Cross. It's
the annual roll call and those in
charge with Walter Krick as the
head, want to make this the best
showing ever made in the county.

The 1938 license plates will be
ready for distribution December
10th and those who shop early will
find it more convenient than wait-
ing for the grand rush for you must
have the plates by January 1st if
you expect to drive with safety.

The football season is about over
with the finals coming Thanksgiving
in a few centers. Now comes
basketball with its thrills and yell-
ing and interest and good for four
months round of interest. We love
our sports in this country and it's
great we do.

Take care of your water meter
and hydrant, is the request of
Charles Brodbeck, the superinten-
dent in charge. It's important for
you, saving you money and much
inconvenience. Be sure to read
the advice and rules as published
a few days ago.

Buying from strangers is often
poor business as was demon-
strated again a few days ago when a
local resident paid a dollar for a
bottle of perfume that he could
have purchased from local stores
for a dime. Do your shopping in
the local stores where you know
you get value for your money.

Congress evidently will try to
aid business, which is a fine thing,
remembering of course also the
rights of others. Usually in this
country, we swing the old pendu-
lum too far. It is hoped in this
case they can reach a center point
that will be just right. If they do,
look out for a decade of good bus-
iness, better for every one.

This is Thanksgiving week and
we know how busy you are getting
ready for the occasion but don't
overlook the fact that it's also the
buying season for fall and winter
and that much trading will be
done. Be sure to advertise. Tell
your customers what you have to
attract them. They are in a buy-
ing mood and it's up to you to in-
vite them to your place of business.

The tax rate for Decatur will be
\$2.46 next year, a reduction by the
state board of one cent, over the
amount fixed by the county board.
It is a reduction of twenty-eight
cents over this year's rate, an ex-
cellent showing and proof that so
far as this community is concerned
the new law which lifts much

of the burden from local units, is
working. The state board cut the
rates in St. Marys, Wabash, Jeff-
erson, Washington, Monroe and
Berne.

Regardless of all the planned
"knocking" and fault finding of
Republican politicians, Mr. Roose-
velt will continue as president for
more than three years. And you
can bet your last penny he will
keep right on fighting for the
people. That doesn't mean he is
a radical or that he will fight busi-
ness or capitol but it does mean
he will do his best to see that they
get a square deal as well as labor,
the middle classes and every one
else.

The New York Herald announces
that President Dods of Princeton
and President Conant of Harvard
have been invited to accept the
post of chairman of the Republican
committee of one hundred to form
the policies and write the platform
of the next Republican convention.
WHAT? Surley that won't do, after
all they have said about the col-
lege professors and "brain-trusters"
of the Roosevelt administration. It
does seem that the only issue the
G. O. P. is interested in is "getting
the outs in."

Governor Townsend is a friend
to the farmer but that does not
mean he would do any thing for
them that he did not feel was fair
and right. A committee from the
farm bureau called on him the
other day urging him to call a
special session of the legislature to
remove from property all cost of
administering the social security
program. Governor Townsend
promptly declined to do so because
he did not consider it an emergency,
and under his oath he cannot
call a special session except when
an emergency exists. He explained
they had their opportunity when
the bill was enacted and at that
time it was the general opinion
that twenty per cent of the cost
of carrying the security law should
be born by the counties. If there
is need for a change of this pro-
portion, it should be more generally
discussed and taken up at the
regular session of the General As-
sembly, as the executive sees it.
His position in this matter shows
his loyalty to his state and his fair-
ness to every one, regardless of
their interests.

CAN'T PASS THE BUCK:

Few of us have any adequate
realization of the amazing progress
that has taken place in making our
modern automobiles mechanically
safe. Inventors and engineers have
literally shot the works, all the
way from major improvements in
brakes and bodies, to relatively
minor safety additions such as the
elimination of projections on in-
strument boards.

Similar progress has taken place
in highway design. Non-skid sur-
faces have been applied, curves
made into straight-aways, hills
flattened, and turns banked with
slide-rule accuracy. And what are
the results of all this expenditure
and time, money and ingenuity? A
soaring accident record, and a
death toll that approaches the 40,
000 mark annually.

The motorist can't pass the buck.
Individual carelessness, individual
incompetence, individual ignorance
—these are the prime causes of
accidents. The most withering
commentary that can be made on
our driving habits is the fact that
the great bulk of fatal accidents
occur on good modern roads, under
favorable weather conditions, and
involve cars in excellent mechanical
condition. The proportion of
accidents that are honestly caused
by mechanical failure of vehicles
or bad road conditions, is micro-
scopic.

Figures indicate that the 1937
toll will be even greater than the
all-time record established in 1936.
The most dangerous driving months
are just in the offing, bringing with
them shorter daylight hours, and
snow and ice and rain. There is
a very definite chance that you or

you, but neither of us was
because we couldn't remember
your name.

Rider Plans Long Trip
St. Louis—(UPI)—William T. Tindall, 27-year-old filling station
tendant, plans to make a 2,000-mile
trip from St. Louis to Mexico about
six weeks, according to his
wife. It seems that she remembers
his plans.

Let's Clear Out the Dead Wood!

one of your family will be the vic-
tim of a reckless motorist—or that

he did not consider it an emergency,
and under his oath he cannot
call a special session except when
an emergency exists. He explained
they had their opportunity when
the bill was enacted and at that
time it was the general opinion
that twenty per cent of the cost
of carrying the security law should
be born by the counties. If there
is need for a change of this pro-
portion, it should be more generally
discussed and taken up at the
regular session of the General As-
sembly, as the executive sees it.
His position in this matter shows
his loyalty to his state and his fair-
ness to every one, regardless of
their interests.

The facts and figures about this Universe are told in simple
language in our Washington Service Bureau's new 24-page, attrac-
tively bound Booklet, "Popular Astronomy."

Send the coupon below for your copy:

Frederick M. Kerby, Director, Dept. B-170,
Washington Service Bureau, Daily Democrat,
1013 Thirteenth Street, Washington, D. C.

I enclose a dime, for return postage and handling costs for my
copy of the Booklet "Popular Astronomy," which send to:

N A M E _____

STREET and No. _____

CITY _____ STATE _____

I am a reader of the Decatur Daily Democrat, Decatur, Ind.

flying mammals.

7. Virginia.
8. Benevolent Protective Order of
Elks.

9. Papeete.
10. "Citizen genet."

1. A conic section the intersection
of a cone with a plane parallel to its
side.

2. Kentucky.

3. Brother, a friar's title.

5. A volcanic vent, usually on the
side of the main cone, from which
gasses issue.

6. Prince Otto Leopold von Bismarck of Germany.

7. An instrument for measuring
distances traversed in walking.

8. Max Baer.

9. The time when light appears
in the sky.

10. Yes.

1. A pure form of commercial gel-
atin obtained from the swimming
bladder of several species of fish.

2. South Carolina.

4. Off the coast of California.

5. English painter.

6. No; zoologists class them as

boil before frying will not burst
open. Place them in a pan of cold
water, bring to a boil, then finish
the browning on the boiler.

Cold-Water Starch

The iron will not stick to starched
garments if just a little turpen-
tine is added to the cold water
starch.

Honest Junkman

New London, Conn. (UPI)—John Calamari, iron and scrap dealer, is an honest man. He picked up a handbag belonging to Mrs. Edith L. Zuckerman, New York City, containing a pendant watch, studded with diamonds valued at \$500, and \$22,40 in cash. Returning it, Calamari refused a reward.

Care of the Hair

Warm castor oil rubbed into the
hair the night before a shampoo
will correct excessive dryness. Lemon
in the rinse brings out the
beauty of blonde hair; vinegar
should be used by brunettes. Follow
the lemon or vinegar rinse with one
of clear water.

Sausages

Sausages that are brought to a

boil before frying will not burst
open. Place them in a pan of cold
water, bring to a boil, then finish
the browning on the boiler.

Cold-Water Starch

The iron will not stick to starched
garments if just a little turpen-
tine is added to the cold water
starch.
